<sup>5</sup> Concerning the terminology for the position left and right, as well as underneath, this is based on the spectators view of the position on the wall. Thus, not literally underneath the net. Front and back have been chosen to indicate whether it is the beginning or the end of the net, as the depiction of the net does not always run in the same direction.

\* This table does not include the captions above the carrying of the birds to present them to the tomb owner (LMP 048,2x & 191). The caption 'Overseer of the fowlers' of LMP 190 is also not included.

\*\* LMP 002c and 075 do not depict a signalman.

\*\*\* Position refers to the text above the figures. If otherwise, this is indicated by 'under' referring to *under* the arms of the signalman.

<sup>6</sup> WB 4-I, p. 262.7, 8, 9.

<sup>7</sup> Following Simpson, the LMP shows the transliteration *nw* instead of *nwḥ*. Montet, P. (1925), *Les Scènes de la Vie Privée dans les Tombeaux Égyptiens de l'Ancien Empire*, p. 56; Hannig, R. (2003). *Ägyptisches Wörterbuch I: Altes Reich und Erste Zwischenzeit*, p. 606.

<sup>8</sup> Following Montet, the LMP shows the transliteration *gr* instead of *grg*. Montet, P. (1925), *Les Scènes de la Vie Privée*, p. 27; Hannig, R. (2003). *Ägyptisches Wörterbuch I*, p. 1371.

<sup>9</sup> WB 3-I, 166.8. Quibell, et al. described and translated 'fowling by signal', or 'counting i.e. one two three, and away!' in: Quibell, et al. (1989). *The Ramesseum*, p. 29. Montet suggests 'l'abatage'= slaughter in: Montet, P. (1925). *Les Scènes de la Vie Privée*, p. 55-56.

<sup>10</sup> Hannig, R. (2003). *Ägyptisches Wörterbuch I*, p. 264. The word ʿbʒ cannot be used as object of the verb trapping. It might be a misspelling of ʿbw 'Vogel'.

<sup>11</sup> WB 2-II, p. 385 & 386.5, "Beischrift zum Zuziehen des Vogelnetzes". *wḏi* 'legen, setzen'. It is the only caption written with this verb, whilst the other captions are written with the infinitive *rdi.t*.

<sup>12</sup> The LMP indicates that it is a caption, but the vocative 'I' could indicate a 'spoken text'.

\* The belt could represent a coiled kilt, but it is more likely an apron with strokes of fabric (Vogelsang-Eastwood, G. (1994), *De Kleren van de Farao*, p. 70, fig. 116)

\*\* Concerning these items, a (small) variation between the haulers occurs (such as the head turning).

LMP numbers left out due to uncertainty and damage are 002c, 042, 109, 183, 184. See fig. 3.4.8 (p. 104).
