Introduction

Artistic approaches to peacebuilding are still often underappreciated or neglected in research and practice. The arts can transform relationships, fight conflict non-violently, reduce direct violence, and to build a culture of peace (Shank & Schrich, 2008, p. 220; Fairley & Kerr, 2020, p. 18). Prior studies on arts-based peacebuilding are mainly descriptive and focus on what types of art are being used for peacebuilding. It is important to further understand 'when' and 'how' arts can be used, so arts-based peacebuilding can be used more frequently. Therefore this study will focus on the question: *How do strategic arts-based initiatives contribute to peacebuilding in post-conflict environments?*

There is a longstanding relationship between arts and the realm of politics, which has at times led to both peace and conflict. The arts can be used as a tool to convey a message both discretely and explicitly. Not all art is political, but all art can serve social functions. Arts allow for communicating our experiences in ways that discussions and speech cannot (Johansen, 2017, p. 46). What is it that allows the arts to do this and how can the arts be used for peacebuilding? The arts are often perceived as a soft tool which does not match the hard reality of conflict and violence. Partially because of that the arts are still often overlooked as a tool for peacebuilding. Still the arts are increasingly used as a tool in peacebuilding, but the potential of the arts have not yet been fully realized. This study focused on the last stage of peacebuilding, which is concerned with reconciliation and trauma healing.

From shamanism to art therapy, for thousands of years the arts have played a therapeutic role in resolving conflict and easing human suffering (McNiff, 1979, p. 155). Several governments and non-governmental organisations (NGO's) are seeing their potential, and fund arts-based projects around the world. The study of arts for peacebuilding is multidisciplinary and scholars from psychology, peace and conflict studies as well as artists show interest in the phenomenon. The field of psychology mainly looks at how arts can change an individual's behaviour, while the field of peace and conflict studies examines their effects on communities. Artists pay special attention to the ways in which arts can be a non-violent form of fighting a conflict. Studies involving scholars from multiple fields are able to gauge the potential of arts the best. Arts-based peacebuilding is a relatively new area of interest in peace & conflict studies. Research on arts-based peacebuilding mainly started appearing in the early 2000s, most of these early studies are descriptive. These researchers were trying to classify and categorize what different types and approaches of arts have peacebuilding potential.

Studying arts for peacebuilding
Recent studies have mainly focussed transforming relationships through the arts. This category contains approaches such as using arts for trauma healing, conflict transformation, and restorative or transitional justice (Schank & Schirch, p. 217). Similarly Zelizer (2003) tried to categorize art forms for peacebuilding. He a divided the art forms into four different categories; Training tool, product based, process based, social protest (p. 67). This division is not based on the process of peacebuilding but rather on the product and process of art. Both frameworks have lifted the study of arts for peacebuilding significantly. Shank & Schirch (2008) emphasize the importance of using the analytical process of the 'strategic what, strategic when, and strategic how of peacebuilding' (p. 219). This was until then often overlooked in the research of arts for peacebuilding.

Theatre can serve as a tool for communication between and among people in conflict. In the book *Acting Together: Performance and the Creative Transformation of Conflict* by Cohen (2011) a number of peacebuilding performances played an important role in conflict areas, mainly rituals and theatre. The book has an emphasis on the use of performance in transformative action, communication and restoring the capacities for expression. Similarly Premaratna (2018, p. 12) argues that theatre can offer a space to counter-act structural violence. According to her, performed resistance can trigger conflict transformation within violent structural narratives (Premaratna, 2018, p. 27). Lahmann (2020) explored a different use for theatre in Afghanistan, where she investigated how engagement in creative arts could promote peaceful attitudes and behaviours (p. 20). She concluded that the performance initiative led to more social support and a sense of common humanity. The participants in the theatre initiative did not know that the program they participated in had this goal. Additionally to that it was a single case study and therefore hard to generalize from. Aguiar (2020) does find similar results and concludes that theatre of the oppressed 'can strengthen existing connections between peace, education, and peacebuilding practice' (p. 58).

Theoretical Framework

Concepts
There are a few key terms which need to be predefined for the purposes of this study. *Strategic* is defined for this study as those art initiatives which have conceptually grounded methodologies, aim at bringing about long-term social change, and are combined with other forms of peacebuilding approaches. Shank & Schrich (2008) empathize that to evaluate the effectiveness and impact of arts-based initiatives they need to be strategic so that there is a

clear method and goal to analyse (p. 218). According to them peacebuilding processes in general often do not meet the strategic method (p.218). This is a common critique on peacebuilding processes in general and arts-based peacebuilding meets this important criteria less often.

Arts refers in this study to the application or expression of human creative skill and imagination. The output of this has often emotional power and is primarily created for the aesthetics. Both classic and modern approaches to art are included in this conceptualisation. All art forms from visual to literary and performance to movement arts fall under the concept. However this paper will mainly, but not solely, focus on community based arts initiatives, which refer to the practice of arts in an community setting. This approach uses any type of media and is often characterized by opening up a dialogue and interaction within a community. It is done mainly by non-professional artists who use the arts to express themselves. The art produced in this form is usually not meant for public presentation, but can be (ICASC, 2021).

The United Nations define *Peacebuilding* as follows: "Peacebuilding involves a range of measures targeted to reduce the risk of lapsing or relapsing into conflict by strengthening national capacities at all levels for conflict management, and to lay the foundations for sustainable peace and sustainable development." (UNPSO, 2007). This study focusses on *post-conflict peacebuilding* which can be divided into three dimensions; Stabilizing the post-conflict zone, restoring state institutions, and resolving social and economic issues (Barnett et al., 2010) pp. 49-50). These can happen simultaneously, but generally follows a set process. Strategic arts for peacebuilding aim at social change which aids the third dimension resolving social and economic issues. The arts are not limited to this dimension but most initiatives take place for it.

Liberal peacebuilding & local ownership
As it comes to peacebuilding there is an ongoing debate surrounding the end goal. Some argue that peacebuilding processes should work towards creating a liberal democracy, thus focussing on democratic institutions building. Others argue that it should focus on social transformation to foster non-violent mechanisms of conflict resolution in any form. Critique on liberal democracy as end goal is that it often results into a rushed transition which actually undermines stability. There is growing support for the latter argument of a focus on social transformation (Hazen, 2007).. Peacebuilders are continuously looking for new tools and improving already known ones and the arts could be one of them.

Richmond and Mac Ginty (2014) condemn the West's neo-colonial approach to peacebuilding. They argue that contemporary peacebuilding is most effective when localised. This in the sense that states should be empowered to diagnose and solve their problems. More recently, Richmond and Mac Ginty proposed the idea of hybridity as an alternative to liberalism. Hybridity refers to the mixture of liberal and local practices (Mac Ginty & Richmond, 2016, p. 220). They encourage bottom-up lenses on state building, peacebuilding and stabilization, which have often been ignored in International Relations (p. 220). According to them hybrid political orders should be contextually formed and could benefit securing local legitimacy (p. 221). It is thus necessary to not just involve local elite in the peacebuilding process, but to also look at the culture, history and other context. The local turn is an opportunity for making peace (Mac Ginty & Richmond, 2013, p.780). It allows peacebuilders to explore new ways of empowerment and tools for peacebuilding.

Meaning-making & Possibility
The good of arts in peacebuilding is that it lets people think in new and different ways, it lets people think about the future again, through the process of 'meaning-making' (Hunter & Page, p. 132). Similarly Bang (2016) finds that 'arts-based approaches can facilitate transformative learning and thereby help people develop or enhance their capacities for more constructive engagement with conflict and build more cooperative relationships' (pp. 370-371). She calls for more research on arts-based approaches can facilitate transformative learning. This is in line with Premaratna (2018) who argues that specifically theatre has the potential to change the communal discourse of prevalent but less-heard narratives of structural-violence (p. 25). Bafour (2011), Fairey & Kerr (2020), and Shank & Schirch (2008) highlight in their papers the potential for arts in the reconciliation process. The foundation of this potential comes from the concept of possibility. Hunter and Page (2014) argue that engaging in arts initiatives provides conflict-affected communities with the ability to become open to the idea of possibility (p. 132).

Several scholars have written about the power of possibility coming from arts (Zelizer, 2003; Fairey & Kerr 2020; Johansen 2017; Hunter & Page 2014; Crane 2020). Possibility is described as an invisible world which 'makes possible, nourishes, and sustains the visible' (Johansen, 2017, p. 42). It is something which humans can imagine, but cannot interact with. According to Fairley & Kerr (2020) 'arts can create spaces for new imaginaries' (p. 161). These imaginaries are possibilities and impossibilities which allow for engaging in different perspectives. Fairley & Kerr (2020) emphasise that artists need to be supported in their

capacities and networks so they can create, share and communicate different stories (p. 160). Without this the impact of art initiatives will likely be limited. Art has a 'crucial' role in peacebuilding according to Crane (2020, p. 13), it has the ability to provide new processes for meaning-making, creating empathy, and bring about social change (Crane, 2020, p. 11). There is thus a high potential for arts in peacebuilding specifically in supporting the reconciliation process and connecting to different perspectives.

Identity change
Scholars such as Hunter & Page (2014), Crane (2020), Fairley & Kerr (2020), Johansen (2017), Premaratna (2018), Lahmann (2020) all investigated this potential for specific art forms and found positive effects on identity change. Zupančič et. al. (2021) investigated whether non-participatory visual arts have the same potential as participatory visual arts. They created a socio-psychological experiment to test if art can go beyond ethnic boundaries and can thus overcome inter-ethnic strife. They conducted this experiment among Bosnian higher education students showing them visual artworks and letting them fill out a questionnaire after. They found that as it comes to non-participatory visual arts the ethnicity of the artist for the perception of the arts do not matter (Zupančič et. al., 2021 p. 115). This is interesting because it suggests that the identity of the maker of art does not strongly affect the perception of the specific artwork. Additionally to that they found that the test groups do not consider non-participatory visual arts as relevant for peacebuilding (p. 117). They expect that this might be different among other social groups.

Empowerment and safe space
Other scholars looking specifically at the potential of participatory arts find more promising results (Hacking et. al., 2008; Bone, 2018; McNiff, 1979; Parent, 2016). Participatory art projects have the potential for improvements in confidence, self-esteem, social participation and mental health (Hacking et. al. 2008). This is most likely because of the creation of a 'safe space' (Hacking et. al. 2008). Bone (2016) suggests that the creation of a safe space allows for a change in identity (pp. 1183-1184). The supporting relationships being built through the therapeutic process of creation helps participants (p. 1184). Hacking et. al. (2008) find that participatory arts projects can help improve people's levels of empowerment (p. 647). This empowerment comes from the establishment of a safe creative space which in participants can manage their own level of risk (Hunter, 2008, p. 19). Similarly McNiff (1979) described how the environment in which the arts are used matter. Another factor which plays an important role is having a process. Most scholars find that having a long-term process for individuals in

group settings allows them to change (Hacking et.al., 2008; Parent 2016; Bone 2018; Hunter 2008).

Conceptual framework

*Figure 1. Conceptual framework arts-based peacebuilding*

Figure 1. shows that through the establishment of a 'safe space', arts-based initiatives can create three important concepts. Empathy, meaning-making and social participation are according to the literature only possible in a safe space. Engaging in the initiatives is supposed to bring identity change through empathy. The process of meaning-making provides participants with possibility in the form of hope. The social participation between participants can lead to empowerment. Collectively these three concepts can lead to social transformation, which can create a culture of peace and prevent future conflict from reoccurring. The conceptual framework has been used to analyse the data collected as part of this research.

Methodology

This research tried to explore the relationship between arts and reconciliation. It focussed on *How do strategic arts-based initiatives contribute to peacebuilding in post-conflict environments?* Qualitative methods were used to answer this question. Primary and secondary data was collected.

Data collection

In order to gain better insights in the relationship between arts and reconciliation, semi-structured interviews were conducted with nine facilitators of four arts-based initiatives. The interviews took place online through either Microsoft Teams or Zoom. Initially participants were found through articles on arts and peace on the webpage PeaceInsight.org. This is an online platform for local analysis, insights and mapping on peacebuilding globally. As well participants were found through the list of grants provided by the National Endowment for Democracy in the Balkans in 2020. Other facilitators were introduced through people interviewed. All facilitators have worked on arts-based projects in BiH. The facilitators were organisers, coordinators, volunteers and artists from BiH and other countries around the world. They provided reports, manuals, video's and articles related to their projects. The interviews ranged between 45 minutes to one and a half hours. All interviews were recorded and transcribed through the built in recording and transcription tools of the meeting platforms. Participants were asked to sign a consent form which stated the aims of the research and the data recorded.

Method of analysis

A thick-description was written to provide a detailed description of the relationship. "Thick description is not simply a matter of amassing relevant detail. Rather to thickly describe social action is actually to begin to interpret it be recording the circumstances, meanings, intentions, strategies, motivations, and so on that characterize a particular episode. It is this interpretive characteristic of description rather than detail per se that makes it thick." (Schwandt, 2001, p. 255). According to Holloway (1997) the strength of thick description is that it forms 'a clear picture of the individuals and groups in the context of their culture and the setting in which they live' (p. 154). Previous research has mainly focused on thin descriptions of arts and peacebuilding, not fully recognizing the context in which this tool for peacebuilding was used. Thick descriptions help to understand the context surrounding arts-based initiatives. Without a detailed description much of the value of arts-based initiatives will stay un recognized. On the other hand this method is limited in replicability since it is mainly based on the interpretation of the situation by the researcher. This can also lead to researcher bias which has to be taken into account.

Case selection

Bosnia and Herzegovina (BiH) is a country in Southeast Europe, between Serbia, Montenegro and Croatia. The country has three main ethnic groups of which the Bosniaks are the largest, after that the Serbs and then the Croats. BiH is a decentralized country consisting of three

autonomous regions. There is the Republic of Srpska, the Federation of Bosnia and Herzegovina, and the District of Brčko. Bosnia had been the site of religious and geographical conflict for over 700 years (Grodach, 2002, p. 61). The region is seen as the transition between the imagined worlds of the East and the West, Christianity and Islam (p. 62). Maria Todorova (1997) points out, 'common to all Balkan nations is the self-perception of being at the crossroads of civilizational contacts, of having the character of a bridge between cultures (pp. 57–58).

Between 1992 and 1995 the Bosnian war as part of the breakup of Yugoslavia and resulted in the first genocide in Europe since the Second World War. The war saw around 100,000, deaths and disappearances of which 61,4% Bosniaks, 24,7% Serbs, and 8,3% Croats (Ingrao & Emmert, 2012, pp. 139-140). The number of deaths has been a highly politicized debate mainly due to conflicting narratives of victimhood (Andreas & Greenhill, 2010, pp. 159-187). Political elites and other groups question who can be considered a victim of the war (p.184). According to a UN report chaired by M. Cherif Bassiouni, war crimes were committed by all sides, but around ninety percent were by Serbian forces (Waller, 2002, pp. 276-277). Around six percent is attributed to Croatian forces and four percent to Bosniak forces (p. 277). Prosecution of about a third of the war crime charges filed by the Bosnian state in 2019 was deferred to lower-level courts, which was met with heavy criticism of prosecutors (Kuloglija, 2019). The Bosnian war saw cases of ethnic cleansing, genocide, and mass rape. To prosecute war crimes committed the International Tribunal for the former Yugoslavia (ICTY) was established in 1993. According to the ICTY, 161 individuals have been indicted and 90 people sentenced. The war officially ended with the Dayton Peace Agreement (DPA) in 1995. One of the main focuses of the DPA is developmental projects in BiH, specifically those with an emphasis on reconciliation between opposing parties. Another primary goal was to foster economic and social development (Avramović, 2017).

Reconciliation
Although the conflict was ended in 1995, reconciliation still need much attention in Bosnia. The country is still experiencing the legacy of the conflict, which forms an obstacle for social, economic, and political development (Fairey & Kerr, 2020, p. 145). There are several factors which hinder the reconciliation process, such as limited justice as to war crimes prosecution, government support for victims of rape and those troubled by Post Traumatic Stress Disorder (Fantoni, 2015). According to Avramović (2017) a major issue for the reconciliation process in BiH is the prioritization by Bosnian individuals of ethnic preferences over national ones.

There is an inability to identify as 'Bosnian'. People rather identify along ethnic lines such as Bosniak, Croat, or Serb (Kostovicov & Bojicic-Dzelilovic, 2015). Populations are differently triggered by types of traumas, glories, and hardships, which are passed down by generations (Volkan, 2018). The social climate, influenced by story-telling narratives from relatives, impacts the perception of the 'other'. The education sector in Bosnia partial reinforces the identification along ethnic lines, since there is no unified school system. Due to that there is little interaction between students from different ethnic groups. The education system has created a sort of nationalism among Bosnian youth and increased divisions between the ethnic groups (Strupinskienė, 2016, p. 458). A good example of reconciliation success in Bosnia is truth telling in local communities, but this has not been a main approach. Critics argue that a truth and reconciliation commission would have great potential for the reconciliation process (Avramović, 2017).

Economic and social situation
The International Labour Organization reported that youth unemployment in 2019 was at 34 percent, which makes Bosnia one of the country's with highest youth unemployment rates in the world (ILO, 2021). According to interviews held by Saric & Herman (2014), there are few job opportunities for young adults in Bosnia. Many University graduates will apply to over 60 jobs and not receive a single interview (Saric & Herman, 2014). Many students are unable to move out of their parents homes up until in their thirties (Saric and Herman, 2014). Avramović (2017) states that the social situation is deteriorating and that the political system as it is unlikely to change this. The Washington Post reported that Bosnians see the DPA as an obstacle for effective change in Bosnia (Morgan-Jones et al., 2015). Despite this Bosnians seem to have accepted the DPA as the best compromise (Morgan-Jones et al., 2015).

Analysis

Interviews with facilitators of arts-based initiatives were conducted to understand how these kind of initiatives can contribute to peacebuilding. Full transcripts of the interviews can be found in the appendix. This section will first introduce the different initiatives, by discussing the organisations, projects and historical background the project(s) took place in. It will then cover common themes in three parts. The first part focusses on the important factors facilitating arts-based peacebuilding. The second part focusses on the audience, looking at the participants and non-participants. The final part focusses on the effects of the arts-based approach.

Art Initiatives

Maldi Most

The Maldi Most project, which translates to Young Bridge, was located in Mostar. It was originally set up during the Bosnian war by an international team funded by a German organisation. Mostar had been one of the strategic sites for reconciliation between ethnic fractions in Bosnia (Grodach, 2002, p. 62). In the early 2000s around 100,000 people lived in Mostar and it was therefore a primary urban centre of its region. Before the war around one-third was Muslim, one-third Croatian and one-fifth Serbian. Croatians formed a slight majority in the surrounding urban area, whereas Muslims in the city (p. 61). After the war the city was mainly composed of Croatians and Muslims, since many Serbians were displaced during the war or moved into the quasi-ethnic region of Srpska (p. 64). In Mostar, sporadic shooting began in the fall of 1991 (Grodach, 2002, p. 66). After Bosnia seceded from Yugoslavia in 1992, Mostar saw several waves of fighting. First when Bosnian Muslims drove out Serbian forces and people from in and around Mostar. Then when Croatia tried to establish a Croat mini-state of 'Bosnia-Hertzegovina', expelling Bosnian Muslims out of Bosnia and making Mostar its capitol. The fight for control over Mostar happened primarily on the front line of *Bulevar Narodne Revolucije*, which divided the city into two parts. The western part was occupied by mainly Croatians, while the Eastern part mainly by Muslims. This physical division of Mostar became the symbolic site for reunification between Croats and Muslims (Grodach, 2002, p. 67).

In this setting the Maldi Most project took place, it was literally set between broken down buildings in the West-side of Mostar. Jude, who worked as the project coordinator of Maldi Most, stated that the people of Mostar saw their "neighbours suddenly becoming their enemies" and after the war the "shattered buildings really reflected on what had happened to the people during the war". The divide in Mostar was present in every aspect, as for example people spoke different languages on either side of Mostar. With much foreign investment from many different countries "it felt like being at the cross-roads of geo-political relations" according to Jude. She said that when she came there in the late 90s, the people of Mostar were "suspicious" of foreigners coming to do peacebuilding work. There was overall much frustration against the international community. The aims of the project were those of personal development, management of trauma, and bridging the ethnic divide. The team of 9 they did this with was both local and international and all staff were in their 20s. Communication happened in both the local languages and English. Participants of the project

came from both sides of Mostar, which was something special at the time. As Jude stated that most participants from the East-side did not tell their family about the project. At first the project it was more a natural meeting grounds for exchange among the local youth and with internationals. Later Maldi Most become more structured and offered art education and projects to locals.

Stories for Society

Stories for Society (SfS) facilitated two projects in the Republic of Srpska around Prijedor. This city is located in the western part of the Republic of Srpska and is mainly populated by Bosnian Serbs. The during the Bosnian war about 2 million people were displaced, which was about half of the population. As result of ethnic cleaning against non-Serbs other ethnicities in Srpska were significantly reduced. The region saw Serb soldiers, police, and others attack Croats and Muslims, who looted and burned their homes. Some were forced to flee from the violence, others were rounded up and killed on the spot or elsewhere (Judah, 1998). The majority of the Croat population was reduced by 135,386 and the Bosniaks by 434,144. During the war three camps were established around Prijedor (United Nations Commission of Experts, 1994). Of the 496.000 Bosniak refugees about 136,00 have returned to the Republic of Srpska (Commission on Human Rights, 2004). After the war returning non-Serbs faced structural discrimination according to the Helsinki Commission. In some parts of Srpska non-Serbs returnees were ten times more likely to be the victim of violent crimes than local Serbs (International Crisis Group, 2002). In 2008, Society for Threatened Peoples reported to the United Nations Human Rights council that discrimination against non-Serb refugees in the Republic of Srpska was particularly high in areas with high unemployment (Society for Threatened Peoples, 2008).

Stories for Society is a Swedish based NGO founded in 2010 by Julie Lindahl. The aim of SfS is to renew the art of story-telling for learning and social transformation. For this, experts from diverse backgrounds and fields were consulted concerning the social need, concepts and tools. SfS focusses on group story-making around complex social issues, specifically those related to collaboration and inclusion. They work with schools, youth centers, non-profit and public sector organizations in project form. The SfS team has guided story-making processes among children and youth, and trained teachers and youth leaders. Most of their projects are based in Sweden. They all make use of the by experts developed 'Island Method', which is suitable for both youth and adults. In late 2014 and early 2015 SfS collaborated with Bosnian based NGO Most Mira, which translates to Bridge of Peace. Together, sponsored by the

Swedish Institute, they facilitated two projects in the Prijedor area. The general aim of SfS was to bring group story-making to the region, where ethnic segregation is still a politicized issue. The first project took place in a community center involving 35 students and seven teachers from schools of villages with different ethnic compositions. The community center was based between two former concentration camps and mass grave sites. The second project took place at a Youth Center in one of the poorest villages of Bosnia. Six youth leaders and eighteen youth participated in this project.

Firefly Bosnia

Firefly is based in Brčko, which is located in the Northeast of Bosnia, on the internal border between the Federation of Bosnia and Herzegovina and the Serb Republic, and on the international border between BiH, Croatia and Serbia. It is therefore a strategically important place. To understand the unique place Firefly takes place in, a closer look at the Dayton Peace Agreement (DPA) of 1995 is needed. The DPA ended the Bosnian war, but it divided Bosnia into three regions: Federation of Bosnia and Herzegovina, the Republic Srpska and the District of Brčko. The status of Brčko was one of the main issues discussed in the negotiations of the DPA, precisely because of its strategic position and multi-ethnic character (Jones, 2012, p. 128). The region operates on a self-governing basis and the DPA require the government to be of an equal multi-ethnic base. Up until 2012 the UN, through the Office of the High Representative, had international supervision over the region. Brčko's District Government is now independent from this supervision. Special in comparison to the other two regions, Brčko has an integrated school system. Student from different ethnicities thus go to the same schools. Still, education is considered a main area of success in Brčko. Over the past few years ethnic division has increased mainly through self-segregation (Geoghegan, 2014). This is notable in for example the creation of three separate memorials, due to disagreement about a shared war memorial. As well, as the homogeneous Serb outcome of a multi-ethnic housing scheme (Geoghegan, 2014). Even in the politics ethnicity still plays a role. The government of Brčko passed a law requiring ID cards and driving licences to state citizenship of the Federation of Bosnia and Herzegovina or the Republic Srpska (Geoghegan, 2014).

Firefly was created by the late British-born Ellie Maxwell. She was an aid worker in Bosnia and founded the organisation in 1998 on her belief that 'shared creative activities and contact with the outside world can play an important part in reducing tensions linked to sectarian violence' (Firefly Bosnia, 2018). The organisation provides community strengthening activities for the youth of Brčko such as creative arts and language workshops, summer camps

and events. An important part of firefly is cultural exchange which stated by bringing together children from Mostar and Brčko and let them take part in drama and music camps. Another key part to Firefly is the international volunteer program in combination with local volunteers. This to allow for different perspectives to been seen. Since 2012 Firefly sends local volunteers abroad to experience and learn from different cultures. It has created new opportunities for cross-cultural understanding and international friendships. Firefly had close support from the UN High Commission for Refugees asking them to run two refugee camps in Brčko (Firefly, 2018). The reconciliatory youth work of Firefly was praised by then UN Brčko Supervisor, Robert W. Farrand: "There is a crying need for creative outlets for the youth of Brčko. Firefly's programs fill as much of this need as they can, and are limited only by resources…I cannot overemphasise the respect that the local community and NGOs have for the work done by Firefly Youth Project" (1999).

Post-Conflict Research Center
The Post-Conflict Research Center (PCRC) was established in 2011 and is dedicated to restoring a culture of peace and the prevention of violent conflict in the Western Balkans. They do so by the creation, implementation and support of unconventional and innovative approaches peace education, human rights, post conflict research, and transitional justice. The Sarajevo based organisation does projects both around Bosnia and in the other Balkan countries. Their team consists of Bosnian nationals, while being supported by local and international interns, volunteers, and consultants. PCRC has received worldwide recognition for its work. For example, they received the 2014-15 Intercultural Innovation Award given by the United Nations Alliance of Civilizations and the BMW Group. Currently featured in the best practice toolkit, developed by the Congress of Local and Regional Authorities of the Council of Europe, is their Ordinary Heroes Peacebuilding program. PCRC used creative media as a tool for peacebuilding. They produce content which is meant to start a dialogue, elevate underrepresented voices and transform public opinion. Their peace education programs focus mainly on the youth, since they believe that the youth is a leading force of progress and positive change.

The Ordinary Heroes Peacebuilding Program was created in 2011 to decrease social distance between ethnic groups in local communities. The program uses reconciliation-focused educational and creative multimedia activities to increase intervention against bias –motivated behaviour by youth, resilience among youth participants to ethno-nationalist influence, and inclusive and shared understandings of the past. Ordinary Heroes comprises of four

components. They organize multi-ethnic contact-based 'Heroes in Training' sessions, which are designed to help participants understand the influences on the individual to act as a rescuer, bystander, or perpetrator during conflict. So far the program has reached over 1000 youth throughout Bosnia and the Balkans. The second component is the organization of multimedia festivals, which show case the creative output of participants of the Ordinary Heroes program. The third component is the Srđan Aleksić Youth Competition, which provides young people with the opportunity to discover, collect, and share stories of peacebuilding, moral courage, and inter-ethnic cooperation from their communities. Lastly there is the Ordinary Heroes Digital Archive, which is aimed at reaching more youth through showcasing the output of the program on social media. Ordinary Heroes uses an adaptive-approach and because of it, has evolved over the years through incorporating feedback and consulting experts.

Facilitating Change
The Local

Facilitators of all four projects stress the importance of the local and in particular local ownership. Dan and Jude that the project has to be built on "local knowledge". The involvement of local organisations or individuals makes sure that the project meets the needs of the target audience. Jude states that with setting up these kind of projects you need to listen to what the audience wants. They know the nuances to the situation and they can give you insights in the issues on-the-spot. Even PCRC, although Bosnian, still always first reach out to locals of an target area (Safet). Other benefits of having locals involved are that they can help with logistics as well as bridging a language gap. Apart from practical reasons for involving locals, it is also important for the sustainability of the project and the creation of trust. Especially projects from abroad have to these factors, because they often take place in a short-term period. SfS created local ownership through not leading the project but facilitating it. The participants and local organisers were given the methods and tools to do the project. SfS was there to help them lead the process in good ways, but how the process was applied and its outcome came from the ideas of the locals. Even for Bosnian based organisations such as PCRC, involving the local is an important first step to the project and continues throughout the project.

The Foreigner

An international aspect to arts-based initiatives is not a key component, but has great benefits. It can provide a sense of neutrality and new perspectives. For Firefly involving internationals

in their project is of great importance. Especially since up until ten years ago the youth was unable to travel, having internationals coming in provided "a window to the outside world" according to Dina. Adin adds that internationals brings most of the "diversity" to the community of Brčko. It allows people to experience different cultures. According to Dan as an international involved in these projects you are "holding up a mirror", which has a reflective effect on locals perception of the situation.

Experts in the Arts

For the arts to be effective having artists involved is not required, but they can elevate the project results. Participants of all the four different projects did not necessarily have prior skills in the arts. For SfS makes use of a story-based approach, in which artists can support the visualization process of the ideas created by the participants. According to Dan it is the trust in "the power and potential" of using a creative approach that brings the most difference. He says that when a story created by locals and further developed with the help of professionals can engage a wider audience. It allows more people to connect with the story. It will have a longer term effect can amplify certain components.

A Safe Space and Trust

At the foundation of all four projects sits the creation of a safe space and a level of trust. For the arts to be effective a safe space needs to be created, in which participants feel comfortable to share, confident and are able to fully participate in the process, says Jude. Critical to the story-making process used by SfS is the creation of a "safe environment" say Julie, Megan and Dan. According to Megan the safe environment has to be since participants make use of their own experiences. The creation of a safe space is built into the Island Method of SfS and resolves around three principles: everything is possible, there is no right or wrong, and we take care for each other, says Julie. Intertwined with this safe space is the creation of a level of trust. According to Jude, the establishment of trust between participants of Maldi Most and the facilitators was important since it allowed them to open up and listen to different perspectives given. Dan states that the way these projects help is by building trust in combination with building relationships. Julie, Dan and Megan say that this trust should not just be created between the external (foreign) facilitators and participants but should also focus on the relationship between external and internal (local) facilitators.

The Audience

A multi-generational approach and a youth focussed approach

All four initiatives focussed on reaching out to Bosnian youth of ages as young as 6, up to youth in their early 20s. Safet states that PCRC reaches out to older generations as well, but that they are harder to reach and to change. They focus on the youth because they belief that "the younger generations are going to make or break the future of this country [Bosnia]". At the same time the younger generation, mainly the higher educated ones are leaving the country to due to a lack of job opportunities. They are living the aftermath of the Bosnian war but were not in it. Dan thinks that there has to be a multi-generational approach to these kind of projects. He acknowledges that it is more difficult to reach and transform the older generations, but thinks that without a holistic approach the effects of youth focused projects are limited. With a youth focussed approach, the return of the participants to their own environment needs to be taken into account.

The public approach

Public-display of the output of the arts-based initiative has a wider reach. PCRC tries to increase their reach through the placement of billboards of the content created in the Ordinary Heroes program across Bosnia. The billboards were placed on town squares drawing the attention of people passing by. Similarly, the second project of SfS ended with an interactive performance on the village main square. Parents and other locals came out to see what the youth was up to, which started a dialogue and gained more support for the local youth centre. Leading up to the performance the participants were rehearsing outside several times, which made parents already see the children interact with each other and started conversations between parents which might not have been otherwise. The parents starting a dialogue while waiting for their children is also a positive effect of the Firefly workshops. Through this another generation is reached and can be seen as a spill over effect. For Maldi Most the most influential public display was an exhibition procession through both sides of Mostar drawing the attention of many different peoples. Important with a public approach is as Dan points out, "that the community has to be ready" as well as the participants. Focussing too much on the output of the arts-based project can hurt the progress made with the participants or within the community.

The Arts-based Approach
Empathy

None of the facilitators of the four initiatives mentions the concept of empathy. This does not mean that the concept is redundant for peace. Prior research did have strong findings for the role of empathy in arts-based peacebuilding.

Possibilities, Imaginaries and meaning-making

The participation in the arts creates new possibilities, in the sense that it gives hope. Jude says that the project provided the participants with new perspectives and ideas. It allows for them to see things in a different way. Similarly, Dan states that it creates a "shift in thinking, [a] shift [in] their mind-set". He thinks that it allows people to "imagine new possibilities". People from former conflict areas such as Bosnia can be stick in a certain mind-set. The arts allow to explore what change would look and feel like according to Dan. In that sense the arts provide different options, which could be useful trying to overcome the solidification of the conflict. The SfS Island Method integrated this idea, through making the stories always about a different possibility. The idea is that there is a stranger coming to the island and it is up to the participants of the project to show this person around their imaginary island and make the stranger want to stay after the tour.

Empowerment

Although an aim of the four initiatives was to empower the participants, the processes of the initiatives do not focus on empowerment. It is more that the arts-based projects allow for empowerment through participants taking leadership roles. Julie describes that to bridge the language barrier between the foreign facilitators and the participants the children, who some of spoke some English, took a pivotal role in translating to the other participants what was said and the other way around. In turn this would inspire others to as well take more initiative and show their skills. In this sense the arts-based project created more confidence for the participants. For the Maldi Most initiative confidence was built through participants taking risk within the created safe space as well as parting public showcasing of the art output. According to Jude the project gave participants a greater "ability to express themselves".

Narrative change

Arts-based initiatives provide the tools for people to create their own narratives of social issues. They facilitate narrative change, which is one of the aims of PCRC. Sarif states that their workshops allowed for identity change through giving participants the chance to discuss different perspectives. A group dialogue is part of all initiatives and lets people be exposed to

another narrative than they have been given by their own environments. SfS does this by letting the theme of the story be determined by the target audience. This could be the teachers of students partaking, participants or others. By letting them create their own collective story a new narrative can be formed. Jude states that this leads to identity change.

Early warning system

An important part of peacebuilding is preventing the conflict from reigniting. Arts-based initiatives can serve as an early-warning mechanism for the occurrence of extreme views in society. Julie says that the story making process is preventive in that it deals with the "development of prejudice". It counters in a way the early stages of extremism among participants of the project. As well it exposes troubling perspectives, which can then be tackled. According to Sarif their projects similarly expose forms of extremism through what comes up during the process. He states that the project is as an "alarm for negative behaviour". This as well through the dialogue and creative output that happen as part of the arts process.

Overall the facilitators of the arts-based initiatives believe that the process should be slow and more process focussed than output focussed. It cannot be rushed since it requires time to understand the specific needs of the local community and individuals. To that the process should be flexible, in the sense that one shoe does not fit all. The added value of a process that takes the time for the creation of a safe space and trust is significant for the effectiveness of arts-based peacebuilding initiatives.

Discussion

The theory suggested that within the confinements of a safe space the concepts of empathy, meaning-making and social participation would lead to identity change, possibility, and empowerment. Following this theory arts-based initiatives contribute to peacebuilding through creating social transformation of communities. The initiatives would therefore serve as a reconciliation and conflict prevention tool in post-conflict environments. The findings of this study confirm this theory, but suggest that the research focus on empathy, meaning-making and social participation should change. In addition to the role of the aforementioned concepts, important to arts-based peacebuilding are the facilitating factors. The research finds that three factors significantly impact the facilitation of arts-based initiatives: local ownership, foreign cultural exchange, and the creation of a safe space. These three factors lay at the foundation of the arts-based initiatives, since they facilitate social transformation. Therefore,

arts-based initiatives contribute to peacebuilding through the process of social transformation, which is facilitated by the creation of a safe space, cultural exchange, and the local ownership.

At the foundation of the arts-based approach lays not only the creation of a safe space, but also the involvement of the local. The facilitators, whether domestic or international, rely on the knowledge and understandings of the local. The involvement of the local allows the facilitators to create or adapt a project to meet the specific needs of the community. It allows the project to be sustainable, so it can be continued without external help. It was outside the scope of this research to study the exact methods used to provide local ownership within arts-based initiatives, but it is suggested that those studying local ownership in relation to peacebuilding could learn from the involvement of the local in these type of projects. The methods used could then be applied to different peacebuilding components.

Many scholars have been focussing on which types of arts can contribute to peacebuilding. The findings of this research suggest that although different art forms likely have a different effectiveness, it is not the arts, but the facilitation of the initiatives that is most important. Therefore future research should focus more on the facilitation of the initiatives than on the art forms and types. This could help peacebuilders better understand how they can operationalise the arts-based approach for peacebuilding. Additionally, this research finds that the arts can serve as an early-warning system for raising tensions and can prevent future conflict from occurring. It was outside the scope of this research to focus on these two areas, but they are as well important research areas.

Conclusion

Overall the facilitators of the arts-based initiatives believe that the process should be slow and more process focussed than output focussed. It cannot be rushed since it requires time to understand the specific needs of the local community and individuals. To that the process should be flexible, in the sense that one shoe does not fit all. The added value of a process that takes the time for the creation of a safe space and trust is significant for the effectiveness of arts-based peacebuilding initiatives. The arts-based approach requires little creativity, instead it heavily relies on building trust and connections. It is not the arts that are most important to the process, but the dialogue which happens between people when participating on these kind of projects. It is the facilitators that allow this dialogue to happen, since they create the safe space. Facilitators do not have be experts in the arts, they just need to be acquainted with the arts-based approach. As the facilitators stated, one project is not going to make the change. There needs to be a long-term process, preferably using a holistic approach. It requires

reaching out to many different identity groups of all generations. Since the influence of changing one participant can lead to affecting people in the environment of that person, the arts-based approach does not require everyone to take part. It is in combination with other peacebuilding tools and efforts that the true potential could be unlocked.

28

00:05:21.270 --> 00:05:31.980

Salim Stokey: So I like i'm looking at how strategic arts based initiatives can contribute to peace building processes in post conflict environments and.

29

00:05:32.640 --> 00:05:34.980

Dan Boyden: yeah like what's that what's the coolest what are you studying.

30

00:05:35.490 --> 00:05:46.080

Salim Stokey: So I studied international relations and organizations and my My thesis seminar was on peace building and security.

31

00:05:46.410 --> 00:05:47.520

Salim Stokey: Okay um.

32

00:05:47.610 --> 00:05:52.320

Salim Stokey: So yeah within that like I was like I was reading about.

33

00:05:53.400 --> 00:05:56.850

Salim Stokey: Things of collective memory like how that's influenced about.

34

00:05:58.020 --> 00:05:59.580

Salim Stokey: A transitional justice.

35

00:05:59.610 --> 00:06:02.940

Salim Stokey: and voting mechanisms in that sense and.

36

00:06:04.350 --> 00:06:11.850

Salim Stokey: And I really got interested in like the reconciliation processes, actually, and since I actually did some.

37

00:06:13.230 --> 00:06:26.130

Salim Stokey: Like art art projects in that sense, like in Indonesia, two years ago with like, with a teens that I had had some issues in that sense, and some.

38

00:06:27.030 --> 00:06:43.440

Salim Stokey: Some children like younger children and that yeah I was like Okay, I really want to know more about that, and like how that may be, can be applied to like a wider use so under yeah under research and under us a few like so.

39

00:06:43.950 --> 00:06:52.020

Dan Boyden: yeah yeah that sounds cool that sounds interesting I took what I do it so, and so I run an organization in the UK called to change collective.

40

00:06:52.290 --> 00:06:57.630

Dan Boyden: yeah and we have lots of expectation is often working and kind of like post conflict.

41

00:06:59.070 --> 00:07:05.130

Dan Boyden: settings but yeah i'm trying to connect the research and the practice so we'll practitioners and my background is theater.

42

00:07:05.160 --> 00:07:05.970

Salim Stokey: and

43

00:07:06.180 --> 00:07:15.120

Dan Boyden: But it's yeah it's an interesting one, to try to bring the research and the academia towards the practice and, like that makes a strong offer.

44

00:07:15.450 --> 00:07:17.820

Salim Stokey: yeah no I had a look at that website actually.

45

00:07:17.820 --> 00:07:21.750

Dan Boyden: Do yeah yeah I was it was very interesting actually like.

46

00:07:22.350 --> 00:07:23.790

Salim Stokey: Maybe in the in the future.

47

00:07:23.790 --> 00:07:24.930

Dan Boyden: Will approach.

48

00:07:25.290 --> 00:07:27.540

Salim Stokey: That organization as well, I do some research.

49

00:07:27.570 --> 00:07:30.960

Dan Boyden: yeah yeah great yeah yeah we're always looking to connect with people so yeah great.

50

00:07:32.160 --> 00:07:36.000

Salim Stokey: Yes, so so far, like ensure like I had.

51

00:07:37.290 --> 00:07:52.050

Salim Stokey: conversations with 778 people before from two organizations in Bosnia and one organization based in Sweden that also did a project in our jet like as.

52

00:07:52.170 --> 00:07:53.040

Dan Boyden: Always yeah.

53

00:07:53.640 --> 00:07:54.510

Salim Stokey: Of course, and.

54

00:07:55.890 --> 00:08:02.610

Salim Stokey: And one organization from the UK actually that's a that as well, did the project like early on, after the war.

55

00:08:03.780 --> 00:08:05.580

Dan Boyden: Which what what which organization.

56

00:08:06.480 --> 00:08:07.170

Salim Stokey: So this was.

57

00:08:08.580 --> 00:08:13.290

Salim Stokey: Like I know need, and I remember like from every call it a name from.

58

00:08:14.370 --> 00:08:17.550

Salim Stokey: The Boston your name, but it was like molly most.

59

00:08:18.660 --> 00:08:23.370

Salim Stokey: which was in in collaboration with the University of Edinburgh.

60

00:08:23.730 --> 00:08:26.340

Salim Stokey: Okay, and and.

61

00:08:26.430 --> 00:08:26.820

Dan Boyden: It was a.

62

00:08:27.240 --> 00:08:28.830

Dan Boyden: Have you spoken to come out Campbell.

63

00:08:29.640 --> 00:08:35.640

Salim Stokey: um so I wasn't able to schedule a meeting with him, but I had some email contact contact.

64

00:08:35.640 --> 00:08:35.880

Salim Stokey: us.

65

00:08:36.120 --> 00:08:42.240

Dan Boyden: yeah yeah he's a good guy most Mira, English, I think, is the organization probably.

66

00:08:42.270 --> 00:08:49.050

Dan Boyden: yeah yeah he's amazing he feels like he's the glue for a lot of the work that happens anyway you've got questions, so we can.

67

00:08:50.400 --> 00:08:50.820

Get on.

68

00:08:52.110 --> 00:08:54.960

Salim Stokey: So um yeah, I would like to start with.

69

00:08:57.300 --> 00:09:05.280

Salim Stokey: let's see yeah so what What was your could you describe me your role during the project in Boston jada that you did in collaboration with.

70

00:09:05.580 --> 00:09:09.060

Dan Boyden: yeah yeah yeah so um.

71

00:09:10.290 --> 00:09:26.310

Dan Boyden: So my background is theater i'm a theater practitioner, and I often work a lot with storytelling with groups that might feel like they're kind of marginalized groups or that I work a lot in the UK, with an organization called cardboard citizens.

72

00:09:26.730 --> 00:09:33.990

Dan Boyden: Okay, and there are cool organization they work with homeless communities using forum theater I don't know if you know about forum theater.

73

00:09:35.790 --> 00:09:45.690

Dan Boyden: it's interesting chicken it's worth checking out in terms of arts approaches in kind of fragile communities it's a guy called Augusto bow the bow.

74

00:09:46.710 --> 00:09:49.050

Dan Boyden: And he is a Brazilian.

75

00:09:50.340 --> 00:10:10.980

Dan Boyden: practitioner and activist and politician and he uses theatre with with communities that feel marginalized so he'd say he is how thing is using theatre as a as a kind of rehearsal to try out strategies for change, so a lot of the work that i've been doing.

76

00:10:12.120 --> 00:10:14.520

Dan Boyden: has been around for theater.

77

00:10:16.800 --> 00:10:30.210

Dan Boyden: And, but so I guess storytelling this idea of storytelling and how we tell stories but but practically so how you know how can we turn stories into something that is physical and not just something that is written or something that is all.

78

00:10:32.190 --> 00:10:43.170

Dan Boyden: And I met Julie, I don't know where and I don't know how I can't remember, but I met Julie i'm through.

79

00:10:44.700 --> 00:10:57.240

Dan Boyden: I think probably through Campbell and through my spirit I volunteered was most with it for most of mirror back in 2008 or 2007 they had a big.

80

00:10:58.380 --> 00:11:16.560

Dan Boyden: Had a big festival where they put loads of artists 100 artists from all over Europe and the world to come and work with 500 kids in Bosnia and I came out and I volunteered and I was doing some theater work, then, so I can, I think Campbell probably introduced me to Julie.

81

00:11:17.730 --> 00:11:25.710

Dan Boyden: And my role was to support the process that Julie was taking those young people soon, so this kind of storytelling process.

82

00:11:27.690 --> 00:11:32.430

Dan Boyden: And the creation of the story that i'm sure to talk to you about in terms of working, you know.

83

00:11:33.540 --> 00:11:44.910

Dan Boyden: And my role was to be in those initial workshops, just to be part of that, and then to think about how that could be translated into something theatrical.

84

00:11:46.140 --> 00:11:54.990

Dan Boyden: So, taking the story and taking the kind of story process and and trying to think about how do we turn it into something which is a public, which is a play, how do you turn it.

85

00:11:55.170 --> 00:11:56.070

into a performance.

86

00:11:57.300 --> 00:12:05.580

Dan Boyden: And how do we kind of use some of the storyline that was coming from those young people that they created about this this story of the outsider.

87

00:12:07.110 --> 00:12:11.160

Dan Boyden: into something which feels like it's a kind of piece of data, which is also able to bring.

88

00:12:11.910 --> 00:12:22.800

Dan Boyden: Which is useful for those young people who are going through the process of performing it, but also as a way of I guess amplifying the messages that were at the heart of the piece.

89

00:12:23.280 --> 00:12:33.180

Dan Boyden: So there was lots of interesting themes and ideas, and I think that they wanted to do something which was, which was Community focused and something which was public to be able to bring in.

90

00:12:34.680 --> 00:12:40.650

Dan Boyden: audiences to also understand and think about some of the issues that seems and the idea is that those kids were looking at.

91

00:12:41.490 --> 00:12:51.330

Salim Stokey: And so I know that store stories for society that the two projects in Embassy and were you involved in both of them were.

92

00:12:51.570 --> 00:12:53.580

Dan Boyden: I was involved in the Second, I think you.

93

00:12:54.090 --> 00:12:57.660

Salim Stokey: wanted Youth Community Center I.

94

00:12:57.750 --> 00:13:01.800

Dan Boyden: yeah okay that always that it was that one yeah yeah exactly so it was, I think it was the second one.

95

00:13:03.270 --> 00:13:09.690

Dan Boyden: And and yeah it was great I think I went twice, I think I went with Julie and with megan.

96

00:13:10.080 --> 00:13:19.560

Dan Boyden: yeah and I, and I sort of saw the process and I helped them in terms of help them like facilitate will deliver their process yeah and then I had an idea of the story.

97

00:13:20.100 --> 00:13:30.600

Dan Boyden: And the themes and I met the young people, and then I came back to UK and went back with a designer and somebody else, and we did the play them over like a week.

98

00:13:31.200 --> 00:13:38.550

Salim Stokey: Okay, so when you came back the was that maybe when you guys shot the video is on YouTube.

99

00:13:38.970 --> 00:13:39.480

Dan Boyden: When.

100

00:13:39.720 --> 00:13:44.670

Salim Stokey: they're everyone, like the kids performed it on the square I think like the.

101

00:13:44.700 --> 00:13:48.330

Salim Stokey: village square something attributes and everything.

102

00:13:48.660 --> 00:13:52.050

Dan Boyden: yeah exactly and we came back with a filmmaker as well that's it yeah yeah.

103

00:13:52.230 --> 00:13:58.710

Salim Stokey: Okay, and in what How would you describe the environment, this this took place in this project.

104

00:13:58.830 --> 00:13:59.370

and

105

00:14:01.740 --> 00:14:07.170

Dan Boyden: In terms in terms of the context in terms of the essence of what I saw in or.

106

00:14:07.350 --> 00:14:08.910

Salim Stokey: yeah what you saw how you.

107

00:14:09.390 --> 00:14:09.690

saw.

108

00:14:11.190 --> 00:14:24.960

Dan Boyden: I think that the the was interesting about Bosnia is even though it's like second it's like two or three generations, maybe you know, two generations, or like a lot of.

109

00:14:27.240 --> 00:14:31.710

Dan Boyden: It though it's kind of you know, the early 90s was when the conflict happens said.

110

00:14:31.710 --> 00:14:44.040

Dan Boyden: So, so that even as there's probably young people now, who have been born to parents who didn't live through it so there's like second generation kind of but it's really visible it's still feel that the conflict is very visible.

111

00:14:45.270 --> 00:14:48.120

Dan Boyden: So you can see lots of the houses are still I still am.

112

00:14:50.160 --> 00:14:51.900

Dan Boyden: Very noticeably.

113

00:14:53.520 --> 00:15:08.700

Dan Boyden: rundown you know and so there's a kind of, and I think even with even when some of the communities are still very fragmented this communities are still very broken and and I think what you see interestingly, what you see is.

114

00:15:10.170 --> 00:15:19.470

Dan Boyden: In terms of stories the kids that were there, though, that we were working with, even though they may not have too much of an idea of the conflict itself.

115

00:15:20.010 --> 00:15:25.560

Dan Boyden: they're still very much influenced by the stories that they're hearing around the dinner table.

116

00:15:26.100 --> 00:15:31.500

Dan Boyden: yeah that kind of so that, in terms of you know, this idea of treating inherited or kind of am collective trauma.

117

00:15:32.220 --> 00:15:44.790

Dan Boyden: Like I imagined there's still a way to go in terms of integration between some of the children, you know kind of across the ethnic divide, because actually the the kind of the.

118

00:15:46.170 --> 00:16:02.460

Dan Boyden: metaphorical wounds of that parents and their grandparents are still the things that are playing out, you know so even within the schools you saw you know the school teachers, I think, are still holding on to a lot of the attention.

119

00:16:04.290 --> 00:16:22.920

Dan Boyden: That schools are still quite divided quite separate, so I think a big thing for for most mirror and a big thing for stories of society was to try to just try to bring together young people and kids from all across those divides to create a space where, which was a practical creative.

120

00:16:24.300 --> 00:16:25.080

Dan Boyden: safe.

121

00:16:27.090 --> 00:16:43.620

Dan Boyden: kind of I guess a space where like new stories were possible, and that there was a way of breaking the cycle of some of the old negative damaging stories that had been.

122

00:16:45.510 --> 00:16:59.430

Dan Boyden: had been told you know so there's that there was a I think a big a big intention was to try to yeah help people imagine a slightly different future than the past that they've inherited you know.

123

00:16:59.880 --> 00:17:00.210

and

124

00:17:01.860 --> 00:17:14.310

Salim Stokey: For to like for this to be for the kids to like let that happen imagine like different futures like you said, like the environment has to be safe, like how How would you say that let's say.

125

00:17:15.180 --> 00:17:16.470

Salim Stokey: i'm just create yeah.

126

00:17:16.800 --> 00:17:24.330

Dan Boyden: I think I think it's about trust it's always about trust, so a lot of the way that I work is is to really.

127

00:17:26.370 --> 00:17:35.640

Dan Boyden: Just depends on the kind of the ages of the other kids you know if you're working with teenagers it's a different approach if you're working with adults if you're working with young, but you know.

128

00:17:36.210 --> 00:17:50.790

Dan Boyden: there's always for me it's always about this sense of play this kind of sense of creativity that sense of play, particularly with adults as well, even if you're I think it's harder with adults, but I do a lot of work in in prisons, I work in prisons and I work around and.

129

00:17:51.990 --> 00:18:02.640

Dan Boyden: I do lots of stuff around masculinity and different ideas of what that looks like in prison and I always I do loads of games, those are games loads of physical.

130

00:18:03.810 --> 00:18:14.670

Dan Boyden: Activities using the body and it's like you know that is uncomfortable I think the older you get the more uncomfortable it becomes and if you're not used to it is uncomfortable.

131

00:18:15.420 --> 00:18:23.220

Dan Boyden: But it's like we've said the prisoners, the prisons is in the UK, and I suspect it, you know most places prisons is probably one of the least safe environments.

132

00:18:24.540 --> 00:18:31.740

Dan Boyden: Like hyper masculine loads of violence lots of you know people that but but there's something about the workshop space.

133

00:18:32.850 --> 00:18:44.160

Dan Boyden: And it's not always easy, but there's something about this, this this sense of laughter and play and beginning to build relationships about beginning to build connections between people.

134

00:18:45.960 --> 00:18:53.700

Dan Boyden: And there's a million ways to do that, but I think the arts and a practical ways in allow allow us to like take off.

135

00:18:54.870 --> 00:18:56.280

Dan Boyden: Some of the Armor.

136

00:18:56.670 --> 00:18:59.550

Dan Boyden: or some of the some of the identities that we come in with.

137

00:19:00.030 --> 00:19:14.760

Dan Boyden: You kind of physically shake them off, you know it sounds silly it's um yeah a lot of kind of, and what I would always do in terms of workshop, and it was slightly different in terms of the theater but in terms of a normal works with I would run I would always do an activity.

138

00:19:15.870 --> 00:19:25.020

Dan Boyden: And then I would always reflect on it, you know so there's something about the doing and then something about the game was an activity which can seem like a kind of nonsense crazy stupid game.

139

00:19:26.010 --> 00:19:33.990

Dan Boyden: But as you unpack it and explore it and think about it and discuss it and talk about how felt like that's when people that send things shift.

140

00:19:34.560 --> 00:19:42.960

Salim Stokey: I think, for the discussion with the participants and yeah yeah exactly so in a normal workshop I would do that in this theater project I didn't do that.

141

00:19:43.080 --> 00:19:45.360

Dan Boyden: yeah I was, I was very much.

142

00:19:47.760 --> 00:19:58.200

Dan Boyden: You know, I was working with a designer who's a friend of mine called Michelle and she she was was about that the costumes it was about because they were they were much smaller than smoking some English.

143

00:19:59.190 --> 00:20:06.360

Dan Boyden: They didn't speak great English, so it was much more about this kind of idea of fantasy and this idea of there was loads of color.

144

00:20:07.050 --> 00:20:24.060

Dan Boyden: You know and lots of costumes and and and I think what was interesting was was was this also this idea of collaboration we were working together on something from the beginning, it wasn't like people were coming in with particular ideas or particular.

145

00:20:25.110 --> 00:20:39.120

Dan Boyden: Things that they were imposing on the group that we came in and in terms of that safety you're talking about is that we facilitated a space through some of the practical games and exercises and you know physical stuff that i'm talking about.

146

00:20:39.450 --> 00:20:46.170

Dan Boyden: But we were we were also very much part of it, so we didn't come in necessary I think quite quickly, you have to.

147

00:20:47.430 --> 00:20:51.240

Dan Boyden: challenge or break that sense of being an outsider.

148

00:20:52.500 --> 00:21:00.570

Dan Boyden: Whether you're whether you're in prisons or whether we are working in kind of post conflict or because it's you know, and when it's more visible that you're an outsider.

149

00:21:01.050 --> 00:21:16.530

Dan Boyden: You know if you don't speak the language, if you don't look like people then it's even more important as a facilitator, or, as I see a person or as a practitioner, to try to also show up as a human as well as showing up as a as a professional you know.

150

00:21:17.130 --> 00:21:23.010

Salim Stokey: yeah so with these kind of projects, you should not maybe like really stand above.

151

00:21:23.040 --> 00:21:23.700

Dan Boyden: or like me.

152

00:21:23.790 --> 00:21:25.980

Salim Stokey: I didn't want to move that much but just more like.

153

00:21:26.130 --> 00:21:27.600

Salim Stokey: The facilitator and that's.

154

00:21:27.720 --> 00:21:35.970

Dan Boyden: Exactly exactly, and I think that's fair I think that's the big that's, the only way that I would ever work, and I think that's the big difference between being a teacher.

155

00:21:36.990 --> 00:21:40.110

Dan Boyden: or a trainer and being a facilitator, you know.

156

00:21:41.190 --> 00:21:51.300

Dan Boyden: And, and I think yeah as a as a teacher, you can come in, and you can tell somebody how the world looks and what they should do and as a facilitator what you're doing is facilitating.

157

00:21:52.320 --> 00:21:54.270

Dan Boyden: Learning across the group.

158

00:21:54.960 --> 00:21:57.870

Dan Boyden: So if you're talking about a group, maybe that are coming in with difference.

159

00:21:58.350 --> 00:22:11.520

Dan Boyden: If there's a group and they've got differences in terms of ethnicity or in terms of background or whatever what you're trying to do is facilitate exchange of ideas to support people to feel more connected, you know.

160

00:22:11.820 --> 00:22:12.840

Dan Boyden: yeah yeah.

161

00:22:13.020 --> 00:22:29.370

Salim Stokey: But then, as as a facilitator as well, I can imagine that, like sometimes it can be difficult to keep the process like going in a certain direction in that sense index during the process because, like if you let it sort of a little bit up to the people that yeah.

162

00:22:29.550 --> 00:22:31.800

Dan Boyden: yeah yeah and I think that's it, this is the balance.

163

00:22:32.040 --> 00:22:32.340

Salim Stokey: yeah.

164

00:22:32.430 --> 00:22:40.740

Dan Boyden: I think you need to have you need to have structure and you need to have a plan you need to be really clear about what the parameters what the edges, are what does that look like.

165

00:22:41.130 --> 00:22:50.220

Dan Boyden: And then within those edges, people can go wild they can have fun, they can go crazy but it feels that people aren't sure about what were the edges are then it's not safe.

166

00:22:50.850 --> 00:23:00.270

Dan Boyden: You know, so I think I think the skills of a facilitator, is probably to be you know or a theater maker, or whatever it is to be really clear about what the.

167

00:23:00.810 --> 00:23:07.410

Dan Boyden: What the structure looks like and what like what's flexible was not flexible what's negotiable what's non negotiable.

168

00:23:07.980 --> 00:23:14.910

Dan Boyden: So that all of those things where they need to have boundaries and needs to be they need to people need to feel that somebody is holding it and is leading it.

169

00:23:15.720 --> 00:23:30.030

Dan Boyden: But if you're holding it or leading if you're holding it too tightly or leaving it to strongly then people are going to back off they're not going to go with you, so I think it's like the thing I often use is like a tightrope and that was it called and I can see a seesaw that the balance.

170

00:23:30.720 --> 00:23:31.260

Salim Stokey: yeah.

171

00:23:31.470 --> 00:23:39.450

Dan Boyden: So you just need to constantly be making sure, and if it if it's becoming more chaotic, you probably need to be a bit more controlling.

172

00:23:40.140 --> 00:23:57.600

Dan Boyden: If it's becoming too controlling and people as you need to loosen up you know so it's kind of and that's I think that's, particularly when you're working in conflict areas or find your settings to to to to be clear about what the boundaries are is is is is essential yeah.

173

00:23:58.410 --> 00:24:04.980

Salim Stokey: And, like the project this project happened with in collaboration with the most new relic.

174

00:24:06.450 --> 00:24:14.700

Salim Stokey: One What would you say is the added value of like having a local organization or people very involved in the project.

175

00:24:15.450 --> 00:24:18.750

Salim Stokey: As opposed to like just letting it from coming in from abroad.

176

00:24:18.870 --> 00:24:22.260

Dan Boyden: yeah you have to you have to have to have to it's like.

177

00:24:25.020 --> 00:24:34.200

Dan Boyden: yeah in terms of good practice in terms of like the only way that feels like a useful way is to be able to work in partnership with.

178

00:24:35.340 --> 00:24:42.960

Dan Boyden: people and organizations that more closely connected to the issues that more closely connected to the lived experience of the people going through it, you know.

179

00:24:44.760 --> 00:24:52.500

Dan Boyden: So I think that you know it's like the one major red flag and problem with loads of development and is when ideas are.

180

00:24:53.550 --> 00:25:04.170

Dan Boyden: cooked up over here and delivered to people, because you think you know what that person needs it's like you have to have the process has to be slow and the process, you have to lean on.

181

00:25:06.270 --> 00:25:26.040

Dan Boyden: All of the local knowledge and expertise and wisdom and also the trust people like camel and those most mirror people say really they really know what it means no then, then the organizations, they know the people they know what other kind of potential and.

182

00:25:27.150 --> 00:25:29.130

Dan Boyden: You know trigger points you know.

183

00:25:29.160 --> 00:25:31.830

Dan Boyden: It because it's very delicious very delicate and I think it can be.

184

00:25:32.760 --> 00:25:36.210

Dan Boyden: It can easily seem like the circus is coming into town, you know.

185

00:25:37.140 --> 00:25:49.410

Dan Boyden: Not fair no so it has to be, I think the relationships between the partner organization and all of the local stakeholders is key, as well you know, and I think, particularly for kamala most mirror like.

186

00:25:49.950 --> 00:25:55.050

Dan Boyden: You know I don't know how much you know about his story, but it's really heavy and it's kind of for him to.

187

00:25:56.640 --> 00:26:07.110

Dan Boyden: For him to kind of organize all of this stuff have to be able to deliver these projects, he has to also kind of go back into his own drama concerns you know his experience.

188

00:26:07.770 --> 00:26:15.660

Dan Boyden: So there's there's layers of like complexity that needs to be handled really sensitively, so I think as an as an outside.

189

00:26:16.320 --> 00:26:28.830

Dan Boyden: You know agency or agent, you have you have to really be led by the local partner organization yeah hundred percent and it's, also in terms of sustainability, like in terms of.

190

00:26:29.700 --> 00:26:39.930

Dan Boyden: You know if you could go in, if you go and run a project and then leave again there's no way of either building the project there's no way as a project evolving there's no way that project becoming something which is like up.

191

00:26:40.530 --> 00:26:51.150

Dan Boyden: and lead find the local community, and if you can, if that doesn't happen then it's not only like a neutral wasted intervention it's like a negative intervention.

192

00:26:51.180 --> 00:26:51.570

yeah.

193

00:26:52.620 --> 00:26:52.980

Salim Stokey: and

194

00:26:54.390 --> 00:27:03.840

Salim Stokey: I like some, for I don't know why but, like all the projects that i've other people have interviews for different the different products that are focused on youth.

195

00:27:04.440 --> 00:27:08.130

Salim Stokey: yeah there's like a specific reason why people like focus on the youth.

196

00:27:08.160 --> 00:27:09.570

Salim Stokey: With these kind of projects or.

197

00:27:10.020 --> 00:27:10.800

Dan Boyden: Is it just.

198

00:27:10.860 --> 00:27:11.100

Dan Boyden: Like.

199

00:27:11.280 --> 00:27:12.660

Salim Stokey: Maybe more easy or.

200

00:27:15.900 --> 00:27:17.100

Dan Boyden: I think um.

201

00:27:18.420 --> 00:27:25.260

Dan Boyden: I think young people is obviously it's like the next generation there's more there's more opportunity in terms of being able to.

202

00:27:27.240 --> 00:27:32.460

Dan Boyden: kind of create shifts in terms of mindset and can you still hear me yeah.

203

00:27:32.880 --> 00:27:33.480

Salim Stokey: yeah and.

204

00:27:34.980 --> 00:27:36.750

Dan Boyden: The older you get the more.

205

00:27:38.550 --> 00:27:41.730

Dan Boyden: it's, the only way to fix to get in terms of your your your thinking.

206

00:27:42.540 --> 00:27:44.010

Dan Boyden: And and.

207

00:27:44.190 --> 00:27:48.360

Dan Boyden: So it makes sense in terms of being able to kind of work with young people, I think there's more chance of being able to.

208

00:27:49.710 --> 00:27:54.780

Dan Boyden: kind of create change longer term change, but I think there's a mistake, I think I think if you don't engage.

209

00:27:56.370 --> 00:27:58.230

Dan Boyden: If you don't engage the.

210

00:27:59.580 --> 00:28:00.780

Dan Boyden: Like different generations.

211

00:28:00.990 --> 00:28:01.200

Salim Stokey: yeah.

212

00:28:01.290 --> 00:28:11.490

Dan Boyden: I think I think it's also there's going to be a limit to the impact of the work I like I do think there has to be kind of multi generational approach you know.

213

00:28:12.360 --> 00:28:28.980

Dan Boyden: And and and so, particularly and it's harder, it is especially when the people who have lived through particular conflicts or particular staff are still you know it's going to be very, very hard to change those mindsets for sure.

214

00:28:29.430 --> 00:28:41.130

Dan Boyden: yeah, but I think there has to be a kind of holistic way of looking at the whole picture you know, there has to be a way of like for sure prioritize and work with young people for sure.

215

00:28:42.990 --> 00:28:49.380

Dan Boyden: But if it's just working with young people in like a little vacuum or in a kind of you know, then it's in then as soon as they leave that.

216

00:28:50.880 --> 00:28:51.630

Dan Boyden: space.

217

00:28:51.690 --> 00:28:58.260

Dan Boyden: yeah and they go back in and there's people that haven't been able to engage with it or think about it or be you know kind of then then.

218

00:28:58.650 --> 00:29:13.290

Dan Boyden: You go there's a risk that they then go back just to the way things were before, so I think the challenges that young people is obviously the kind of the make sense but there's also um yeah there's definitely work to be done in terms of different generations, I think.

219

00:29:13.650 --> 00:29:28.950

Dan Boyden: And and ways of China sensitively engage and includes all of the people from a particular society or a particular community in thinking about some of these questions and it's harder and it's you probably need a slightly different approach.

220

00:29:30.600 --> 00:29:34.260

Dan Boyden: But I think it's a useful seem to be kind of working towards yeah.

221

00:29:35.250 --> 00:29:36.240

Salim Stokey: Okay okay and.

222

00:29:37.890 --> 00:29:48.150

Salim Stokey: let's let me go a bit more like into the project itself you remember, like could you describe me the project bit from what you can regardless they.

223

00:29:49.770 --> 00:29:51.360

Dan Boyden: intertwine terms of in terms of my.

224

00:29:51.840 --> 00:29:53.910

Salim Stokey: Once you guys get in.

225

00:29:53.970 --> 00:30:01.230

Dan Boyden: yeah yeah yeah so we would the actor walk I have to dig back into my memory Bank was.

226

00:30:03.150 --> 00:30:06.120

Dan Boyden: We were there for like five days six days.

227

00:30:08.550 --> 00:30:17.580

Dan Boyden: And we worked with like I said we worked with a filmmaker was there and a designer though somebody who was doing the design in the costumes.

228

00:30:18.360 --> 00:30:29.850

Dan Boyden: And we were working closely with Campbell who was kind of coordinating it there was somebody could send ella, who was the kind of youth worker she was to again she was key in terms of somebody to get on board.

229

00:30:32.340 --> 00:30:34.740

Dan Boyden: And yeah like we we.

230

00:30:36.030 --> 00:30:46.530

Dan Boyden: We quite quickly because there's two stories, I think there was two stories that we currently have to kind of in between the first workshop, and the second workshop my mission was to create one story.

231

00:30:47.070 --> 00:30:55.230

Dan Boyden: which was like a kind of combining all of the different elements of buzz So the first bit was kind of sharing that story, the structure.

232

00:30:55.740 --> 00:30:57.810

Dan Boyden: Then there was there was kind of thinking about.

233

00:30:58.890 --> 00:31:14.580

Dan Boyden: You know well, we can do it, you know what some of the characters be I think with with ucs stuff there's also you have to really understand how you're going to create a kind of do you know you know the you know what I mean by ensemble.

234

00:31:15.360 --> 00:31:22.170

Dan Boyden: yeah yeah yes exactly so like yeah, so I think yeah yeah exactly, so I think and you see this stuff was like.

235

00:31:23.370 --> 00:31:30.990

Dan Boyden: Really that's key the younger you go the more important it is to be able to try to understand how you're going to keep as many people as engaged as possible.

236

00:31:33.570 --> 00:31:49.350

Dan Boyden: So you know what we call Center part of that is don't movement part of its choreography part of it is bits of dance, you know really it's just about thinking about Okay, what are the, what are the key scenes, what are the key moments in the story and how, and how are we going to.

237

00:31:50.670 --> 00:31:53.550

Dan Boyden: organize all of these bodies it's like you know and.

238

00:31:54.630 --> 00:32:06.960

Dan Boyden: kids have a limited time attention span and you know so there's there's it was about identifying quite quickly who might some of the stronger actors be and what and they might maybe take on a bit more responsibility in terms of characters.

239

00:32:07.500 --> 00:32:21.420

Dan Boyden: And then, it was about thinking about who within who's probably better suited for the ensemble and then it was about thinking about Okay, who is going to be, how are we going to kind of journey through this story, you know.

240

00:32:23.460 --> 00:32:27.180

Dan Boyden: And then we kind of workshop bits of it we did some workshops, we did some kind of.

241

00:32:29.010 --> 00:32:35.430

Dan Boyden: We always start with like a physical warm up we'd always start with always make sure there's food, we always make sure.

242

00:32:36.840 --> 00:32:43.830

Dan Boyden: That we're hassles weren't too long, you know and actually what was good about, because when we did it we did it in the middle of like a playground, in the middle of the.

243

00:32:45.000 --> 00:32:52.560

Dan Boyden: village, because we were there for the whole time and it was interesting because there's new people when there was kids like people would come and watch the russell's.

244

00:32:52.830 --> 00:32:53.160

Salim Stokey: yeah.

245

00:32:53.670 --> 00:32:55.980

Dan Boyden: And Actually, I find that the kind of.

246

00:32:57.000 --> 00:32:57.930

Dan Boyden: The.

247

00:32:58.950 --> 00:33:05.490

Dan Boyden: The interesting stuff happens like around the edges of the of the office work, so it was you know we were.

248

00:33:06.600 --> 00:33:16.440

Dan Boyden: Like yeah the place is great and it's been and there's stuff that people get from the play, but it's all that informal stuff around the workshop, and all of the informal stuff around.

249

00:33:18.240 --> 00:33:26.040

Dan Boyden: The rehearsal you know my parents would come down because their kids in arousal and then they'd start talking to each other.

250

00:33:27.240 --> 00:33:36.960

Dan Boyden: And, and that that's the way to really for relationships to build and it was almost like the kind of the theater process or the theater was a kind of like a magnet.

251

00:33:38.220 --> 00:33:42.300

Dan Boyden: It was like a magnet for people to bring people together and it created.

252

00:33:43.320 --> 00:33:57.720

Dan Boyden: Something which was a slight diversion for people to be able to connect across like that was the thing that we were sharing and out of that informal conversations I think interesting things happen in other places like I don't know how to report that or or.

253

00:33:57.780 --> 00:33:58.710

Salim Stokey: yeah or.

254

00:33:58.980 --> 00:34:00.090

Dan Boyden: You know, articulate that.

255

00:34:01.260 --> 00:34:02.190

Salim Stokey: So, in that sense.

256

00:34:03.210 --> 00:34:11.910

Salim Stokey: Like one of the strengths of like these kind of projects is that it's, not even the process itself necessarily like eating the work of.

257

00:34:13.260 --> 00:34:18.030

Salim Stokey: social transformation in that sense, but then there's like all the things that happen around that she said, like.

258

00:34:18.150 --> 00:34:22.080

Dan Boyden: Exactly yeah yeah exactly, so I think you know, and I think it's the.

259

00:34:23.820 --> 00:34:28.650

Dan Boyden: You know it's like the message is the message is from the players one thing, but I think, as you said, it's like all of the.

260

00:34:30.810 --> 00:34:34.350

Dan Boyden: All of those informal opportunity opportunities for informal connection, you know.

261

00:34:36.000 --> 00:34:40.920

Salim Stokey: very, very interesting issue like do, do you think that.

262

00:34:42.870 --> 00:34:49.320

Salim Stokey: That those those parents, then, in that sense, like spoke to each other, for the first time, or something or was it.

263

00:34:49.350 --> 00:34:53.490

Dan Boyden: yeah yeah yeah I think I think what's it what's interesting about that as a.

264

00:34:54.000 --> 00:34:58.110

Dan Boyden: idea is that it's like it almost becomes a kind of shield.

265

00:34:59.250 --> 00:35:16.200

Dan Boyden: you notice that this performance, you know it gives people the opportunity if they want to just come and watch, they can come and watch but there's also something powerful about parents or or Community seeing the young people interacting playing with each other, I think, is.

266

00:35:17.370 --> 00:35:26.610

Dan Boyden: yeah I think that's powerful it was almost like if you'd have gone into a Community and said right what we're gonna do is we're going to hold a Community meeting, and we want the person table what the Serbs everyone, you know.

267

00:35:26.970 --> 00:35:30.630

Dan Boyden: we're going to come on we're going to talk about how to do it it's like no one's coming to that.

268

00:35:30.990 --> 00:35:32.730

Dan Boyden: If there's if there's a.

269

00:35:33.330 --> 00:35:45.060

Dan Boyden: colorful you know joyful thing where there's a story about and this story, I think, was powerful about the arts and all of this is it deals with metaphor, you know it deals with metaphor.

270

00:35:45.960 --> 00:36:00.690

Dan Boyden: which allows people to really go to difficult places, but through the again the safety of the story story, you know, it was a story about a guy who was on a mission and he encountered all these kind of insect like it was a fairy tale on some level.

271

00:36:00.870 --> 00:36:14.460

Dan Boyden: yeah so people could engage with it on that level or people could see some of the metaphor, I could think about a metaphor, or they could just didn't just you know, look at a group of 15 2025 young people connecting.

272

00:36:15.750 --> 00:36:19.650

Dan Boyden: And and, that being a powerful thing to observe to witness, you know.

273

00:36:20.280 --> 00:36:24.960

Salim Stokey: yeah because I remember the the team was, who is the stranger.

274

00:36:25.830 --> 00:36:26.550

I got I got.

275

00:36:27.630 --> 00:36:33.120

Salim Stokey: And I think if I heard it correctly, like from the other industries like the.

276

00:36:35.250 --> 00:36:37.710

Salim Stokey: kids or youth Center that.

277

00:36:37.740 --> 00:36:38.670

Dan Boyden: sounds sound again with.

278

00:36:39.060 --> 00:36:43.200

Salim Stokey: The team is sort of or was it you guys at assigned a steamer.

279

00:36:43.290 --> 00:36:44.220

Dan Boyden: Griffin yeah.

280

00:36:45.540 --> 00:37:04.560

Dan Boyden: it's always this idea about it's kind of strange but but but but within that day they kind of flesh it out and it's the model always looks at this kind of idea of of an outsider from a particular place and it's about welcoming in an outsider to your community.

281

00:37:06.300 --> 00:37:16.470

Dan Boyden: But and then within that all of the different layers of stuff come out yeah so but it's often that's the kind of proposed structure and then and then.

282

00:37:16.980 --> 00:37:26.040

Dan Boyden: Within that they can kind of flesh it out, and you know they can think about what else, maybe they're thinking about ways in which they can kind of add different layers to it.

283

00:37:26.550 --> 00:37:28.830

Salim Stokey: yeah yeah and and you said that like.

284

00:37:30.000 --> 00:37:34.710

Salim Stokey: Before as like as an coming in, as a foreigner, in that sense, a stranger.

285

00:37:34.950 --> 00:37:41.250

Salim Stokey: In such a group and then not speaking the language, do you think that was like an actual obstacle or didn't.

286

00:37:41.550 --> 00:37:43.950

Salim Stokey: Have like any other effects as well.

287

00:37:44.790 --> 00:37:53.130

Dan Boyden: I think again it's like you've got we call it, you have to be really delicate and really I was sort of very super sensitive to the.

288

00:37:53.760 --> 00:38:00.150

Dan Boyden: wanting to make sure that both said Cinderella yeah and her husband, there was a guy called Branco.

289

00:38:00.840 --> 00:38:06.960

Dan Boyden: And some of their youth workers that you know, I was actually those are the people that you really need to I need to.

290

00:38:07.950 --> 00:38:19.260

Dan Boyden: develop and invest and engage in the in terms of building a relationship with and also come out and just try to like listening to sense as much as possible about what is it what are you stepping into.

291

00:38:19.650 --> 00:38:31.800

Dan Boyden: yeah so I didn't in a way, I didn't really focus on those kids To begin with I kind of really focused on trying to build the relationship and the connection and get to know the people in the Community, that the adults, that I.

292

00:38:31.800 --> 00:38:33.240

Dan Boyden: thought would be a kind of.

293

00:38:34.350 --> 00:38:49.380

Dan Boyden: Really key in terms of the project and in terms of being able to feel like so so whenever I would do stuff I would make sure that in any of the exercises or activities, I was running I would always try to get one of the local youth workers to kind of deliver it with me.

294

00:38:49.650 --> 00:38:56.190

Dan Boyden: yeah partly because of kind of language but also just because it felt like yeah that's a really powerful.

295

00:38:57.270 --> 00:39:09.690

Dan Boyden: way of engaging and communicating and meeting those kids on a level, and then you know so again, all of this stuff around the informal stuff like you know we would get there early and.

296

00:39:11.460 --> 00:39:18.840

Dan Boyden: We would get there super early and like have coffee everyone's like smoking cigarettes drinking coffee talk it, you know and we'd stay.

297

00:39:19.260 --> 00:39:28.380

Dan Boyden: Afterwards, and we'd have like a beer or coffee or you know and actually all of that stuff was it was it was it was it was as important, I think, as the as the.

298

00:39:29.550 --> 00:39:32.280

Dan Boyden: The kind of what the rehearsal time itself, you know.

299

00:39:33.870 --> 00:39:50.070

Dan Boyden: So, and I think that often interventions can be problematic when when people from outside of a particular group or Community come in, just to do the work but don't really spend and invest your time in building the relationships on a human to human level with the people from that community.

300

00:39:50.580 --> 00:39:51.330

Salim Stokey: I think that be.

301

00:39:51.420 --> 00:39:51.930

Dan Boyden: yeah yeah.

302

00:39:52.800 --> 00:39:59.490

Salim Stokey: And and and me see yeah so then on the process itself.

303

00:40:00.810 --> 00:40:05.130

Salim Stokey: So you I went through the manual that.

304

00:40:06.240 --> 00:40:13.800

Salim Stokey: There was created by storage for society in this legacy like I saw like I haven't the here next and actually I just like nine steps.

305

00:40:13.800 --> 00:40:14.550

Salim Stokey: to it and so.

306

00:40:14.580 --> 00:40:15.510

Salim Stokey: yeah oh yes.

307

00:40:15.570 --> 00:40:16.680

Dan Boyden: Good it's a good process.

308

00:40:16.740 --> 00:40:17.190

Dan Boyden: For sure.

309

00:40:17.250 --> 00:40:20.760

Salim Stokey: yeah and I wonder like, how do you think like is it.

310

00:40:21.780 --> 00:40:29.400

Salim Stokey: doable for maybe like people that are not in the arts or in like peacebuilding setting to do this.

311

00:40:30.030 --> 00:40:31.980

Dan Boyden: yeah yeah yeah I think.

312

00:40:33.090 --> 00:40:35.670

Dan Boyden: I think, so I think you can, I think.

313

00:40:37.050 --> 00:40:40.020

Dan Boyden: like that, for me the answer is one approach is a useful approach.

314

00:40:41.370 --> 00:40:45.270

Dan Boyden: People, I think, have to value stories, you have to value that will see the potential.

315

00:40:46.980 --> 00:40:59.580

Dan Boyden: impact or reason of why you might use a storytelling approach, so I think if people are skeptical or kind of unclear or not confident that storytelling is a useful approach, then it's probably not for them.

316

00:40:59.850 --> 00:41:13.830

Dan Boyden: yeah, but I think in terms of being like an artist or being a theater person or or like I think I think anybody could pick it up, but you just have to be a bit creative, I guess, in terms of how you deliver it, the more creative you can be in terms of how you deliver it.

317

00:41:15.000 --> 00:41:23.970

Dan Boyden: But the more engaging you are in terms of you know if it was felt like it was too much like a lecture university style traditional lecture I think it's gonna it's not going to land, you know.

318

00:41:24.120 --> 00:41:24.450

yeah.

319

00:41:25.500 --> 00:41:37.050

Dan Boyden: So so yeah I think I think arts is one approach that different approaches, I think the peace building is kind of I guess one objective and there's lots of different kind of objective but but.

320

00:41:37.830 --> 00:41:45.600

Dan Boyden: But yeah I think it works when you've got people who really see the power and potential of lack of stories and telling stories yeah.

321

00:41:46.140 --> 00:41:57.030

Salim Stokey: But as well, but maybe it's maybe a bit biased from you, but then like How would you say that, like adding different artists or experts in like different art forms.

322

00:41:57.090 --> 00:41:59.100

Salim Stokey: wouldn't add to the project and that sounds like a.

323

00:41:59.100 --> 00:41:59.580

home.

324

00:42:01.200 --> 00:42:02.340

Dan Boyden: yeah I mean, I think.

325

00:42:03.960 --> 00:42:16.800

Dan Boyden: I think at first, for me, the reason like I said at the beginning, as well i'm interested in this stuff is the potential to reach out and to engage a wider audience, you know, so you can kind of.

326

00:42:18.750 --> 00:42:24.930

Dan Boyden: I think it could stay could stay as an activity is a storytelling activity for a closed group, you know there's 12 kids with 20 kids who have money.

327

00:42:25.590 --> 00:42:37.530

Dan Boyden: And I think that that's fine, but if you're talking about REACH and kind of genuine impact and like longer term changes and longer to you know, being able to to like amplify.

328

00:42:38.580 --> 00:42:57.990

Dan Boyden: what's coming out to be able to open up the discussions about some of the themes and ideas is is that's when the fate of stuff is is useful that's when things like visual arts, I think all can be useful that's when yeah something which is a bit more public.

329

00:42:58.650 --> 00:43:03.780

Dan Boyden: Facing and a bit I think allows for like I said the opening up those discussions yeah.

330

00:43:04.080 --> 00:43:04.470

yeah.

331

00:43:05.880 --> 00:43:09.630

Salim Stokey: So, like actually doing it in a public setting is.

332

00:43:09.630 --> 00:43:11.310

Salim Stokey: Also important to.

333

00:43:11.340 --> 00:43:11.760

Dan Boyden: yeah yeah.

334

00:43:11.880 --> 00:43:14.760

Dan Boyden: I think, is, I think, is, I think, I think, so I think for some.

335

00:43:14.940 --> 00:43:15.660

it's riskier.

336

00:43:16.830 --> 00:43:18.780

Dan Boyden: You know it's more risky and.

337

00:43:19.890 --> 00:43:22.710

Dan Boyden: So I think you have to be really prepared as a.

338

00:43:24.420 --> 00:43:27.480

Dan Boyden: Like as a practitioner, you have to be really prepared to.

339

00:43:29.280 --> 00:43:32.340

Dan Boyden: You have to feel like it's really safe, you have to do a risk assessment in terms of.

340

00:43:33.330 --> 00:43:39.810

Dan Boyden: Not just physically in terms of stuff that could go wrong, but also like is the is the Community ready for it.

341

00:43:40.290 --> 00:43:50.430

Dan Boyden: These are the people who are going to be delivering the message in terms of performing the play, or are they able to hold confidently kind of hold that.

342

00:43:50.970 --> 00:43:58.080

Dan Boyden: And I think I think I think for sure, ultimately, that one you know, an ambition should be something which is public and something which is open.

343

00:43:58.530 --> 00:44:11.670

Dan Boyden: But there's it's definitely you have to be really confident and really sure that that it's not going to be too unpredictable it's not going to be too because, especially when you're working in those really, really fragile communities.

344

00:44:13.710 --> 00:44:20.100

Dan Boyden: That it might be that you get to the end of a process needs a know what it's just we should just keep it close, we should do it just for us.

345

00:44:21.420 --> 00:44:25.290

Dan Boyden: So I don't think there's one one rule, necessarily, but I think it's definitely.

346

00:44:27.240 --> 00:44:36.750

Dan Boyden: yeah to be able to kind of sensitively and also in consultation with the all of the kind of local stakeholders, if it feels like it's the right move.

347

00:44:37.290 --> 00:44:44.280

Dan Boyden: And I think it's something which can be really powerful and really transformational, but I think that but done wrong, it can be really does you know.

348

00:44:44.430 --> 00:44:48.270

Salim Stokey: So it should be sort of like it could be offered but it shouldn't be like.

349

00:44:48.360 --> 00:44:51.390

Dan Boyden: An essentials yeah yeah exactly exactly.

350

00:44:52.470 --> 00:44:53.100

Salim Stokey: yeah and.

351

00:44:55.110 --> 00:44:58.890

Salim Stokey: And how would you say then, then the actually engaging in like.

352

00:45:00.090 --> 00:45:05.430

Salim Stokey: In the artist based approach would lead to these positive effects that we.

353

00:45:09.990 --> 00:45:12.120

Dan Boyden: Think allows people.

354

00:45:14.100 --> 00:45:24.630

Dan Boyden: To kind of shift shift thinking shift their mindset, I think it allows people to imagine new possibilities, I think I think it gives.

355

00:45:25.440 --> 00:45:42.780

Dan Boyden: yeah, I think, often in terms of some of those really ingrained conflicts and stuff that is deep it can feel like people are very stuck and I think that the one thing about the arts and culture and creative approaches to exploring could also make it feel like.

356

00:45:44.220 --> 00:45:53.730

Dan Boyden: Often it's it feels in conflict, I think it can feel like there's only two options, you know you're like you're in you're out you're this you're that you're you know you're am.

357

00:45:54.870 --> 00:46:02.040

Dan Boyden: And I think what the arts does well and theatre does well is allows people to see that there's loads of different.

358

00:46:02.940 --> 00:46:11.100

Dan Boyden: options there's loads of different possibilities and and that that can be useful when you're in stuck in a big conflict and you're like okay.

359

00:46:11.460 --> 00:46:18.810

Dan Boyden: I don't have to necessarily be totally in this place or totally in this place, with its kind of this movement and it's a bit fluid and I can I can.

360

00:46:20.040 --> 00:46:30.240

Dan Boyden: also see a little bit about what the world looks like from that person or from that place and that's a really useful thing in terms of building understanding and trust between people.

361

00:46:31.980 --> 00:46:43.110

Dan Boyden: So yeah I think it's unlock stuff it shifts things, but it also helps people from an empathy level seeing the world from somebody else's perspective, you know and.

362

00:46:43.650 --> 00:46:52.590

Dan Boyden: You know and that's that's that if you haven't ever done that, if you've been involved in like deep deep conflict with a particular group, for you have been told, see the world differently and either enemy.

363

00:46:53.370 --> 00:47:04.620

Dan Boyden: And to to to be exposed to an experience which allows you to see a different, more empathetic or human side of somebody I think is really powerful yeah.

364

00:47:05.730 --> 00:47:10.470

Salim Stokey: And, did you do you remember any challenges coming up during the.

365

00:47:10.470 --> 00:47:11.550

Dan Boyden: project that you need some.

366

00:47:11.550 --> 00:47:13.350

Salim Stokey: certain difficulties or something.

367

00:47:13.980 --> 00:47:27.870

Dan Boyden: yeah I think everybody has a position, and I think that was tricky Okay, nobody nobody in in in those kind of communities is neutral really because somebody because people are operating from.

368

00:47:30.180 --> 00:47:34.410

Dan Boyden: All the experiences that they've had up to that point, even if your camel camel.

369

00:47:37.140 --> 00:47:50.220

Dan Boyden: And he went to Bradford and did loads of peace and kind of reconciliation work and his whole thing was setting up this organization to go back to his village and he had been you know the Hilton through the concentration camps right he's been part of that.

370

00:47:51.690 --> 00:47:57.930

Dan Boyden: So even come him coming in really wanting to kind of work towards inclusion and working towards building.

371

00:47:58.350 --> 00:48:05.460

Dan Boyden: All his approach of the things that were broken back up he was still coming from a had a position and the other, you know Cinderella.

372

00:48:06.060 --> 00:48:15.840

Dan Boyden: And the youth workers and people who ran the youth club, they also had a very particular position because of the experiences that they've had so some of the challenges I found.

373

00:48:18.300 --> 00:48:30.120

Dan Boyden: Once you've got went a bit deeper into stuff you then you then realize that the dynamics between people in those small post conflict areas so delicate.

374

00:48:31.230 --> 00:48:39.480

Dan Boyden: Actually, initially on the surface, I equate we could do a play, we can put on him in the Community, we can do this and it'll be you know, but actually as soon as you go.

375

00:48:39.900 --> 00:48:49.410

Dan Boyden: and find out a bit more, and you keep you understand a bit more you realize that people are really damaged and really scarred and tired and broken still.

376

00:48:50.040 --> 00:49:00.120

Dan Boyden: So the challenge, I think, felt for me, was to feel like okay what like what what do we leave this community with what do we leave these young people with it for sure they've had.

377

00:49:00.990 --> 00:49:09.780

Dan Boyden: an experience which I think will be interesting and and there's a risk there's a slight risk that that you when you leave.

378

00:49:10.890 --> 00:49:19.530

Dan Boyden: there's there's that those patents as older patents still play out, but I think, so what I was conscious of was trying to maximize as much as possible, like I said.

379

00:49:20.220 --> 00:49:29.610

Dan Boyden: really trying to use it as a as a springboard to be able to build those relationships between the young people between the teachers between the community groups between.

380

00:49:30.240 --> 00:49:44.100

Dan Boyden: You know, so that it might start, and I think I think I think that's it, I think you have to be really realistic about the time scale needed actually what we felt like we were doing was like starting conversations, which would could potentially lead to X, Y zed.

381

00:49:44.460 --> 00:49:44.790

Salim Stokey: yeah.

382

00:49:44.910 --> 00:50:04.080

Dan Boyden: We weren't going to in any way fix or solve with change anything short term but probably that project, combined with a similar project combat you know you feel like that could be a Community cumulative Community yeah I kind of something which is, which is growing.

383

00:50:04.470 --> 00:50:04.890

yeah.

384

00:50:06.240 --> 00:50:07.740

Dan Boyden: Through through doing yeah.

385

00:50:08.580 --> 00:50:18.780

Salim Stokey: yeah okay so like in that sense, like it's not one but one project is not going to change thing it's going to be the repeated or like different types of projects over.

386

00:50:18.810 --> 00:50:22.860

Dan Boyden: Overall executive was exactly that that's exactly it yeah yeah.

387

00:50:23.280 --> 00:50:24.780

Salim Stokey: Okay okay and.

388

00:50:27.330 --> 00:50:29.970

Salim Stokey: Let me see what the thing is.

389

00:50:31.590 --> 00:50:33.300

Salim Stokey: I wanted to ask something.

390

00:50:35.670 --> 00:50:37.890

Dan Boyden: don't give me give me two seconds it's going to get some more water.

391

00:51:26.730 --> 00:51:27.330

Salim Stokey: Yes.

392

00:51:29.040 --> 00:51:35.040

Salim Stokey: So ya know you were saying like Okay, the relations are they delicate, in that sense.

393

00:51:35.370 --> 00:51:35.760

yeah.

394

00:51:37.260 --> 00:51:45.480

Salim Stokey: I can imagine that, like this type of projects, as you sort of set as well, like it can maybe open up wounds in that sense, like it can open up.

395

00:51:46.620 --> 00:51:53.820

Salim Stokey: Like bring up like bring things bring things up that like maybe happy in sort of put away in that sense if.

396

00:51:53.820 --> 00:51:54.240

Salim Stokey: You would do it.

397

00:51:54.990 --> 00:51:57.090

Salim Stokey: With people that actually have gone through the conflict.

398

00:51:58.410 --> 00:52:02.370

Salim Stokey: How do you think like How would you maybe mitigates that's.

399

00:52:04.020 --> 00:52:06.870

Salim Stokey: A factor like How would you approach that.

400

00:52:07.200 --> 00:52:08.910

Dan Boyden: yeah um.

401

00:52:10.620 --> 00:52:19.890

Dan Boyden: You just have to be really perceptive you have to really sense what is going to be too much or too exposing and so.

402

00:52:21.090 --> 00:52:28.260

Dan Boyden: You know, and again in terms of why I think art is a useful approach in this ways is this idea of being able to use metaphor.

403

00:52:29.370 --> 00:52:39.840

Dan Boyden: To be able to kind of it's not masking or hiding anything but can it be able to kind of access or think about some of these difficult things you know, in a in a in a way that isn't.

404

00:52:41.340 --> 00:52:51.360

Dan Boyden: isn't so direct or isn't so exposing like you know if and that's not to kind of pretend that it's not the thing that is if that makes sense, but it's like.

405

00:52:52.050 --> 00:52:58.920

Dan Boyden: The metaphor, and the kind of storytelling is allows people, I think, to be able to process and communicate.

406

00:52:59.880 --> 00:53:08.670

Dan Boyden: process first and then kind of connect and communicate some of the things that are difficult or caught up in the conflict without actually having to ever name.

407

00:53:09.330 --> 00:53:16.350

Dan Boyden: name it, you know it's like and so there's That again is safety as a safety in in doing that there's a.

408

00:53:17.070 --> 00:53:32.730

Dan Boyden: there's a way into those difficult conversations that doesn't That means that people don't ever really have to name anything but they don't want to and and the the forum set of stuff that I do, I always it's always kind of serves as a group of 10 people.

409

00:53:33.480 --> 00:53:39.660

Dan Boyden: What we're doing as a group is that we're creating the story of the 11th person in the group the imaginary 11%.

410

00:53:40.440 --> 00:53:46.080

Dan Boyden: So that so that none of those 10 ever have to say this is me this is my issue this is my stuff if but.

411

00:53:46.680 --> 00:53:55.290

Dan Boyden: That 11th dimension with character, who is the main character is is deeply connected to all of those people in the process so there's something again.

412

00:53:56.070 --> 00:54:02.070

Dan Boyden: In terms of the safety of the storytelling of the theatrical process which allows people to be really.

413

00:54:02.700 --> 00:54:21.870

Dan Boyden: reflective and to be really honest but not ever have to say, this is my shit and out of this is to you know so there's something there's something I guess in terms of those wounds that is yeah play metaphor story allows some of those heavy discussions to feel a bit lighter not.

414

00:54:22.320 --> 00:54:27.570

Salim Stokey: yeah so you make it sort of everyone's story in that sense, and just someone's or like.

415

00:54:27.660 --> 00:54:29.010

Salim Stokey: Exactly little story.

416

00:54:29.040 --> 00:54:34.650

Dan Boyden: yeah yeah exactly so that and so so you're kind of code you're like co authoring.

417

00:54:34.890 --> 00:54:36.540

Dan Boyden: A new story yeah.

418

00:54:37.770 --> 00:54:42.300

Salim Stokey: Okay Okay, because then, in that sense, what I see as well, a lot is that.

419

00:54:43.410 --> 00:54:53.190

Salim Stokey: Like people say it again it's the Artemis approach helps as well to creating a different narrative than that is sort of imposed usually on on the things.

420

00:54:55.050 --> 00:55:07.890

Salim Stokey: And, but then, like the question is still then like how, how do you sort of spread this narrative and you said before that can maybe with like when you actually add those experts are like people that design and like people that.

421

00:55:08.910 --> 00:55:17.250

Salim Stokey: form, then you can like sort of spread it like do you think there, there are also other ways that add to that art approach and make it more broader.

422

00:55:17.340 --> 00:55:18.090

Dan Boyden: yeah I think.

423

00:55:19.650 --> 00:55:26.130

Dan Boyden: I think film is good film is film is a good social media, I think you know again if you're working with young people.

424

00:55:26.760 --> 00:55:37.440

Dan Boyden: i'm an old man, but if you're working with young people there's the being able to kind of harness and tap into their skills and expertise around social media and and some of the digital and.

425

00:55:39.000 --> 00:55:41.760

Dan Boyden: I think that's useful I think in terms of.

426

00:55:42.870 --> 00:55:44.550

Dan Boyden: yeah there's there's there's.

427

00:55:46.620 --> 00:55:56.370

Dan Boyden: That would be the instinctive thing, I think that there's a kind of an interesting debate, often around the kind of quality so there's there's a real push and pull in terms of the.

428

00:55:57.930 --> 00:56:02.100

Dan Boyden: The need for kind of quality artistic output.

429

00:56:03.240 --> 00:56:07.050

Dan Boyden: and against the the need for quality process.

430

00:56:08.190 --> 00:56:11.940

Dan Boyden: So and there's there's people have really different kind of.

431

00:56:13.440 --> 00:56:18.180

Dan Boyden: Thinking around some people actually there has to be the APP that that was created.

432

00:56:18.540 --> 00:56:29.220

Dan Boyden: As a artistically brilliant as to be great the quality, regardless of doesn't matter if you're working back there's not active some people say no, the process, the process is more valuable than the outcome.

433

00:56:30.270 --> 00:56:36.150

Dan Boyden: And so, and I think it's often again it's the balancing act it's like it's never either or.

434

00:56:36.540 --> 00:56:38.400

Dan Boyden: I think you can have a meaningful.

435

00:56:38.850 --> 00:56:44.220

Dan Boyden: process and also have create something which is like aesthetically artistically.

436

00:56:44.430 --> 00:56:44.880

Salim Stokey: Good.

437

00:56:44.940 --> 00:56:59.130

Dan Boyden: Good at the end and I guess the more more high quality that the artist is the quality of the ascetic probably means that it will have be able to travel further.

438

00:56:59.640 --> 00:57:12.210

Dan Boyden: Maybe people more people might engage with it, whereas if actually what it's hard to communicate a really brilliant process if actually what's created at the other end is not is not good, you know.

439

00:57:12.660 --> 00:57:26.790

Salim Stokey: I think this this kind of the data as well sort of ties in with this, our debate I come across of like the difference between having a participatory arts or non participatory ours were like you know when you just.

440

00:57:27.900 --> 00:57:36.480

Salim Stokey: When you just see something and, like in that sense not really partake in the creation of something is as different effects on you, then, when you.

441

00:57:36.930 --> 00:57:38.190

Salim Stokey: Were there for the process.

442

00:57:38.490 --> 00:57:44.460

Dan Boyden: Exactly yeah and I think that's it and I think it's about it's about being really clear about what the intention is so it's like actually.

443

00:57:45.060 --> 00:57:49.350

Dan Boyden: If you want to create something which is, which is, which is a beautiful piece of art and has been.

444

00:57:49.890 --> 00:57:55.890

Dan Boyden: hasn't been created in a participatory way that's fine, but you just need to name that and you need to there's a different route to get there.

445

00:57:56.370 --> 00:58:10.800

Dan Boyden: If actually this idea of socially engaged or participatory arts and it gets a bad reputation, because you know traditionally it's been looked down on by the people that make the kind of beautiful I you know, but I think the sweet spot the sweet spot is the kind of.

446

00:58:12.390 --> 00:58:17.400

Dan Boyden: Getting trying to get both so trying to have a process which is solid and participating and inclusive.

447

00:58:18.120 --> 00:58:28.440

Dan Boyden: and trying to kind of up to the level also, the quality of the artistic output, as much as you can, at the end is that's I think that's that's what I would try and always aim for in terms of the work that I do yeah.

448

00:58:29.640 --> 00:58:31.110

Salim Stokey: Okay, and.

449

00:58:32.520 --> 00:58:42.120

Salim Stokey: If you could do you have any like recommendations in that sense for like other like types of projects and like this, so like General.

450

00:58:43.380 --> 00:58:46.680

Salim Stokey: Your general understanding of how this project and how this type of projects working.

451

00:58:48.990 --> 00:58:58.050

Dan Boyden: i'm not not I haven't covered I don't think I think it would be, it would be like the time that's needed so time to build relationships yeah and.

452

00:58:59.160 --> 00:59:09.720

Dan Boyden: that's what they're kind of you know, with organizations that are working locally really time to try to understand as much about what the kind of root causes what's going on beneath the surface and.

453

00:59:10.950 --> 00:59:12.270

Dan Boyden: Thinking about.

454

00:59:14.790 --> 00:59:23.160

Dan Boyden: How, maybe, does it not just become a one off, so you don't just parachute into an insular community and and go and then not come back to how does.

455

00:59:23.760 --> 00:59:33.240

Dan Boyden: How does the the the project to the program or the intervention grow, so that it feels like that there's opportunity to really work in a bit more longer terms people.

456

00:59:33.660 --> 00:59:42.090

Dan Boyden: yeah um and I think it's kind of ownership is local ownership and I think if you do all those things properly and you do them well.

457

00:59:42.750 --> 00:59:54.420

Dan Boyden: Then there's a sense that, actually, because it really as an outsider what you what you need you're aiming to become not irrelevant and not needed so ultimately I think you've succeeded.

458

00:59:55.110 --> 01:00:04.410

Dan Boyden: If you go you realize that actually you're not needed in the Community anymore, because people feel like they're taken so much ownership over whatever it is that you're doing.

459

01:00:04.950 --> 01:00:14.280

Dan Boyden: That it then then then that's it, you know and it's like the again you're not gonna you're not going to single handedly solve or deals and kind of fix all the problems and Nor should you.

460

01:00:14.700 --> 01:00:18.600

Dan Boyden: yeah you can definitely be an important part of creating.

461

01:00:20.310 --> 01:00:30.240

Dan Boyden: coach or creating a kind of the conditions whereby things can move in the right direction, so again, I think it's about like managing your expectations, you know.

462

01:00:30.720 --> 01:00:44.250

Dan Boyden: So you know not feeling like in any way like this is going to solve or you want to save you it's like Okay, this is part of a really complex really deeply traumatic series of events that you haven't been part of.

463

01:00:45.240 --> 01:00:52.950

Dan Boyden: So you just need to be really, really sensitive to that and I think there's yeah and also, I think it's about building supporting building kind of connections locally.

464

01:00:53.430 --> 01:01:06.330

Dan Boyden: So trying to really think about what are the kinds of networks and the connections that you can build a local level that will support the progress and the kind of development, social development of that particular place.

465

01:01:07.380 --> 01:01:07.650

Salim Stokey: and

466

01:01:08.730 --> 01:01:12.120

Salim Stokey: Like, as you said, like everyone in the.

467

01:01:13.380 --> 01:01:15.750

Salim Stokey: Everyone that this local in that sense has their own.

468

01:01:17.010 --> 01:01:29.280

Salim Stokey: perspectives on the things going on us, of course, and they're like, so in that sense, everyone is biased you think, then, it adds then coming from not from the conflict or the environment to do this kind of work or.

469

01:01:30.780 --> 01:01:35.220

Dan Boyden: I think it can be useful, sometimes if it's if it's dealt with in the right way, but you can be can come and hold a mirror.

470

01:01:35.700 --> 01:01:37.380

Dan Boyden: You know you're just holding a mirror up.

471

01:01:37.440 --> 01:01:45.720

Dan Boyden: you're not in any way trying to advise or suggest to tell anybody what to do and you're just helping people, maybe see some of the things that they can't see when they haven't seen.

472

01:01:46.080 --> 01:01:51.750

Dan Boyden: And you're trying to I think for me it's gentle kind of help create spaces, where people can yeah connect and build.

473

01:01:52.800 --> 01:01:53.040

Salim Stokey: You know.

474

01:01:53.340 --> 01:01:54.540

Dan Boyden: build trust build relationships.

475

01:01:55.680 --> 01:01:59.520

Dan Boyden: Through this idea of kind of understanding, a little bit more about how other people see things you know.

476

01:02:01.080 --> 01:02:08.760

Salim Stokey: Okay okay um I think we want i've covered everything that I wanted to ask.

477

01:02:08.790 --> 01:02:13.440

Dan Boyden: yeah hopefully that was useful maybe I always go off on maybe it wasn't useful to them.

478

01:02:14.700 --> 01:02:27.810

Salim Stokey: It was very like it added an answer to some of the things I was already thinking i'm because i'm already now almost done with my paper in essence i'm like doing my analysis and results section right now and.

479

01:02:29.640 --> 01:02:33.690

Salim Stokey: Like sort of developing like this is recommendations for.

480

01:02:33.690 --> 01:02:39.780

Salim Stokey: Like America soon Okay, how can we actually support these kind of projects and.

481

01:02:41.430 --> 01:02:52.020

Salim Stokey: I yeah I really see like the common themes of like local ownership coming back not pushing for like an actual output, but like just facilitating the.

482

01:02:52.050 --> 01:02:53.100

Dan Boyden: In that sense, and.

483

01:02:53.820 --> 01:03:00.810

Salim Stokey: Those kind of things and yeah i'm really happy that, like like this, as to my arguments in that sense.

484

01:03:00.840 --> 01:03:01.140

yeah.

485

01:03:02.550 --> 01:03:02.790

Salim Stokey: yeah.

486

01:03:03.420 --> 01:03:11.040

Dan Boyden: awesome well yeah well that's it was a pleasure and it's so it's always um if there's anything else just let me if there's anything other kind of questions or.

487

01:03:11.430 --> 01:03:17.310

Dan Boyden: Anything I can help with just, please let me know keep in touch if there's yeah well i'll let you know about transformative stuff that's coming up.

488

01:03:17.520 --> 01:03:24.210

Salim Stokey: Here, yes, it was great speaking to you and I wish you a lot of good luck with the rest of your work.

489

01:03:25.050 --> 01:03:25.380

awesome.

490

01:03:26.490 --> 01:03:27.090

Dan Boyden: Man take care.

491

01:03:28.290 --> 01:03:28.860

Dan Boyden: bye bye.

12

00:12:32.250 --> 00:12:37.080

13

00:12:37.380 --> 00:12:37.770

Megan Cosgrove: Of course.

14

00:12:38.490 --> 00:12:45.090

Salim Stokey: I am recording it, so I can transcribe it later and I guess the question I research if that's okay.

15

00:12:47.550 --> 00:12:50.880

Salim Stokey: yeah I wanted to start with telling you like.

16

00:12:52.020 --> 00:13:08.070

Salim Stokey: I will first actually introduce myself a little bit more, so you have like a better picture of who I am and then I will start like I will ask you some questions about this your work now and make a bunch you work, back then, and more specifically on the project of most of Europe.

17

00:13:08.490 --> 00:13:08.760

Salim Stokey: yeah.

18

00:13:09.270 --> 00:13:12.330

Salim Stokey: It should work in society stories for society.

19

00:13:13.260 --> 00:13:14.430

Salim Stokey: So i'm.

20

00:13:14.940 --> 00:13:36.270

Salim Stokey: Like Su I think you might have read it before, but like i'm 21 years old, I am currently based in The Hague and yeah and i'm doing this as part of my bachelor's thesis in international relations and organizations at Latin university and yeah I saw that you had some.

21

00:13:37.470 --> 00:13:38.970

Salim Stokey: Previous experience in.

22

00:13:40.020 --> 00:13:53.370

Salim Stokey: In the education sector as a teacher and and and and then human resources and yeah for me I during my high school years I was very active in student participation.

23

00:13:54.210 --> 00:14:11.490

Salim Stokey: In student board advisory board of the school and even that, like the national advocacy group for Dutch secondary school students so yeah you might mess around the Ministry of Education and I have, like all these conversations with different.

24

00:14:12.570 --> 00:14:18.660

Salim Stokey: High School directors and to like advise them on a policy changes.

25

00:14:19.860 --> 00:14:21.390

Salim Stokey: Examination that has.

26

00:14:23.370 --> 00:14:26.190

Salim Stokey: A very broad range of the things actually and.

27

00:14:27.480 --> 00:14:36.300

Salim Stokey: yeah Besides that, like my passion for like the Arctic Why am I saying this specifically actually I guess I started this be doing.

28

00:14:36.780 --> 00:14:48.210

Salim Stokey: yeah my early years of high school next secondary school with doing the drama performances with school and music performances and make art class and I got art history and whatever and.

29

00:14:49.650 --> 00:14:58.920

Salim Stokey: yeah then during my bachelor students studies like right now I joined us well with the arts and media commenting of my student association, so I was.

30

00:14:59.940 --> 00:15:11.190

Salim Stokey: I was organizing the difference music performances as well for my fellow students and also like some workshops and different art projects and.

31

00:15:11.610 --> 00:15:20.550

Salim Stokey: yeah so on that guy I came more more into art and there's also an active Royal arch enemy here, so the six students from that mixing with that is really interesting.

32

00:15:21.750 --> 00:15:26.730

Salim Stokey: And yeah and then they go, I wanted to news yeah, as I said, like cheering work there.

33

00:15:27.900 --> 00:15:38.370

Salim Stokey: As an art training that was between like with kids from like six to 18 years old, actually, so it was quite difficult to have like make a.

34

00:15:39.630 --> 00:15:46.260

Salim Stokey: workshop a lesson for like all these different age groups Bruce because, like yeah, of course, you know they have like.

35

00:15:47.250 --> 00:15:50.340

Salim Stokey: different needs and different like attention spans and everything.

36

00:15:50.850 --> 00:15:58.560

Salim Stokey: But it was very fun and yeah then like I started when I started writing my thesis basically when I started getting into it like I.

37

00:15:58.800 --> 00:16:03.900

Salim Stokey: Let me combine these things that I really enjoy peacebuilding like not really so much on that and.

38

00:16:04.290 --> 00:16:17.820

Salim Stokey: Then also get arts like what what is that role, actually what candidates, but but potential has that and yeah that's how I got that and so far i've interviewed a bunch of like four different organizations such projects.

39

00:16:19.200 --> 00:16:31.860

Salim Stokey: And some like I interviewed like three four people at the same time, because they just brought me in contact like that in some I just like this one on one and next week i'm actually meeting damn Boyden like.

40

00:16:32.400 --> 00:16:33.090

Megan Cosgrove: he's awesome.

41

00:16:33.330 --> 00:16:40.080

Salim Stokey: yeah so that's gonna be my last person to interview but yeah i'm very excited to to be him this little.

42

00:16:42.270 --> 00:16:49.740

Megan Cosgrove: So much cool experience to like he's done so many cool international projects i'm sure he'll be able to add a lot of richness to your thesis.

43

00:16:50.040 --> 00:16:56.730

Salim Stokey: yeah that's that's what Judy also sample rates and the that goes like this he's bringing in contact with these people.

44

00:16:56.970 --> 00:16:58.620

Megan Cosgrove: yeah yeah Dan is awesome.

45

00:16:59.730 --> 00:17:04.350

Salim Stokey: So yeah now do you have any questions for me still or.

46

00:17:05.070 --> 00:17:09.240

Megan Cosgrove: Anything no I love your enthusiasm iron man excited excited.

47

00:17:10.290 --> 00:17:13.290

Megan Cosgrove: Hopefully you'll share your your thesis with us when you're done.

48

00:17:13.440 --> 00:17:24.420

Salim Stokey: Yes, yes for sure I will definitely like at least give the findings are like a like a short short summary and then I will also adds the actual teases.

49

00:17:26.280 --> 00:17:29.460

Salim Stokey: yeah okay so let's see.

50

00:17:30.660 --> 00:17:31.140

Salim Stokey: What.

51

00:17:32.280 --> 00:17:36.930

Salim Stokey: I saw that you work now i'm not in like peace board and kind of the settings.

52

00:17:38.370 --> 00:17:40.770

Salim Stokey: But you worked at was a couple of me.

53

00:17:43.170 --> 00:17:52.680

Salim Stokey: And then you do, do you still sort of like do work that similar that you get with stories or for society, or is it a completely different.

54

00:17:53.610 --> 00:18:03.420

Megan Cosgrove: yeah good question yeah I do a lot of kind of different work now, then what I did with stories for society, and so my i'm in Canada, right now, and in.

55

00:18:04.050 --> 00:18:20.070

Megan Cosgrove: 2011 I moved to Stockholm Sweden, and that was when I connected with Julie and and started getting involved the stories for society, and I still do some work with stories, on occasion, and we try to we try to keep things going there as much as possible but.

56

00:18:20.760 --> 00:18:26.640

Megan Cosgrove: I moved back to Canada in 2016 and so, since I came back kind of stories has always been.

57

00:18:28.110 --> 00:18:30.930

Megan Cosgrove: More of like a volunteer type of.

58

00:18:32.250 --> 00:18:43.410

Megan Cosgrove: arrangement where my business has always been kind of an executive coaching and human resources so that's kind of like Lindsey is like my my day job.

59

00:18:43.980 --> 00:18:45.570

Salim Stokey: yeah now and.

60

00:18:47.640 --> 00:18:52.530

Salim Stokey: The coaching was this more on leadership right as I read correctly like as a.

61

00:18:52.680 --> 00:18:57.570

Megan Cosgrove: yep yeah exactly so I I tend to work like in corporate settings during coaching.

62

00:18:58.770 --> 00:19:08.790

Megan Cosgrove: A for for the most part yeah and then, in my backgrounds early in my career, I worked as a teacher teaching kind of like grade, seven and eight or like 13 year olds.

63

00:19:09.690 --> 00:19:15.060

Salim Stokey: Okay okay very interesting because I did a minor actually in strategy consulting.

64

00:19:16.860 --> 00:19:23.160

Salim Stokey: We had mix also some guest lectures from different people from the big the big five action.

65

00:19:24.390 --> 00:19:26.160

Megan Cosgrove: Oh that's so cool that's awesome.

66

00:19:28.650 --> 00:19:36.690

Salim Stokey: yeah so what what What was it that you actually did them for stories for society like how what what What would you describe your role us.

67

00:19:37.200 --> 00:19:41.760

Megan Cosgrove: yeah if I was a board member, but they worked a lot on projects with Julian, though.

68

00:19:42.090 --> 00:19:53.910

Megan Cosgrove: And, and we created this partnership with with most Mira, and for this specific piece building initiative, a lot of the work that we did, though, was in Stockholm so like within Sweden we did.

69

00:19:54.900 --> 00:19:58.200

Megan Cosgrove: A few like one day, workshops and and things along those lines.

70

00:19:58.950 --> 00:20:16.440

Megan Cosgrove: But specifically on this project Julian I basically deliver this project, the two of us together, on behalf of stories for society and enjoy the founder of of stories and and I was just a Co facilitator and co participant and we.

71

00:20:17.610 --> 00:20:26.580

Megan Cosgrove: We did quite a bit of work ahead of time planning and preparing and then we were in Bosnia Herzegovina twice to deliver projects in two different locations.

72

00:20:27.060 --> 00:20:38.130

Salim Stokey: yeah where I actually forgot about it, like wasn't a simultaneous make a sentence was when a continuous project after like after each other or where did you go I guess you said twice.

73

00:20:38.460 --> 00:20:38.940

Salim Stokey: Like we went.

74

00:20:39.150 --> 00:20:50.100

Megan Cosgrove: to separate time yeah So the first project was in prayer door, and it was for communities that were like it just outside of of prayer doors to places like heavily Ani.

75

00:20:51.060 --> 00:21:04.410

Megan Cosgrove: And we brought students together and not project at a Community Center in tagliani and and the interesting thing about the Community Center in heavily on me as a choice of a location for this piece building projects we brought students from.

76

00:21:05.550 --> 00:21:13.740

Megan Cosgrove: from schools that were primarily Serbian based and primarily Muslim based together in this Community Center and the Community Center is actually where.

77

00:21:14.820 --> 00:21:27.120

Megan Cosgrove: When mass graves were found in the rural north of Bosnia Herzegovina that's where the bodies were taken to be catalogued, and so it kind of was a interesting twice of location, specifically for peace building project.

78

00:21:27.450 --> 00:21:33.420

Salim Stokey: yeah like that that setting must have like also affected the bit of the work, maybe.

79

00:21:34.500 --> 00:21:35.310

Megan Cosgrove: Absolutely.

80

00:21:35.370 --> 00:21:38.370

Salim Stokey: But, in which ways would like affects the word.

81

00:21:39.330 --> 00:21:49.890

Megan Cosgrove: Yes, I would say, I think I think probably for the students, maybe their realization like of what that all means is a little different because they weren't.

82

00:21:50.370 --> 00:21:57.900

Megan Cosgrove: They were younger, but for the teachers, it was pretty impactful because they they knew exactly what that Community Center was.

83

00:21:58.230 --> 00:22:04.050

Megan Cosgrove: And I think it brought the teachers together and in this project and same with the facilitators and.

84

00:22:04.620 --> 00:22:12.090

Megan Cosgrove: The other piece of like this part of kalyani is them it's rural and it's it's it's a really interesting town because.

85

00:22:12.810 --> 00:22:22.110

Megan Cosgrove: You see people living in impoverished ways and then you see these like gated beautiful homes which, like.

86

00:22:22.740 --> 00:22:33.270

Megan Cosgrove: Where it was shared with me, that those those specific homes are people who left before during the war live in another country and it's kind of like a summer house for them to come back to or.

87

00:22:34.110 --> 00:22:39.570

Megan Cosgrove: So it's not people who are who are living in Bosnia at their their primary country or primary country of residence.

88

00:22:39.990 --> 00:22:56.550

Salim Stokey: mm hmm and when, in the Institute with Judy she said that actually does it's in the beginning it was like maybe a bit hard to get the to convince the teachers of the matter, I don't know she said, but she said, maybe you were gonna say that it was different or something but.

89

00:22:57.180 --> 00:22:59.370

Megan Cosgrove: No, I would agree with that completely, I think.

90

00:23:00.090 --> 00:23:04.860

Megan Cosgrove: The first project we did in in in kevlar yani I would say.

91

00:23:06.450 --> 00:23:09.900

Megan Cosgrove: So we were bringing a whole bunch of schools together and.

92

00:23:11.310 --> 00:23:16.290

Megan Cosgrove: The teachers weren't bought in until they saw the students working through the process.

93

00:23:17.940 --> 00:23:25.500

Megan Cosgrove: They definitely were because we did some training with the teachers initially i'm sure Julie told you that and it took it took some.

94

00:23:26.400 --> 00:23:34.770

Megan Cosgrove: Some work to get them on board, but they definitely by the end of the project were 100% bought in the second project we did was in Libya, which.

95

00:23:35.130 --> 00:23:47.010

Megan Cosgrove: That was very different because it was in a Community Center with a woman who runs that Community Center and to have her staff members and they were 100% on board with the work and the project.

96

00:23:48.090 --> 00:23:56.310

Megan Cosgrove: So that was that was a very different kind of environment in terms of the response, like the sponsors the teachers, being the sponsors of the project.

97

00:23:57.390 --> 00:24:06.840

Megan Cosgrove: I think in in Kevin Gianni it took a lot more work like we took them through the whole process and by the end of it, I think they saw the value for the students for sure.

98

00:24:08.160 --> 00:24:08.460

Salim Stokey: and

99

00:24:10.230 --> 00:24:17.910

Salim Stokey: And what about the kids today make androids from the get go or Wednesday like a bit cautious or.

100

00:24:18.570 --> 00:24:19.350

Megan Cosgrove: yeah I know it.

101

00:24:19.440 --> 00:24:25.890

Megan Cosgrove: I think that students were very interested and I think it was pretty different than what they're used to in their classroom learning so again.

102

00:24:26.130 --> 00:24:41.970

Megan Cosgrove: I haven't been in a classroom and in Bosnia Herzegovina before, but what was fed to me from the teachers and from the students is that they go to school for half a day and everyone sits in rows it's very like pencil and paper type activities.

103

00:24:42.360 --> 00:24:46.470

Megan Cosgrove: And there isn't this sense of like group work or collaboration or.

104

00:24:46.560 --> 00:24:53.910

Megan Cosgrove: Like doing something collectively together, so I think this was very different than anything that they generally experience and in their classroom.

105

00:24:55.170 --> 00:25:10.230

Megan Cosgrove: So it was pretty exciting for them to get to do something that was like out of the norm, and I think they really enjoyed like dramatizing and drawing and getting to do things that, from my understanding aren't things that show up like day to day at school.

106

00:25:11.790 --> 00:25:12.090

Salim Stokey: and

107

00:25:13.410 --> 00:25:22.470

Salim Stokey: How, how did you like Julian you actually like prepare for for like going there, like a what's what was the process behind it and that sense.

108

00:25:23.010 --> 00:25:24.480

Megan Cosgrove: yeah yeah good question.

109

00:25:25.230 --> 00:25:38.970

Megan Cosgrove: So, in terms of preparing the work we worked with the team at most Mira to so really and they they brought all the stakeholders together so Julian I didn't have to do that part you know, like they got the schools engaged, they were able to get the participants.

110

00:25:39.930 --> 00:25:45.870

Megan Cosgrove: For the project and our job was just to go and deliver the the story making process.

111

00:25:46.350 --> 00:25:48.000

Megan Cosgrove: And so that.

112

00:25:48.180 --> 00:25:54.870

Megan Cosgrove: That was our primary objective and did Julie Julie did she show you the book The book that was created out of the second one.

113

00:25:55.260 --> 00:25:58.770

Salim Stokey: um you mean the message report or and I.

114

00:25:59.130 --> 00:26:01.980

Megan Cosgrove: don't know that we we created like an actual story book.

115

00:26:02.070 --> 00:26:05.280

Salim Stokey: She told me about it, but I haven't no I haven't seen it.

116

00:26:05.670 --> 00:26:10.230

Megan Cosgrove: Oh well, if you want I i'm pretty sure I have an extra copy, if you want me to send you one, let me know.

117

00:26:10.920 --> 00:26:11.670

Salim Stokey: i'll be actually yeah.

118

00:26:11.730 --> 00:26:20.850

Megan Cosgrove: yeah I just send me send me an address to mail it to and i'll i'll send it to you, but we have so we created like an actual book out of it, but basically.

119

00:26:21.540 --> 00:26:30.720

Megan Cosgrove: The point in the first one was really to build bridges between the communities, because these schools are live in separate communities that are very close to each other.

120

00:26:30.960 --> 00:26:36.630

Megan Cosgrove: But are very polarized and one of the interesting things in the first story making process is that.

121

00:26:36.960 --> 00:26:51.840

Megan Cosgrove: The students actually write with different characters so the CERT the Serbian students right with different characters than the Muslim students do, and so that that was actually very interesting to put them in groups together because they had to be able to like document this.

122

00:26:52.890 --> 00:27:00.540

Megan Cosgrove: So that that was kind of a cool a cool part of it is they, they got to like collaborate in in a lot of very real ways.

123

00:27:00.840 --> 00:27:10.920

Megan Cosgrove: In a second process, it was at a Community Center where all of the students came there almost every day and they spent time together so it's a different kind of group, like we weren't.

124

00:27:12.360 --> 00:27:21.450

Megan Cosgrove: We weren't bringing different communities together, we were like celebrating one Community that is like very low income and like.

125

00:27:22.680 --> 00:27:31.260

Megan Cosgrove: Very like they really the point of this Community Center is really to provide like a safe space for these kids these students.

126

00:27:32.190 --> 00:27:36.540

Salim Stokey: yeah like the area was very heavily affected by the wire thanks.

127

00:27:37.320 --> 00:27:40.770

Megan Cosgrove: Very yeah and, interestingly, there was a whole bunch of hot.

128

00:27:41.820 --> 00:27:45.630

Megan Cosgrove: residences built, which were called Canada house which for me was really interesting.

129

00:27:46.050 --> 00:27:51.780

Megan Cosgrove: Canada actually built like that's where they built was in Libya, so that was an interesting like connection point for me, but.

130

00:27:52.200 --> 00:28:06.270

Megan Cosgrove: Even like we were there in February to deliver that project in Libya and the Community Center couldn't afford to turn the heat on so we were like in this Community Center like in hat summits and gloves and coats because it was there was there was no heat.

131

00:28:07.830 --> 00:28:21.720

Megan Cosgrove: yeah so it was, but the students all came like, and it was totally by choice, whereas the first project, the students were like it was part of their school, so they kind of they had to come, they were coming with their school, the second project.

132

00:28:21.810 --> 00:28:24.000

Megan Cosgrove: They they got to choose to come and.

133

00:28:24.300 --> 00:28:29.580

Megan Cosgrove: And yeah everyone just kept coming back because they were enjoying it, which is great.

134

00:28:29.850 --> 00:28:30.030

and

135

00:28:31.770 --> 00:28:36.210

Salim Stokey: it's very like fun to hear like this well surely as well, she said.

136

00:28:37.260 --> 00:28:45.750

Salim Stokey: She started in a similar way, and I was wondering like did you guys like not expect everyone to come back or think it sounds like sort of like surprise in that sense.

137

00:28:46.740 --> 00:28:49.590

Megan Cosgrove: I think we had no expectations.

138

00:28:49.620 --> 00:28:50.190

Megan Cosgrove: Going into.

139

00:28:50.280 --> 00:29:00.480

Megan Cosgrove: project, and I think part of that is Julie Julie is done quite a bit of work there before it like in in other in other ways in sectors, not in this specific way.

140

00:29:00.900 --> 00:29:16.680

Megan Cosgrove: I think we just had no expectation like we wanted to just be completely open to whatever was going to happen and where it was going to go and and we were okay like if people chose to participate or not participate, we just wanted to like make it as engaging and interesting.

141

00:29:18.000 --> 00:29:22.950

Megan Cosgrove: And as positive, of a learning environment as possible for anyone who attended and.

142

00:29:24.330 --> 00:29:29.760

Megan Cosgrove: yeah it was really exciting, it was really exciting, because I think I think in in the second project and luby I think.

143

00:29:29.970 --> 00:29:35.430

Megan Cosgrove: Some of them came because, like their sister was, like all right you've got to come with me like we're going to Community Center we're going to do this thing.

144

00:29:35.910 --> 00:29:48.810

Megan Cosgrove: And then they're, the ones who were like literally waiting by the door when we got there the next day because they were so excited to get started, like they're like can we start early can we start working on our drawings, right now, like it was just so fantastic um.

145

00:29:49.530 --> 00:29:50.580

Megan Cosgrove: yeah you're like.

146

00:29:51.150 --> 00:29:56.610

Salim Stokey: children were very enthusiastic to go and continue to work and engage actually at this point.

147

00:29:57.390 --> 00:30:04.650

Megan Cosgrove: yeah it was it was really neat they were, I think all the students across both projects were just really engaged and excited.

148

00:30:05.100 --> 00:30:10.320

Megan Cosgrove: And I think it was something that they don't get exposure to on a day to day basis and, and that was.

149

00:30:10.920 --> 00:30:24.870

Megan Cosgrove: interesting and fun and and they really liked creating a story, because I think that creativity component really can unlock your ability to talk about hard things as well and i'm sure Julie shared this with you, but the stories were.

150

00:30:26.730 --> 00:30:28.950

Megan Cosgrove: Were sad, they were really sad.

151

00:30:29.970 --> 00:30:36.600

Megan Cosgrove: Because we saw we saw into each of these kids lives and they brought very real like very personal.

152

00:30:37.650 --> 00:30:43.170

Megan Cosgrove: very intense hard times to the the stories that they co created with their friends.

153

00:30:45.390 --> 00:30:53.880

Megan Cosgrove: But it's a great like, in our opinion, the story making processes, an incredible way to be able to articulate that in a safe space.

154

00:30:54.300 --> 00:31:04.080

Megan Cosgrove: yeah and to be able to share kind of your experiences, but that yeah there was very real stuff in the stories that they created and the one that we ultimately co created and performed.

155

00:31:04.800 --> 00:31:16.710

Megan Cosgrove: It wasn't it, it was disconnected from those people's personal traumas but they you know, in the initial story making process like that's what they brought to the story making process and openly shared, which I think is.

156

00:31:17.580 --> 00:31:25.590

Megan Cosgrove: that's the cool part, which you know from the work that you do that's the cool part of bringing creativity into the space of like peace building or.

157

00:31:26.760 --> 00:31:28.590

Megan Cosgrove: Exploring your personal experience.

158

00:31:29.190 --> 00:31:29.460

and

159

00:31:30.990 --> 00:31:33.540

Salim Stokey: Making sure choose their own topics right so.

160

00:31:35.040 --> 00:31:40.050

Salim Stokey: The first one was, I think, like the connection I think something like that connection.

161

00:31:40.080 --> 00:31:46.920

Megan Cosgrove: Exactly yep yeah yeah so we we had different themes for them, which was connection to like bring these communities together and.

162

00:31:47.160 --> 00:31:53.070

Megan Cosgrove: We we created that topic we chose that topic area with the teachers, so we ran this way, making process with the teachers.

163

00:31:53.370 --> 00:32:06.090

Megan Cosgrove: And then that was kind of what we had had thought might be a good topic, but we co created that like with the with the teachers, specifically, which was great, and I think both stories kind of fall around that concept of connection.

164

00:32:06.420 --> 00:32:09.900

Salim Stokey: yeah because the other one was, I think, like the stranger or something or like.

165

00:32:09.990 --> 00:32:17.160

Salim Stokey: Stranger valve and I, I saw the video of the performance on the square or like.

166

00:32:17.220 --> 00:32:25.470

Salim Stokey: yeah yes, which was it was so, even though I didn't understand what the kids were saying, like you, I was very interesting to see how.

167

00:32:26.700 --> 00:32:32.850

Salim Stokey: How involved, they were like how well they knew their lines, at least, it seems like they they really know what they were doing.

168

00:32:36.090 --> 00:32:48.480

Megan Cosgrove: a really great job with them and they performed it like walking down the street, the main street in Libya, which is like it's a very small community and everyone kind of lives off this Main Street, and I think like from what I understand, like the whole town pretty much came out to the.

169

00:32:48.660 --> 00:33:08.250

Salim Stokey: Bad so a bunch of people actually like like looking and we're very interested, as well as was very, very nice to see, would you say that, like the of the story, making process like how How important is the product like the end product of the process.

170

00:33:08.760 --> 00:33:16.950

Megan Cosgrove: hey I think the end product to me the most important part is that the students that created it are proud of their output.

171

00:33:17.610 --> 00:33:20.820

Megan Cosgrove: So it to me it's not so much about like what that output is.

172

00:33:21.390 --> 00:33:30.330

Megan Cosgrove: it's about that they're proud of it and that they feel like they collaboratively got there so it's important for us that every single person participant contributes to the process.

173

00:33:30.570 --> 00:33:40.860

Megan Cosgrove: And it doesn't mean we don't force people who don't want to draw to draw but we we find a way for everyone to be involved and really feel like they're contributing to the creation of the story, and in a meaningful way.

174

00:33:42.060 --> 00:33:43.200

Salim Stokey: And um.

175

00:33:44.430 --> 00:33:48.840

Salim Stokey: I also asked God for mercy like how, how do you think that's like.

176

00:33:50.070 --> 00:34:00.840

Salim Stokey: Music, do you think it's a repeat for like teachers to collect the work you guys did there like how how easy could they would be the setting and the process in a sense.

177

00:34:01.380 --> 00:34:12.840

Megan Cosgrove: yeah, I think, so we did create a manual for the teachers, so that they could like use the story making process or what's cool about it is each step can be used kind of separately to for for learning and.

178

00:34:14.340 --> 00:34:29.640

Megan Cosgrove: And we did provide that to them, I think, the key is like they have to want to like that's that's the key that unlocks it so like they have to want to, but we created like lesson plans to share with them and and i'm confident that, like there was lots of teachers who did want to use it.

179

00:34:30.840 --> 00:34:38.400

Salim Stokey: So um because I have had like a bunch of interviews on and i'm sorry to format a picture of what where I want to go with the.

180

00:34:38.910 --> 00:34:40.500

Megan Cosgrove: Perfect yeah that's good.

181

00:34:41.430 --> 00:34:49.530

Salim Stokey: I really feel like this, these kind of projects, we can, maybe work well through schools and that sounds like especially again.

182

00:34:49.950 --> 00:34:59.550

Salim Stokey: I would thinking on you, is like the easiest way to connect with people and transform and social norms and stuff but that specifically for schools will be.

183

00:35:00.150 --> 00:35:11.910

Salim Stokey: A good way I think we're done i'm thinking already from back on my previous work I had with schools and teachers not wanting to change and teachers not really like often at least.

184

00:35:12.900 --> 00:35:22.950

Salim Stokey: Like how How would you see, for example, this method being introduced to schools and would that be something you think that would work or like how was.

185

00:35:24.840 --> 00:35:26.040

Salim Stokey: Your from your own experience.

186

00:35:26.880 --> 00:35:35.070

Megan Cosgrove: yeah that's that's a really good question so we, we have introduced it like in some schools in Sweden and and what I would say is that.

187

00:35:35.820 --> 00:35:50.430

Megan Cosgrove: It depends upon the country, so the Ministry of Education, or whoever manages education in that country, a lot of the time provides a significant amount of curriculum that has to be delivered to students yeah and.

188

00:35:51.480 --> 00:36:04.800

Megan Cosgrove: Time, it can be an issue for a teacher, to be able to deliver all that curriculum, and so I think it's easy to feel very overwhelmed by the need to deliver all of that required curriculum like I feel for teachers.

189

00:36:06.840 --> 00:36:22.170

Megan Cosgrove: And so, this process can actually help you deliver multiple strands of curriculum simultaneously, so you can do like social studies and science and English all at the same time, through this project it's.

190

00:36:22.650 --> 00:36:38.190

Megan Cosgrove: But that takes like that takes us that takes some work to set it up so it's really like I get I get that teachers, I think, are pulled in many directions and you know, and I think they have a lot to do and to deliver and there's always new curriculum and new things to learn.

191

00:36:38.310 --> 00:36:45.660

Megan Cosgrove: yeah, so I think it's like it's I I feel for them and that's where there's like benefit, I think.

192

00:36:46.380 --> 00:36:52.500

Megan Cosgrove: from us is outside facilitators coming in and being able to do all that legwork you know, like for those teachers in Bosnia Herzegovina.

193

00:36:53.130 --> 00:37:08.520

Megan Cosgrove: They had to they had to show up and support their students, which I think is like a great role for a teacher in this process, and they were able to evaluate their students on like oral communication on written communication like there was there was so much that can be brought into this.

194

00:37:09.930 --> 00:37:24.660

Megan Cosgrove: We run like a little mock process before on sustainability so like you really can you can create any theme out of this like you could use some kind of science learning he, like really it's so it's an incredibly adaptable process.

195

00:37:26.340 --> 00:37:28.380

Megan Cosgrove: I don't know if that totally answered your question but.

196

00:37:29.250 --> 00:37:40.560

Salim Stokey: it's very interesting actually select i'm thinking them and that says it will be better to have some sort of organization that's like you guys didn't come in and then.

197

00:37:41.550 --> 00:37:44.550

Salim Stokey: Do the project, together with the teachers and actually like.

198

00:37:45.420 --> 00:37:54.630

Salim Stokey: Having it come from above from the Ministry or something and then telling them okay Oh, this is, this is the format, you have to like incorporate this somewhere in the year.

199

00:37:55.050 --> 00:38:03.960

Salim Stokey: That might be less productive in that sense or efficient, especially in the first few times than having someone come in, in essence.

200

00:38:04.170 --> 00:38:15.330

Megan Cosgrove: yeah I think I think that's pretty that's pretty accurate and and I also do think to that having somebody external come in and create a safe space like for the conversation.

201

00:38:15.690 --> 00:38:26.580

Megan Cosgrove: can be really helpful as well, and the teacher already has a great relationship with their students but, having somebody else come in and kind of set the ground rules for it can be, can be a good thing too.

202

00:38:26.730 --> 00:38:27.330

Salim Stokey: because it creates.

203

00:38:27.420 --> 00:38:34.050

Megan Cosgrove: Like a unique container for for that process to to experience within.

204

00:38:34.620 --> 00:38:38.700

Salim Stokey: And you, you mentioned like safe space, which is.

205

00:38:39.900 --> 00:38:52.950

Salim Stokey: very interesting for me because, like that's something that comes up to every interview for me so far and how how important would you say that the creation of that safe space is for this work to be done.

206

00:38:53.580 --> 00:38:58.110

Megan Cosgrove: I think it's paramount yeah I think it's it's it's absolutely critical.

207

00:39:00.390 --> 00:39:18.540

Megan Cosgrove: And it because people people naturally in story making draw upon their personal experiences and they're bringing those personal experiences to the table it's so important that any of those that sharing is met, like is met with a safe environment.

208

00:39:19.590 --> 00:39:24.030

Megan Cosgrove: to feel like they can share and like and they feel empowered by.

209

00:39:24.030 --> 00:39:30.870

Salim Stokey: Sharing and then how house such a space created in that sense, then.

210

00:39:31.740 --> 00:39:41.010

Megan Cosgrove: yeah so we have like some very specific ground rules that that we set just basically to create an environment of respect.

211

00:39:42.030 --> 00:39:47.490

Megan Cosgrove: And to create an environment of ideation so that like because the idea is like.

212

00:39:48.240 --> 00:39:58.140

Megan Cosgrove: This is supposed to be magic like it's not supposed to be your everyday you know and and you can have your setting wherever you want to, but for most people like the reason we create an island.

213

00:39:58.530 --> 00:40:10.320

Megan Cosgrove: In this method, the island method is because an island isn't connected to any land form it's like it can be its own unique creative innovative space and it's got its own like boundaries.

214

00:40:11.670 --> 00:40:15.510

Megan Cosgrove: So so that's how we do it and we hold very tight to the ground rules.

215

00:40:16.260 --> 00:40:21.690

Salim Stokey: Okay, so then if if a kid is if one of the students was like okay I don't wanna.

216

00:40:23.160 --> 00:40:32.550

Salim Stokey: Like no stake showing like not to winning know willingness to participate done you guys would just take him a part in that sense, and then like nuts.

217

00:40:34.530 --> 00:40:39.990

Megan Cosgrove: yeah we we won't allow anyone to be disrespectful and so that's when somebody would be removed from the environment.

218

00:40:40.260 --> 00:40:54.330

Megan Cosgrove: If somebody didn't want to participate, I think, like our our desire, would be to sit with them and try to find a way for them to participate, that was meaningful for them, or like just really hear them out as to like what is it that's driving their desire not to participate.

219

00:40:55.950 --> 00:40:57.420

Megan Cosgrove: And and encourage them.

220

00:40:57.600 --> 00:41:02.040

Megan Cosgrove: To find like a way to contribute this what's what's awesome about this is like.

221

00:41:02.370 --> 00:41:12.990

Megan Cosgrove: You don't have to be the actor in the play you could be like the producer or the director behind the scenes, you can make the props like you can contribute in any way that you want to it doesn't have to be.

222

00:41:13.860 --> 00:41:23.760

Megan Cosgrove: there's no there's nobody being forced to do anything like there's just different roles for different people there's people who are great at writing there's people who are great at drawing you know there's people who are just coming up with ideas.

223

00:41:24.780 --> 00:41:28.380

Salim Stokey: there's a role for everyone, everyone can do contribute in their own way.

224

00:41:28.890 --> 00:41:32.970

Megan Cosgrove: yeah and that's, the idea is like we don't want them to contribute in a way that doesn't feel good.

225

00:41:34.710 --> 00:41:39.090

Megan Cosgrove: they're already going to go outside of their comfort zone like they're already going to do things that are like.

226

00:41:39.570 --> 00:41:50.160

Megan Cosgrove: and share things and explore things that are outside of like those that comfort zone wall, so we we want them to to do that, like to to feel like they have control over how they're going to do that.

227

00:41:51.030 --> 00:41:53.670

Salim Stokey: And do you remember any like.

228

00:41:55.140 --> 00:42:03.450

Salim Stokey: challenges that like occur during the processing during the first project, at least with the different schools, thank you kitty remember.

229

00:42:04.710 --> 00:42:18.510

Megan Cosgrove: I don't I think what's interesting about the process is like once it gets started everyone so engaged and interested like there isn't there isn't a lot of like discipline issues or like people just want to do it, they want to be involved, they want to participate.

230

00:42:20.010 --> 00:42:37.080

Megan Cosgrove: And I think like they they want to be there if they can be and I found in that, but in the in our peace building project everyone was pretty into it, like in both settings that's what I remember, but Julie may remember differently, but that's what I remember.

231

00:42:37.200 --> 00:42:41.610

Salim Stokey: No, no, she she said the same actually and she she didn't.

232

00:42:42.690 --> 00:42:47.820

Salim Stokey: say it, but I still want to see it, but like matches.

233

00:42:49.200 --> 00:43:00.540

Salim Stokey: And like what How would you say that the the overall reaction was like after the project of the kids and teachers, like, I know, there was like a sermon thing.

234

00:43:01.410 --> 00:43:11.520

Megan Cosgrove: yep no we got we got very positive feedback I think they were incredibly proud of themselves and the one the group that we took place and heavily on he they.

235

00:43:12.330 --> 00:43:20.400

Megan Cosgrove: They did they actually did their play like in a proper auditorium in prayer door and they were so proud of themselves, which is amazing.

236

00:43:21.360 --> 00:43:28.470

Megan Cosgrove: And so proud of, like their output and and they like we're so proud to have all their family and friends by watching them.

237

00:43:28.830 --> 00:43:45.300

Megan Cosgrove: And then the second project in Libya well you saw the video like they were like just beaming leg down the street down the Main Street sharing like their their output and and we created the physical story copies for them, which I think was like really nice for them to keep and.

238

00:43:46.350 --> 00:43:54.870

Megan Cosgrove: yeah that project was many moons ago like it wasn't you know, in the past couple of years, and I still keep in touch with like some of the participants.

239

00:43:55.950 --> 00:43:59.580

Megan Cosgrove: Just because it was like it was a very positive moment in their life.

240

00:44:00.000 --> 00:44:00.720

Megan Cosgrove: Which is great.

241

00:44:01.860 --> 00:44:03.450

Salim Stokey: um and.

242

00:44:04.800 --> 00:44:09.720

Salim Stokey: How, let me see how the cure us.

243

00:44:11.700 --> 00:44:24.780

Salim Stokey: sisters yeah so um What would you say, like some recommendations, you would have for other products for other people that will be doing similar work like this.

244

00:44:25.590 --> 00:44:37.200

Megan Cosgrove: yeah I think I think like being open and it's probably everyone doing this 10 of work is like I think you just need to go and open and meet the group, wherever they are.

245

00:44:39.300 --> 00:44:44.850

Megan Cosgrove: You know I think Julie and I were both really impacted by the people and the places.

246

00:44:45.990 --> 00:44:56.100

Megan Cosgrove: On this specific project, and I remember like on one of our breaks Julian I went outside and there was these two sweet sweet sweet little puppies that were just like so malnourished.

247

00:44:57.630 --> 00:45:00.960

Megan Cosgrove: And I remember both of us just kind of standing there like looking at these puppies being.

248

00:45:02.550 --> 00:45:04.380

Megan Cosgrove: We were just both so impacted.

249

00:45:04.680 --> 00:45:08.070

Megan Cosgrove: And like I I will forever be impacted by.

250

00:45:09.450 --> 00:45:12.210

Megan Cosgrove: That for that specific project and that experience.

251

00:45:13.410 --> 00:45:18.780

Megan Cosgrove: And the students that we met and like they were just really great great humans and Mike.

252

00:45:20.280 --> 00:45:27.990

Megan Cosgrove: Maybe super helpful for our like for our world, so in terms of like wine suggestions I would just say like be open.

253

00:45:28.410 --> 00:45:39.330

Megan Cosgrove: To just like meeting people where they are and and I think like the magic is in their connection together that's my my, my opinion is like.

254

00:45:40.230 --> 00:45:49.890

Megan Cosgrove: Life is about relationships and life is about connections and life is about like people coming together, and so I but I don't know i'm the best person to give advice about all this.

255

00:45:50.670 --> 00:45:57.750

Salim Stokey: So it's an important question because I resolved like people say with that question actually said something completely different or like.

256

00:45:58.140 --> 00:45:58.620

A bit.

257

00:45:59.670 --> 00:46:06.750

Salim Stokey: yeah the worst has come out in that sense, but this question yeah like how you said, like.

258

00:46:07.830 --> 00:46:15.870

Salim Stokey: that's that you watch like the puppy and was a quite a consenting to get impacted you quite like a lot like just the whole project itself.

259

00:46:17.190 --> 00:46:31.800

Salim Stokey: How I heard, this is why, with some other projects have neck, for example, the people who were organizing and they came from abroad and day who conflict and the whole setting like this impacted them a lot and then lessons I wonder if you think it is.

260

00:46:32.910 --> 00:46:46.710

Salim Stokey: necessary, in that sense to also have some closure with the team in that sense, like when you in a structured way that discusses these things that happened, or something that you've seen or.

261

00:46:47.220 --> 00:46:57.960

Megan Cosgrove: yeah I think that's really important, I think any any way you can do that, and to think about like, how do you create traction for the future, because I, the one thing I do think about these projects is that.

262

00:46:59.100 --> 00:47:05.100

Megan Cosgrove: The project was really meaningful, but like, how do we keep that momentum going for those students longer term.

263

00:47:06.270 --> 00:47:12.720

Megan Cosgrove: And I think like closure closure and talking about it is incredibly important.

264

00:47:14.400 --> 00:47:19.650

Megan Cosgrove: Because you do like, especially in this story making process, you hear a lot about like people's lives.

265

00:47:21.570 --> 00:47:27.450

Megan Cosgrove: And, no matter where you are in the world and, like and that can be heavy.

266

00:47:30.120 --> 00:47:44.880

Salim Stokey: And then yeah Nick especially worship like you opened up in that sense and you're like oh that's safe environment, I think that might be very important, of course, we'll have that closure part of that, like sort of safety in the end yeah.

267

00:47:45.330 --> 00:47:45.600

yeah.

268

00:47:47.100 --> 00:47:58.590

Salim Stokey: And that's why I think, then, Joe for the for the people who come from abroad, or like it must be also like so like, at least for some people was like very happy, who has spoken to and.

269

00:47:59.640 --> 00:48:00.090

Salim Stokey: I.

270

00:48:01.710 --> 00:48:17.490

Salim Stokey: But they said that they had like they didn't like we talk about like the actual like fix a scene, or like gone through which, like you, guys have any was like a nail, you know, was very impactful it was nice to super that extent of these but.

271

00:48:18.750 --> 00:48:25.920

Salim Stokey: Recently, was very bad, do you think it should be sort of part of the process in general as well, your team organized.

272

00:48:27.060 --> 00:48:32.520

Megan Cosgrove: And I absolutely I think probably something up front and, at the end because.

273

00:48:33.540 --> 00:48:38.280

Megan Cosgrove: I think both Julian I didn't really know what we were going to experience when we got to.

274

00:48:39.300 --> 00:48:48.840

Megan Cosgrove: Bosnia Herzegovina, I think we we didn't really know like what the communities we're going to be like what the villages we're going to be like, I think, knowing more about that would have been.

275

00:48:49.650 --> 00:48:58.560

Megan Cosgrove: Great have been like helpful, so that we were prepared going into it, and then I think it's important to do something, on the other end as well.

276

00:49:00.420 --> 00:49:03.540

Megan Cosgrove: Because yeah in our project, you know we saw.

277

00:49:04.950 --> 00:49:07.590

Megan Cosgrove: We saw a lot of poverty.

278

00:49:08.970 --> 00:49:14.610

Megan Cosgrove: But that's what that's what we saw you know, like it, we saw children who like didn't have enough food.

279

00:49:15.840 --> 00:49:19.500

Megan Cosgrove: or heat in their homes, like in the winter, you know, but we didn't see.

280

00:49:19.950 --> 00:49:33.600

Megan Cosgrove: Like it and I think we had each other to to to like we talked a lot about it after together, but I think you're right I think you're onto something there needs to there needs to be support for these people doing these projects and before and after.

281

00:49:34.650 --> 00:49:35.220

Salim Stokey: yeah like.

282

00:49:36.420 --> 00:49:42.540

Salim Stokey: Like, of course, it can be held at least in the studio knew, you had a charter in that sense, to take over there.

283

00:49:43.740 --> 00:49:46.590

Salim Stokey: To this talk to, if needed, I guess.

284

00:49:47.880 --> 00:49:54.900

Salim Stokey: But yeah like I really i'm really wondering now like okay what what should be an extra important factor for.

285

00:49:56.190 --> 00:50:02.190

Salim Stokey: allowing people to continue being doing this work and then continue being able to do it in a proper innocence.

286

00:50:02.550 --> 00:50:02.880

yeah.

287

00:50:04.350 --> 00:50:19.710

Salim Stokey: But let me see and it sounds I think we went through like the most of the stuff like very quickly, because I guess why I already had the first conversation was Judy mainly been a lot of projects in that sense.

288

00:50:21.450 --> 00:50:23.220

Salim Stokey: Let me see I wanted to ask them.

289

00:50:24.870 --> 00:50:33.600

Salim Stokey: How important do you think that that is that or second international acts aspect to these kind of projects thing that you can add something or.

290

00:50:35.010 --> 00:50:40.170

Salim Stokey: No yeah isn't really necessary, an extra money come from local site.

291

00:50:41.340 --> 00:50:53.790

Megan Cosgrove: yeah that's a great question I think what an international aspect, the positives like what that brings is it does bring a different perspective and and I think that is interesting and.

292

00:50:55.410 --> 00:51:02.790

Megan Cosgrove: I think it brings a different perspective for the people in the country, and I think it also brings a different perspective for the people, facilitating.

293

00:51:03.120 --> 00:51:09.270

Megan Cosgrove: So I think that Julian I probably learned more on that project than the people that were participating.

294

00:51:10.050 --> 00:51:21.120

Megan Cosgrove: And and and, but I think part of like the learning that existed between all of us was because we've had different life experiences we've come from different places we've lived in different places.

295

00:51:22.620 --> 00:51:31.590

Megan Cosgrove: And we all bring that to the table, and I think the more my personal viewpoint on it is like the more diverse perspectives can come to the table.

296

00:51:32.250 --> 00:51:44.100

Megan Cosgrove: The more we create an incredible product, the more that learning can occur, but I think like that pre well you know we were talking about like being prepared going into that environment I think that's incredibly important because.

297

00:51:45.330 --> 00:51:55.650

Megan Cosgrove: The one thing about international aid in Bosnia Herzegovina as it unseen like as it was communicated to me that it is seen, and obviously like that's, all I can say.

298

00:51:56.970 --> 00:52:03.060

Megan Cosgrove: Is they see it as people coming giving money dropping food and leaving.

299

00:52:03.450 --> 00:52:12.810

Megan Cosgrove: yeah and they see it as like oh here here are these people have like privilege doing this and, and I think.

300

00:52:15.330 --> 00:52:25.080

Megan Cosgrove: Julie and I talked a lot before the project about how do we show up so that they know that like we are all learning together, and this is that that's not what this is.

301

00:52:26.760 --> 00:52:29.940

Megan Cosgrove: But I think that's a real challenge when you bring an international.

302

00:52:31.590 --> 00:52:33.360

Megan Cosgrove: person into another environment.

303

00:52:35.010 --> 00:52:37.110

Megan Cosgrove: So I don't have a solution.

304

00:52:38.760 --> 00:52:42.000

Megan Cosgrove: But I, but I just would like say would say that's like that is a.

305

00:52:44.520 --> 00:52:48.120

Megan Cosgrove: that's a real challenge of all of this and.

306

00:52:49.860 --> 00:53:00.000

Megan Cosgrove: The yeah that's that's part of the reason why, for me, I like I want to be a supporter of these people, who were in this program for the rest of my life, like, I want to have that connection long term.

307

00:53:00.480 --> 00:53:19.980

Salim Stokey: yeah and i'm like In that sense I with some of the projects that were that happened, for example, right after the war there, it was quite hard in that sense for the international people to come there because there was a lot of resentment against like the international involvement.

308

00:53:20.040 --> 00:53:26.490

Salim Stokey: yeah equal did you really did you also still feel that, in that sense of like just going through the Community.

309

00:53:29.190 --> 00:53:30.270

Salim Stokey: interactions or.

310

00:53:31.950 --> 00:53:41.970

Megan Cosgrove: Well, that that's like the teacher is kind of shared with us and and the people at the Community Center kind of shared with us that that was the feelings yeah um and so.

311

00:53:43.290 --> 00:53:50.580

Megan Cosgrove: We did everything we could to like be their ally, you know, like in be make them feel like we're walking beside them.

312

00:53:50.850 --> 00:54:00.600

Megan Cosgrove: And what's cool about the story making processes that's so easy because there's no like teaching it's it's really like they're creating it, you know it's like it's their beautiful art.

313

00:54:01.290 --> 00:54:01.500

Salim Stokey: So it.

314

00:54:02.430 --> 00:54:04.980

Salim Stokey: gives that sort of equal ground or like even.

315

00:54:05.070 --> 00:54:10.290

Salim Stokey: It gives them more power in that sense into into whole projects.

316

00:54:10.620 --> 00:54:21.360

Megan Cosgrove: They have all the power in the story making process it's all their choice and there's like such little boundaries put on that it's like it's really their own exploration.

317

00:54:23.580 --> 00:54:29.580

Salim Stokey: I think this, this is really a really good way to this link and this this fear.

318

00:54:30.810 --> 00:54:36.240

Salim Stokey: Because like it yeah you answered all of my ideas in that sense for now.

319

00:54:37.590 --> 00:54:45.000

Salim Stokey: Is there anything you would still like to add to the interview like something that you remember that you think might be important or something, but if not.

320

00:54:45.930 --> 00:54:54.540

Megan Cosgrove: I think we've talked about, most of it and yeah i'm excited to see your thesis and and yeah excited that this work lives on.

321

00:54:55.290 --> 00:54:58.170

Salim Stokey: yeah well grandsons great talking to you, thank you.

322

00:54:58.230 --> 00:55:00.540

Megan Cosgrove: yeah it was wonderful meeting you I love your energy.

323

00:55:01.230 --> 00:55:11.490

Salim Stokey: Thank you very much, it was very great to talk to you and i'm very happy to you also talk in a very not boring way that sends me.

324

00:55:14.130 --> 00:55:21.930

Salim Stokey: yeah no I I will definitely let you know the answers I will definitely also ask you about the book, you said.

325

00:55:22.110 --> 00:55:23.490

Megan Cosgrove: i'm happy to send you a copy.

326

00:55:23.850 --> 00:55:30.360

Salim Stokey: That would be so great and yeah wishing very nice rest of the weekend store.

327

00:55:32.340 --> 00:55:33.090

Megan Cosgrove: bye for now.

Jude Hutchen (Maldo Most) – MSTeams – May 12

00:00:08.840 --> 00:00:11.360
Yes, OK, great. So like I wanted to

00:00:11.360 --> 00:00:13.886
start off first with like a short

00:00:13.886 --> 00:00:16.545
question about like you like where where

00:00:16.545 --> 00:00:19.212
does your passion for arts come from?

00:00:19.220 --> 00:00:22.148
Like what's why, why you engaged in the

00:00:22.148 --> 00:00:24.950
arts and I'm a bit curious to that.

00:00:27.200 --> 00:00:30.749
Oh God, that's such a big question.

00:00:30.750 --> 00:00:35.612
Uh. Do you mean now or then, yes.

00:00:35.612 --> 00:00:38.988
Good question. So like maybe in shorts no.

00:00:38.990 --> 00:00:42.550
Yeah like then first then and then like

00:00:42.550 --> 00:00:45.739
every insured why you still engage in arts

00:00:45.739 --> 00:00:49.320
or like why you still can get something?

00:00:49.320 --> 00:00:51.168
Good, because I see that you're

00:00:51.168 --> 00:00:53.447
like a socially you want to be

00:00:53.447 --> 00:00:54.759
socially engaged with arts,

00:00:54.760 --> 00:00:56.680
and that's not all artists like.

00:00:56.680 --> 00:00:59.022
See that as well, like I, I.

00:00:59.022 --> 00:01:00.959
Some artists are like, no,

00:01:00.959 --> 00:01:02.453
I don't wanna do anything like

00:01:02.453 --> 00:01:04.070
that or and then like yeah,

00:01:04.070 --> 00:01:06.126
so like why why would you do it?

00:01:08.140 --> 00:01:09.910
I'm gonna guess I probably

00:01:09.910 --> 00:01:11.680
go to bed around answer,

00:01:11.680 --> 00:01:14.328
but now that I have then just because

00:01:14.328 --> 00:01:16.989
I've spent more time thinking about it.

00:01:16.990 --> 00:01:19.054
But my art practice now is is a

00:01:19.054 --> 00:01:21.084
range of working in communities

00:01:21.084 --> 00:01:23.004
for social justice basically.

00:01:23.010 --> 00:01:25.488
But it's on a spectrum of two.

00:01:28.030 --> 00:01:29.983
Now I'm just making my own work

00:01:29.983 --> 00:01:31.820
which is about whatever I think

00:01:31.820 --> 00:01:33.694
is relevant at the time. Or.

00:01:33.694 --> 00:01:35.892

I mean, we've talked about the wrestler

00:01:35.892 --> 00:01:38.029
stuff in some ways that was kind of

00:01:38.029 --> 00:01:40.208
fun and a way of engaging people,

00:01:40.210 --> 00:01:42.220
but I've always been doing stuff

00:01:42.220 --> 00:01:44.214
recently which is reflecting on the

00:01:44.214 --> 00:01:45.996
pandemic or social distancing and how

00:01:45.996 --> 00:01:48.127
to figure that in a way that records

00:01:48.127 --> 00:01:49.957
it for history for myself as well

00:01:49.957 --> 00:01:51.910
as a way of people maybe putting

00:01:51.970 --> 00:01:53.866
it externally to think about it.

00:01:53.870 --> 00:01:56.326
So I suppose it's so there's a scale

00:01:56.326 --> 00:01:58.880
really of it being a social political.

00:01:58.880 --> 00:02:01.820
To bench 2.

00:02:01.820 --> 00:02:03.820
Medium for connecting with people

00:02:03.820 --> 00:02:06.335
and being able to discuss things

00:02:06.335 --> 00:02:07.658
and uncover things.

00:02:07.660 --> 00:02:10.204

But it's also kind of interior

00:02:10.204 --> 00:02:12.788
experience where I can think about

00:02:12.788 --> 00:02:15.588
stuff and share ideas or work on

00:02:15.588 --> 00:02:18.076
ideas that I get excited about,

00:02:18.080 --> 00:02:20.165
but also then develop conversations

00:02:20.165 --> 00:02:21.416
with other people.

00:02:21.420 --> 00:02:23.922
And they usually on a social

00:02:23.922 --> 00:02:25.590
political theme some ways.

00:02:25.590 --> 00:02:30.120
That's that's the balance of things, yeah?

00:02:30.120 --> 00:02:31.716
When it was so,

00:02:31.716 --> 00:02:36.777
I was 24 when I went to Melody most I guess,

00:02:36.780 --> 00:02:38.061
so I wasn't.

00:02:38.061 --> 00:02:40.196
I wouldn't have called myself

00:02:40.196 --> 00:02:41.660
a professional artist,

but I've always made artwork and.

84ae3b2c-fc3c-4b42-984f-f99e9ed5c247
00:02:45.320 --> 00:02:48.878

So for me, there's always two processes

00:10:36.508 --> 00:10:38.590
is the personal experience of creating

the role of reconciliation anymore,

and actually the directive was

it needed to become a localized project,

00:15:17.556 --> 00:15:19.920
so. I mean, there's a project.

00:15:44.845 --> 00:15:46.220
We're on the West Side,

00:15:46.220 --> 00:15:47.600
on the Croatian Bosnian side,

00:15:47.600 --> 00:15:49.490
so we were quite accessible in that

ffe00ee2-6f5a-414f-b1c8-288685022eda
00:15:49.490 --> 00:15:51.720
you only had to go across the bridge.

NOTE Confidence: 0.84819

00:15:51.720 --> 00:15:53.370

00:15:53.370 --> 00:15:55.570
but having said that they were always police,

sitting in cafes by the bridge.

7d1b2014-efd5-4e04-8ffa-e21205bdd7c4
00:15:58.096 --> 00:15:59.556
I definitely felt monitored and

all the police knew my name

You have a little bit more neutrality

but for people who were coming

00:16:10.300 --> 00:16:12.059
from the east side of town,

00:16:12.060 --> 00:16:13.248
that was really intimidating.

d907227f-70b8-4c07-8ce5-f3cdad681a6d
00:16:13.248 --> 00:16:14.690
It's intimidating anyway, actually.

NOTE Confidence: 0.84297335

32df1cfa-3732-4aae-aa26-99a1269b8d2c
00:16:14.690 --> 00:16:17.440
But it was definitely threatening.

NOTE Confidence: 0.84297335

c64c0bea-9e26-401c-83e6-b203d2adb358
00:16:17.440 --> 00:16:21.367
So when I arrived I arrived as

NOTE Confidence: 0.84297335

14955685-1f98-4b6d-8dbe-7809306ea456
00:16:21.367 --> 00:16:23.914
coordinator and. So my role was

NOTE Confidence: 0.84297335

6f91769c-06ac-4886-ab7b-dd6a36becf38
00:16:23.914 --> 00:16:26.050
to try and create some structure,

00:16:26.050 --> 00:16:28.535
make some assessments of what was possible,

d226e73f-4a57-44bb-861c-4831bc91a79b
00:16:28.540 --> 00:16:31.388
what the local youth population wanted to do,

a3fe5647-5b0c-447a-bac4-1194f85c5864
00:16:31.390 --> 00:16:33.875
and to build a local management group.

NOTE Confidence: 0.84297335

42fe6d2d-6561-4b08-a8fc-a617efae63c8
00:16:33.880 --> 00:16:37.440
If we were to continue or to shut it down.

NOTE Confidence: 0.84297335

e5f9b5c1-9e63-48b4-8170-fe1c554e66dd
00:16:37.440 --> 00:16:40.288
That was the other option, but I mean

NOTE Confidence: 0.84297335

04823b60-fc24-4594-a03f-abcd1db19a70
00:16:40.288 --> 00:16:42.424
it was problematic when they arrived.

NOTE Confidence: 0.84297335

ba0c0935-cbbb-4d7f-93cb-87779e4c6780
00:16:42.430 --> 00:16:44.210
It's really messy project anyways,

NOTE Confidence: 0.84297335

48d56e4b-bebc-4478-b017-c7833da3d855
00:16:44.210 --> 00:16:46.962
but partly because we were the same age

NOTE Confidence: 0.84297335

3a978727-d026-4726-aabd-3c44b12c0ac4
00:16:46.962 --> 00:16:49.548
as people that we were working with.

00:16:49.550 --> 00:16:51.902
So there is a power dynamic

00:16:51.902 --> 00:16:53.078
of being foreigners.

Yeah, actually now starting with about nine,

fdb26dd7-35fd-43a2-b3ee-dff5224e3b25
00:16:56.390 --> 00:16:59.228
there was about three or four,

aae5378c-8657-421f-8508-88eeeacba59d
00:16:59.230 --> 00:17:01.810
three or four Bosnian local youth

and some have been there for.

f8c05603-b22e-4273-8a1d-8dcfad424449
00:17:08.620 --> 00:17:10.030
Hello, really well,

NOTE Confidence: 0.84297335

f872061a-4eb6-4b7a-91f3-f6783831ccf5
00:17:10.030 --> 00:17:12.380
others were really struggling with

NOTE Confidence: 0.84297335

f9ece54b-4da4-4607-a345-604ffde89d2f
00:17:12.380 --> 00:17:15.814
it and it it was a it was a hard

00:17:22.090 --> 00:17:24.568
So as coordinator for maybe a year

16715e0a-b85d-4f18-b93e-f1551f90c35b
00:17:24.568 --> 00:17:27.400
and a quarter, and then I we work

8987fe8e-8c7b-4abe-b2b6-8ced55fb1a1d
00:17:27.400 --> 00:17:29.170
towards being a local project.

00:17:36.122 --> 00:17:37.826
which also meant we could apply

00:17:42.773 --> 00:17:46.499
So I arrived in 98 and left in 2000,

00:17:46.500 --> 00:17:49.068
so that's the period of time

NOTE Confidence: 0.8462374

3a5ffcf2-8fda-48b3-9e83-b94fd032ccd1
00:17:49.068 --> 00:17:51.255
we're talking about the Dayton

00:17:51.255 --> 00:17:53.175
Peace deal was in 95,

00:17:53.180 --> 00:17:55.270
but actually most are still

db99a0df-054a-442c-8c48-16c771ceb18c
00:17:55.270 --> 00:17:57.360
had checkpoints until about 97.

00:17:59.870 --> 00:18:01.960
and it was still very.

There's different administrations.

00:18:07.751 --> 00:18:09.186
I think there still is.

00:18:10.807 --> 00:18:12.630
it was still really controversial.

what are you doing here?

People weren't that welcoming to you as

dfbe3beb-aa60-49ca-812e-849456b0eaed
00:18:26.410 --> 00:18:28.412
Yeah, so it's quite a kind of

local management Committee I we went.

00:18:36.280 --> 00:18:37.588
I think sounds crazy.

00:18:37.588 --> 00:18:40.480
Now we went from me being the leader

00:18:40.480 --> 00:18:42.620
into being more consensus based.

00:18:42.620 --> 00:18:44.828
OK, and we moved into partly

00:18:44.828 --> 00:18:47.413
because we lost the funding so I

00:18:47.413 --> 00:18:49.828
no longer was the leader as such

00:18:49.906 --> 00:18:52.426
and we set up a different system

NOTE Confidence: 0.85795915

01e1cabe-3552-445b-ad73-cdbc503a3e19
00:18:52.426 --> 00:18:54.238
where we would constantly revisit.

Are we OK?

d4ace9cc-6871-4e96-935d-266fbcc340e6
00:18:55.330 --> 00:18:57.520
Do we want to continue where

you can share if you want to?

00:19:00.040 --> 00:19:02.792
And it was very much I was facilitating

37bee412-d583-44df-b497-903ef5990afb
00:19:02.792 --> 00:19:05.303
that and probably had more weight

00:19:15.120 --> 00:19:17.304
I mean, I wouldn't work in consensus.

00:19:17.310 --> 00:19:20.114
Now I don't think it was really, really hard,

It was really difficult and

00:20:07.142 --> 00:20:08.907
we didn't have any money.

00:21:03.966 --> 00:21:06.548
that we didn't have to spend it on.

NOTE Confidence: 0.8539324

d46fffc7-8c61-44b1-b1af-723aba7efb33
00:21:06.550 --> 00:21:08.070
You know, transport whatever.

00:21:08.070 --> 00:21:10.350
So it gave us some freedom,

00:21:10.350 --> 00:21:13.235
but it was so stressful we, I mean, we.

8ee1c2c7-8157-4a96-89f3-5e35accaeba3
00:21:13.235 --> 00:21:16.070
None of us really knew how to do it.

e57485ed-dd46-45f8-af8e-e518885a06db
00:21:16.070 --> 00:21:19.860
Yeah, and but then after that, why?

NOTE Confidence: 0.8539324

c5f7b9f5-1255-4348-bab9-e08b2cee2913
00:21:19.860 --> 00:21:20.529
But it was.

00:21:20.529 --> 00:21:22.090
It felt like we had a management

00:30:58.742 --> 00:31:01.349
they didn't know that really.

00:31:01.350 --> 00:31:02.980
What was the question again?

NOTE Confidence: 0.868206700000001

4754f1fb-daaa-4690-85be-2c53481569a7
00:31:02.980 --> 00:31:05.896
Was it how it changed while we were there?

Yes yes.

00:31:06.650 --> 00:31:09.275
So by the end of being there

NOTE Confidence: 0.868206700000001

ce373989-24f7-4327-bdf4-8c26c55696f2
00:31:09.275 --> 00:31:11.527
we could run a hostel.

6dfdaca1-7bee-465b-ae7f-745def58b160
00:31:11.530 --> 00:31:13.290

that was not happening,

00:31:14.700 --> 00:31:16.460
you get random youth visitors,

407eb695-17a0-4dfa-aaa0-1cc109a38e73
00:31:16.460 --> 00:31:18.566
but not very many at all.

a sub tourist trade and it was quite

01:00:18.790 --> 01:00:21.010
there's there was a development strategy.

01:00:29.246 --> 01:00:31.738
discussed and then went for like how?

01:00:31.740 --> 01:00:33.590

e7adbb1f-901f-4ebe-b490-2c8cd85429e7
01:00:36.290 --> 01:00:38.555
It seems that the project

15cff8c2-bb29-4bd8-81b2-7adc65c7b5fa
01:00:38.555 --> 01:00:40.820
project was aiming for and.

01:00:40.820 --> 01:00:42.704
So was there like an actual

01:00:42.704 --> 01:00:43.960
written out structure strategy?

c6f553f5-c54d-4a1a-bab3-aefffa9a6a0c
01:00:43.960 --> 01:00:46.158
Or was the strategy more like pay?

NOTE Confidence: 0.82907903

01:00:46.160 --> 01:00:47.270
We want to.

3bb55c20-6ebd-4926-9a99-2f7bf9e62375
01:00:47.270 --> 01:00:50.820
This is the aim and they go and they.

NOTE Confidence: 0.82907903

01:00:50.820 --> 01:00:53.106
Yeah, and yeah, I don't know.

NOTE Confidence: 0.82907903

6478dbe5-448a-4b3f-9ade-dac0026cfa6c
01:00:53.110 --> 01:00:55.010
Could you describe the strategy?

NOTE Confidence: 0.85468376

9701628d-946f-4022-8d0b-453673f551ef
01:00:57.160 --> 01:00:59.086
It was yeah there there was

NOTE Confidence: 0.85468376

ee3c4c3f-7fbf-4c40-8d2c-c26055478ca1
01:00:59.086 --> 01:01:00.370
definitely it was structured.

NOTE Confidence: 0.8462928

8986d4c0-68b2-42c3-8a18-2f5990625bd8
01:01:05.890 --> 01:01:08.050
So I was employed with the very specific

NOTE Confidence: 0.8462928

0c9b106b-8c3f-4592-b582-0fbf20d18839
01:01:08.050 --> 01:01:10.345
that was viable and if it was viable to

NOTE Confidence: 0.8462928

ad379ef1-4bda-4f29-bbff-a1d937a2a7df
01:01:10.345 --> 01:01:12.347
shift it into being a local project.

NOTE Confidence: 0.8462928

d8089419-7cdf-41f6-b57e-03ad960442de
01:01:12.350 --> 01:01:14.494
So that was part of my job description,

NOTE Confidence: 0.8462928

061d293a-95aa-4897-8ec1-7449e3c6579f
01:01:14.500 --> 01:01:16.108
but then I stopped being paid,

NOTE Confidence: 0.8462928

d65d7a96-2f8d-4793-be19-321ea02b2b05
01:01:16.110 --> 01:01:18.294
so that was the kind of slightly crazy

NOTE Confidence: 0.8462928

85d298e5-566f-43d9-ac7e-a2039e631339
01:01:18.294 --> 01:01:20.418
thing of I they run out of funding.

NOTE Confidence: 0.8462928

341a0003-d5ff-4fbe-9037-73fbec21788d
01:01:20.420 --> 01:01:22.310
So the whole project stop

NOTE Confidence: 0.8462928

1729b7da-5012-4f0d-8dd9-645ad12fa8fd
01:01:22.310 --> 01:01:24.540
so we could kind of do.

NOTE Confidence: 0.8462928

33349cb3-56f9-43c1-a8c0-d5bbe553318c
01:01:24.540 --> 01:01:27.102
Wanted it was a little bit Lord

NOTE Confidence: 0.8462928

de834d55-e3cb-435f-a5d1-8aed496ee032
01:01:27.102 --> 01:01:28.930
of the Flies, really, but.

NOTE Confidence: 0.79073983

be26010a-0622-464e-8298-863b86c0fcee
01:01:31.130 --> 01:01:31.970
But strategic person,

NOTE Confidence: 0.79073983

33f752a3-571b-4d86-8754-327cf188f2ff
01:01:31.970 --> 01:01:33.930
so I think we've had to write

NOTE Confidence: 0.79073983

99946459-d689-4af2-bb2b-99d8603f70b6
01:01:33.987 --> 01:01:35.687
a constitution for the project.

d55ce72d-05e8-433e-99e1-d46ebab111ca
01:01:35.690 --> 01:01:38.730
So in some ways we had to agree a name.

01:01:38.730 --> 01:01:40.858
We had to agree that very long.

4269330b-4fc6-444d-8192-7ef42aecc4f6
01:01:43.320 --> 01:01:45.345
We had to agree with the aims were I

think we had a consensus about how we were

01:01:47.604 --> 01:01:49.480
doing the reconciliation work and that

We had a lot of discussion about it.

e01ce0f1-82bf-4cf2-a18a-c4bdf55e56e9
01:02:03.629 --> 01:02:05.944
we might have gone to a concert and

01:04:25.949 --> 01:04:27.590

8d3ecad5-5cd1-4282-bb25-a9c68bc40dad
01:04:35.650 --> 01:04:38.583

an actual big gap and that the people

5b1202cd-8fd3-4d88-b20f-af1d43afc762
01:05:11.330 --> 01:05:13.940
so you're just there for a period of time.

NOTE Confidence: 0.8433861

9cd2bc1c-5774-417a-82a6-f35dcaf066a5
01:05:13.940 --> 01:05:16.487
And I mean, I think maybe most carried on

NOTE Confidence: 0.8433861

5c95d3d7-4252-409a-bc0b-c406b3e7eb2a
01:05:16.487 --> 01:05:19.153
for a couple of years and then it closed.

NOTE Confidence: 0.8433861

5ad8bb7b-e735-4ae4-89bb-c3e269249171
01:05:19.160 --> 01:05:21.148
But there was another project that started

NOTE Confidence: 0.8433861

1e4c987c-d3bd-41de-bf66-447b2ef95e2a
01:05:21.148 --> 01:05:23.510
up which was kind of the next generation,

NOTE Confidence: 0.8433861

d63b05e0-1bca-4698-b632-5bf3912a0056
01:05:23.510 --> 01:05:26.120
but actually they went more for being a pub.

NOTE Confidence: 0.8433861

d9653f04-723c-4f95-b872-046d83c57203
01:05:26.120 --> 01:05:28.685
They were a bar and they had an event

01:05:28.685 --> 01:05:30.759
space and it was much more like,

NOTE Confidence: 0.8433861

9d1d5d3f-6b25-4e32-9bd6-8ff62a27cbbb
01:05:30.760 --> 01:05:33.370
you know you could go there and get drunk.

25a40f17-7922-4d77-acfb-8ad23a5bbb87
01:05:33.370 --> 01:05:35.344
It was that kind of space rather

01:05:35.344 --> 01:05:37.258
than being a bit cleaner use.

to do something bit less.

Edgy so but I'm just glad it was

5fa31092-f152-4df1-9827-93be3bbc035d
01:05:44.844 --> 01:05:47.542
definitely one of the women from the

01:05:49.919 --> 01:05:52.439
of the next project so you know,

NOTE Confidence: 0.8433861

75489411-5226-4be1-884f-56d399fbdb77
01:05:52.440 --> 01:05:54.280
and I think that's OK.

01:05:54.280 --> 01:05:57.259
I think it's OK for things to move and

change and partly reflect the times,

but reflect the people.

01:06:10.140 --> 01:06:11.660
for this project specifically,

57bbcd0d-7ee5-4c9d-8b81-c67d20ebf872
01:06:11.660 --> 01:06:14.470
you guys were organizing a theater project,

NOTE Confidence: 0.71642935

01:06:14.470 --> 01:06:16.822
but also like like it was

e83c88bb-5e33-44ca-aa37-b6ed82208a1c
01:06:16.822 --> 01:06:17.998

So it was a very diverse they were like

fa34e71a-3d12-400e-bee8-acce29e539e8
01:06:21.519 --> 01:06:23.902
different types of art forms, right?

01:06:23.902 --> 01:06:25.470
So can you like,

01:06:25.470 --> 01:06:28.109
go over them a little bit more

01:06:28.109 --> 01:06:30.126
like what's different projects that

01:06:30.126 --> 01:06:34.240
were running at the time, yeah?

I'm trying to think I'm sure

NOTE Confidence: 0.71642935

50273f9a-ab54-489b-9e15-23ad7aaa70e2
01:06:38.248 --> 01:06:39.480
there was something else,

NOTE Confidence: 0.71642935

7227d582-1029-4ad5-8e43-5f897f7a44ab
01:06:39.480 --> 01:06:41.268
but I'm so there's a photography

NOTE Confidence: 0.71642935

9b040345-81d9-4a24-a03b-ddaea3d236eb
01:06:41.268 --> 01:06:42.860
project and that was weird,

NOTE Confidence: 0.71642935

9cd07dbd-5db3-4199-8e71-63b2991d8ab2
01:06:42.860 --> 01:06:45.180
so we had a dark room and that

NOTE Confidence: 0.71642935

911e8667-133c-4275-8572-67fb3b8be84c
01:06:45.180 --> 01:06:47.476
had been going for a long time.

01:06:47.480 --> 01:06:49.940
That was only this Austrian volunteer

01:06:49.940 --> 01:06:52.036
and then she started working

c7e8b67b-96e0-4b92-92f5-8c444f889d09
01:06:52.036 --> 01:06:54.334
with a local guy called Jemel.

01:06:54.340 --> 01:06:55.093
Came her assistant,

01:06:55.093 --> 01:06:56.850
and it was quite a big project.

NOTE Confidence: 0.71642935

75f6ebe2-442a-4046-8974-6c7fd3f0c79d
01:06:56.850 --> 01:06:58.356
That's quite a lot of people.

NOTE Confidence: 0.71642935

01:06:58.360 --> 01:07:00.241
It was very much in demand 'cause all he

01:07:00.241 --> 01:07:02.117
was really charismatic and really fun.

eccae2e4-acb7-4d6a-a1d8-6842cc7f68a6
01:07:02.120 --> 01:07:04.724
And she knew what she was doing

4640ba62-00ae-4a0e-a956-4a83d82344a3
01:07:04.724 --> 01:07:07.079
and she could speak Bosnian.

01:07:07.080 --> 01:07:10.034
And Gemma was a kind of trainee.

NOTE Confidence: 0.71642935

3574ee1b-eb16-4ffb-84a0-b7ab95bbe3f5
01:07:10.040 --> 01:07:12.994

not doing photography,

but I think it was quite a big support

NOTE Confidence: 0.71642935

b2d961e2-0e79-4dee-888e-51676b6b4d03
01:07:17.913 --> 01:07:20.619
for him in a confidence building.

For him there was martial arts

01:07:23.086 --> 01:07:25.270
section that was called Ninpo,

371f9ebe-a12d-4abe-8c18-f93becc7abc3
01:07:25.270 --> 01:07:26.449
is that right?

01:07:28.807 --> 01:07:31.501
who had experienced it partly from

his development as a teenager,

3e0b0aff-ad99-4664-bbcf-603807003377
01:07:38.598 --> 01:07:41.150

as well as a kind of spiritual

And then there was a women's

01:07:48.740 --> 01:07:51.463
theatre group and that was very

01:07:51.463 --> 01:07:53.788
much reflecting on don't know.

01:08:02.799 --> 01:08:05.417
a very multi ethnic group and it

was run by three women who were

01:08:08.276 --> 01:08:10.327
local use leaders or becoming

01:08:10.327 --> 01:08:13.009

01:08:15.490 --> 01:08:17.474

01:10:20.310 --> 01:10:22.290
probably partly how it works anyway.

01:10:43.610 --> 01:10:46.368
interesting to put artwork from bloody most,

NOTE Confidence: 0.8286971

399b1b83-420a-459d-bd2c-a542118e2fcc
01:10:46.370 --> 01:10:49.555
which was West Side which people might

01:10:49.555 --> 01:10:52.470
have perceived to be less East side.

01:10:52.470 --> 01:10:54.654
Supportive, but then to go and put

99080def-680e-4a29-afca-6c6a74e325fc
01:10:54.654 --> 01:10:56.526
the the artwork, the products of

the group work in the East side.

01:11:01.230 --> 01:11:03.330
So even doing that was quite

NOTE Confidence: 0.8542388

457df835-c57e-4472-9781-9fbe76f601c5
01:11:03.330 --> 01:11:04.730
political actually and tricky.

01:11:04.730 --> 01:11:06.480

f50a0ace-e759-4882-816d-add2bc18e03f
01:11:06.480 --> 01:11:08.772
the exhibition we had that we

was also in the West side. So but.

99e53b40-b242-4319-8cce-6e525ed47ce6
01:11:14.970 --> 01:11:17.560

01:11:17.560 --> 01:11:19.996
you put stuff was actually political

01:11:19.996 --> 01:11:22.901

01:11:26.090 --> 01:11:28.190
but to be honest, we didn't do

01:11:28.190 --> 01:11:29.990
loads of outreach for the work.

01:11:31.852 --> 01:11:33.888

01:11:39.538 --> 01:11:41.299

01:11:47.580 --> 01:11:49.800

01:11:56.778 --> 01:11:58.500
the locals in that sense and.

01:12:00.620 --> 01:12:02.144
I mean, I guess it's quite

01:12:02.144 --> 01:12:03.590
difficult to count be 'cause,

01:12:03.590 --> 01:12:04.400
partly because populations

01:12:07.489 --> 01:12:09.411
you'd have someone turned up at the

A lot more as foreign volunteers, we went.

and it's interesting.

01:33:17.900 --> 01:33:20.763
Great, uh, deadline for if I try

NOTE Confidence: 0.62026936

3b9ad169-5f28-409f-ac15-ddafa6b62bdf
01:33:20.763 --> 01:33:23.739
to find people for you to talk to,

NOTE Confidence: 0.62026936

cb7537e6-2c23-4aee-a81a-711d0ea60ea0
01:33:23.740 --> 01:33:26.556
is there a time when it's useful and

NOTE Confidence: 0.62026936

bbb1680c-b2fd-477d-b8ff-cda4732bb166
01:33:26.556 --> 01:33:29.177
then it's not very useful anymore.

NOTE Confidence: 0.62026936

dafcccd7-1088-44e0-a201-1da390996668
01:33:29.180 --> 01:33:32.672
So OK, for now it is up for now.

NOTE Confidence: 0.62026936

340547fc-781f-4687-864d-a0dc6dfddbef
01:33:32.680 --> 01:33:36.664
It's still like I would say up until.

NOTE Confidence: 0.62026936

e7f1f170-1c59-4439-822d-3bfb507f78e2
01:33:36.670 --> 01:33:36.996
Uh,

NOTE Confidence: 0.62026936

195241ef-cdae-49ab-ba13-36cef4c82914
01:33:36.996 --> 01:33:39.278
like up until a week from like

NOTE Confidence: 0.62026936

d4844b86-7d82-416b-b04f-35c7ae13cffc
01:33:39.278 --> 01:33:40.370
until next week.

c65fdd8e-b4b8-43a3-b986-1782deca6984
01:33:40.370 --> 01:33:42.904
But I'm gonna ask for an extension

NOTE Confidence: 0.62026936

53eb0d4e-f4a3-4d6a-9cd7-7880aebc9bec
01:33:42.904 --> 01:33:45.081
since since like this interview like

NOTE Confidence: 0.62026936

9caedf42-86c3-427a-b471-c4261558aa09
01:33:45.081 --> 01:33:48.122
I found you this late in the in the

process and so I'm going to try to

NOTE Confidence: 0.62026936

8b11ef99-37d0-4b15-befb-5f57011edddf
01:33:50.450 --> 01:33:53.138
make like be able to extend it and

NOTE Confidence: 0.62026936

0d49c37c-c33d-4188-b709-3697f5ba5ae0
01:33:53.138 --> 01:33:55.854
then like it will still be useful so

NOTE Confidence: 0.62026936

60d28216-5664-4a86-99c7-4b7fa5693fa2
01:33:55.854 --> 01:33:58.558
I can't tell for sure now that it's

bf3b2abf-d292-4e07-ab9d-046d10feaecf
01:33:58.558 --> 01:34:02.590
like what is going to be passed but.

01:34:02.590 --> 01:34:03.128
Yeah, I,

01:34:03.128 --> 01:34:05.280
I think that I will get the extension,

bf99ff03-0006-45f0-a2ea-1d7e939d78fd
01:34:05.280 --> 01:34:07.449
but I'm not sure yet so I will let

7cceba78-3b83-419f-9354-e12fd12e9c58
01:34:07.449 --> 01:34:09.681
you know a bit more about if I know

fcbe310b-c275-43ec-8de3-25dc6f07a9f0
01:34:09.681 --> 01:34:11.494
that I the project can continue

01:34:29.210 --> 01:34:32.330
I will see if I can get in

01:34:32.330 --> 01:34:34.610
contact with them actually.

London who's lovely he's from.

01:34:42.120 --> 01:34:46.740
so he's got an interesting angle on.

01:34:51.540 --> 01:34:53.598
but he would be really useful.

01:35:08.969 --> 01:35:11.540
discuss how I can continue this project.

3afaac46-ac10-4485-b765-3a61a5c85dfa
01:35:14.130 --> 01:35:17.289
I'm very happy that that we have to have

6573f72b-c810-42b7-bd68-3faa266ea24e
01:35:17.289 --> 01:35:19.923
this conversation and it will give me

01:35:19.923 --> 01:35:24.760
a lot of fruit to think about. Yeah so.

I was gonna say if you have any if

b9bed41a-11e3-417d-9e52-2ff5800a5eb7
01:35:29.744 --> 01:35:31.599
after that meeting you're like.

NOTE Confidence: 0.9141178

ffb8cde5-09e2-4fd8-b067-e59b9020bb64
01:35:31.600 --> 01:35:33.410
Actually I've got a week.

NOTE Confidence: 0.9141178

ff5de377-dd6c-4bbf-a688-7af4d5813388
01:35:33.410 --> 01:35:35.223
I'm and I don't wanna do anymore

NOTE Confidence: 0.9141178

7a3d6627-6fda-4664-9e31-79873fc15ad6
01:35:35.223 --> 01:35:36.674
interviews because I'm not gonna have

NOTE Confidence: 0.9141178

876d5024-514a-459f-be2d-e2f4f643c3a1
01:35:36.674 --> 01:35:39.820
time to write it up. Let me know. I will.

NOTE Confidence: 0.9141178

bbaeee34-edaf-4dc2-bd01-c8292bdc828e
01:35:39.820 --> 01:35:43.555
I will maybe wait 'cause I'm sure I can,

NOTE Confidence: 0.9141178

457f2c49-d258-42b7-94c2-cd1e0f391337
01:35:43.560 --> 01:35:45.321
yeah. Like a.

NOTE Confidence: 0.9141178

1d19e184-379b-4abe-9f04-3f55cac40613
01:35:45.321 --> 01:35:48.843
Like I'm also because for example,

NOTE Confidence: 0.9141178

1c8ceb58-af94-4578-a286-a006b0bb55e2
01:35:48.850 --> 01:35:51.181
now I was just thinking because like

NOTE Confidence: 0.9141178

d5118ffe-09e3-4c68-b20b-32c36a0871a6
01:35:51.181 --> 01:35:53.917
you are the only interview I've had,

NOTE Confidence: 0.9141178

8ba9cb27-a03c-4012-bf5b-f4b51c29341d
01:35:53.920 --> 01:35:56.816
I have so far, so then it doesn't.

NOTE Confidence: 0.9141178

d6d16647-6933-47cf-bff5-9c780b43b595
01:35:56.820 --> 01:35:59.347
It's not, that's grounded in that sense.

NOTE Confidence: 0.9141178

d595e67f-fea5-4a9d-bba3-5c226d773f34
01:35:59.350 --> 01:36:02.608
Like I what whatever I get out of this,

NOTE Confidence: 0.9141178

0e8bb2f9-f4b1-4846-9c46-861ee514294d
01:36:02.610 --> 01:36:05.144
it's like I can connect it to

NOTE Confidence: 0.9141178

fadf2d20-9dc0-448a-a365-8dae193b5c56
01:36:05.144 --> 01:36:06.230
the general literature,

NOTE Confidence: 0.9141178

e607964d-d666-43e7-b575-1f9368614072
01:36:06.230 --> 01:36:08.402
but I can't really use it

NOTE Confidence: 0.9141178

f18556e0-6cf2-4097-9d4a-ae820a28e8d8
01:36:08.402 --> 01:36:09.488
to make generalizations.

NOTE Confidence: 0.9141178

86f3a089-846c-4252-8c09-ae475b3f2a13
01:36:09.490 --> 01:36:12.003
So I was thinking to solve that

NOTE Confidence: 0.9141178

7356187b-f305-4169-98a2-bc934292d8a1
01:36:12.003 --> 01:36:13.842
I was thinking now, OK,

NOTE Confidence: 0.9141178

86db2659-52ea-4143-8f83-b18e576d9c5f
01:36:13.842 --> 01:36:16.074
I'm going to look also into

NOTE Confidence: 0.9141178

83de2e51-0f53-4f93-adfd-d25ae015866b
01:36:16.074 --> 01:36:16.818
newspaper articles.

NOTE Confidence: 0.9141178

cfcdccd3-8a23-40ef-9977-c741cb5a4b1e
01:36:16.820 --> 01:36:18.820
And documents that like describe

NOTE Confidence: 0.9141178

15593068-e079-44ff-aff7-9ef0b060fb09
01:36:18.820 --> 01:36:21.360
these kind of strategies in Bosnia,

NOTE Confidence: 0.9141178

4e4b7cf7-76fc-43ae-b3b6-eb4c9dfb72b4
01:36:21.360 --> 01:36:23.838
but interviews was my first name.

NOTE Confidence: 0.9141178

c63a65df-8761-4ab9-8ad8-17790bf5e5e8
01:36:23.840 --> 01:36:26.816
Like my first name was to go with

NOTE Confidence: 0.9141178

58834b6d-d4f5-4b76-b024-7475c6d265d7
01:36:26.816 --> 01:36:28.843
actual interviews and like read

NOTE Confidence: 0.9141178

410f53bb-1101-45bc-94c3-5efe69f6e98c
01:36:28.843 --> 01:36:31.249
on like doing analysis on the

NOTE Confidence: 0.9141178

f0c0e3c3-e53b-4a21-adb2-bded1d5cc4b4
01:36:31.249 --> 01:36:33.340
transcripts from those interviews.

NOTE Confidence: 0.9141178

a373b8d6-ebed-43ab-a0d3-91fc3c3d6ec1
01:36:33.340 --> 01:36:34.166
So yeah,

NOTE Confidence: 0.9141178

cd2cc3ed-75ae-4de9-a680-039ef3d1367b
01:36:34.166 --> 01:36:35.818
I like for now.

NOTE Confidence: 0.9141178

4cbccd2d-bdf6-4af2-aadf-e5d6b1995d88
01:36:35.820 --> 01:36:38.445
I think my first strategy now since

NOTE Confidence: 0.9141178

76f4f1f4-62d4-4c60-8625-fe52d605e425
01:36:38.445 --> 01:36:41.907
I'm so late in the project is to use

2ba81d15-8594-45f9-b0d7-102a3ccc80c2
01:36:41.907 --> 01:36:44.519
your interview next to an analysis

01:36:44.519 --> 01:36:47.084
of like different documents like.

NOTE Confidence: 0.9141178

6568308b-987e-488b-9d10-b35c9e69b970
01:36:47.090 --> 01:36:49.380
Having strategies on art projects,

NOTE Confidence: 0.9141178

9cd294c0-8cd2-463c-b212-7b384da64c91
01:36:49.380 --> 01:36:52.692
but it would still be definitely very cool

NOTE Confidence: 0.9141178

292da5d6-3423-41a2-b29f-89fea5381508
01:36:52.692 --> 01:36:56.228
for me to have actual interviews with,

b5573e30-baa1-4655-bad6-1a2426f778f0
01:36:56.230 --> 01:36:58.066
like people from Bosnia,

NOTE Confidence: 0.9141178

048ffc3a-603d-489d-975c-3b6e5e0ef672
01:36:58.066 --> 01:37:00.361
but also different projects like

NOTE Confidence: 0.9141178

f36f9964-479b-4998-a735-3f3048bd48ee
01:37:00.361 --> 01:37:02.629
international people from other projects.

NOTE Confidence: 0.9141178

62d20852-30d5-472a-945c-0d8b7193ef73
01:37:02.630 --> 01:37:08.590
So I mean, there is another pretty. Honey.

NOTE Confidence: 0.9141178

38ab5a59-630c-43fe-8059-dadcfbd1a672
01:37:08.590 --> 01:37:12.430
You can say there's another, sorry.

And I would say that speaking to Dan Boyden,

and realized that when I was reading

00:06:22.150 --> 00:06:24.166
are quite complex stories very often,

00:06:24.170 --> 00:06:27.194

00:06:29.804 --> 00:06:32.049

such as questions about death or

00:06:48.716 --> 00:06:50.244
quite difficult questions even

NOTE Confidence: 0.92688084

f1676884-5bbc-4553-8eaa-70632c455eb2
00:06:50.244 --> 00:06:52.030
from very young children.

979f7b48-899c-44cd-96c6-cff010775bff
00:06:52.030 --> 00:06:54.991
And I was finding that those children

NOTE Confidence: 0.92688084

1a1a6e90-5adc-41cb-8867-6ca9d4d31710
00:06:54.991 --> 00:06:57.873
were going home and very often the

00:06:57.873 --> 00:07:01.368

ab436df6-f1a0-4f0b-88fc-5fa8e5c5e6ed
00:07:01.370 --> 00:07:02.182

00:07:02.182 --> 00:07:04.206
that's a little background, but.

00:07:04.206 --> 00:07:06.582
So stories was founded in 2010

00:07:06.582 --> 00:07:09.358
with that sort of purpose in mind,

00:07:09.360 --> 00:07:12.800
and we soon discovered that it was also

5df2c001-34dc-40ac-a13b-9b2afec109b6
00:07:12.800 --> 00:07:16.530
a rather useful tool for adults as well.

00:07:18.970 --> 00:07:21.070
the tool wasn't available right away.

ef60d900-cc38-4340-b219-eda3395f2c5c
00:07:21.070 --> 00:07:23.622
Rather we developed it with a large number

00:11:40.110 --> 00:11:42.406
I also think that with younger children,

NOTE Confidence: 0.8757293

f7a30ee2-338d-4ae2-8039-c6092dbba504
00:11:42.410 --> 00:11:44.769
one of the things that we promised

cfc62faa-9422-48ed-adb4-bbe8f6724096
00:11:46.472 --> 00:11:48.656
that we wanted it to be inclusive,

meaning.

9ffbb022-a213-43ae-9dfa-d31ccda46330

e38d9f30-18ae-4ed6-8134-11ba4081aa4e
00:11:53.390 --> 00:11:56.022

00:12:49.182 --> 00:12:52.758
the the smaller the children get.

because essentially, that one of the

21346ddf-bbdb-49d8-9641-f54b46bda426
00:13:47.952 --> 00:13:48.978
everything is possible?

00:13:51.760 --> 00:13:53.790
You know we don't have.

00:13:57.440 --> 00:14:00.869
At the same time we have to care for

bb5990c2-13cd-42f0-91a9-a3b15ffda6a8
00:38:51.998 --> 00:38:54.264
know to build the group and so

00:39:07.998 --> 00:39:10.041
the beginning of my life and any

country I've gone to email speak a

language I know I can communicate,

00:39:13.930 --> 00:39:15.450
and so I use that.

00:39:15.450 --> 00:39:17.952
I I used that in this and and basically

15f950d4-2dbb-42d4-aeb7-d56a282eeb75
00:39:17.952 --> 00:39:20.330
even if we didn't share the language,

00:39:20.330 --> 00:39:22.010
we could still operate.

00:39:22.010 --> 00:39:24.344
Uh, of course we have the teachers

00:39:24.344 --> 00:39:26.371
there and they were able to

f187b104-34ea-43a2-8265-853ca53404db
00:39:26.371 --> 00:39:28.429
translate and and things like that.

But you know the project had interpreters

a9e4a711-f86d-47be-ba1d-88426c60e6f1
00:39:31.146 --> 00:39:33.510
assigned an I can't remember that

00:39:33.510 --> 00:39:35.766
we ever used them very much.

00:39:35.770 --> 00:39:38.714
Uh, so do like when I came to

NOTE Confidence: 0.86273354

a6cfb151-54ac-48da-8964-3ddfa8a86f0d
00:39:38.714 --> 00:39:39.450
plenary session.

00:39:39.450 --> 00:39:41.290
So when you would generally

NOTE Confidence: 0.86273354

02415f98-396d-4a9e-9053-2fba1f6dd903
00:39:41.290 --> 00:39:43.130
explain like the overall things,

a4767f6f-11db-4d99-ac9f-f6ee7c598b84
00:39:43.130 --> 00:39:45.678
would that be then explained by the

254dfdc1-db8f-4872-bec8-99979c840fa3
00:39:45.678 --> 00:39:48.489
teacher or did you guys do that in

NOTE Confidence: 0.86273354

159da3cb-01c3-4d19-86cb-84e3d8aea1ef
00:39:48.489 --> 00:39:50.860
English or in in whatever language?

00:39:50.860 --> 00:39:53.460
Or how did that now we spoke and

NOTE Confidence: 0.86273354

49b93f0c-9876-4eaf-bb91-fdec02929024
00:39:53.460 --> 00:39:55.981
we spoke in English but that was

00:39:55.981 --> 00:39:59.064
making me we spoke in English and Dan

515ee7b0-1d63-4951-8da3-ed60724eefa3
00:40:01.900 --> 00:40:02.905
We all did.

fef4412a-349a-4330-89ea-ab2e8568f4f3
00:40:02.905 --> 00:40:06.020
The truth is that because of the Internet.

NOTE Confidence: 0.86273354

9e599fe9-b731-4c22-931d-ed9293fc0f64
00:40:06.020 --> 00:40:07.124
A lot of kids,

NOTE Confidence: 0.86273354

9b7210b4-7cfc-4641-90c7-ee0753904ca3
00:40:07.124 --> 00:40:09.799
even if they don't want to speak English,

NOTE Confidence: 0.86273354

afee0ca3-a7e3-4675-bd89-448d305b2cb5
00:40:09.800 --> 00:40:11.612
they kind of know what you're

NOTE Confidence: 0.86273354

b41c31fd-e5c7-4d53-88b6-d10eaee92faa
00:40:11.612 --> 00:40:13.854
saying and we could see that they

NOTE Confidence: 0.86273354

8d897c17-c679-44f6-8563-875718509afb
00:40:13.854 --> 00:40:15.786
were sort of nodding their heads,

NOTE Confidence: 0.86273354

0968c846-6f77-41b7-aaec-25dd29496ced
00:40:15.790 --> 00:40:16.738
and you know.

NOTE Confidence: 0.86273354

4b43d1ff-07e3-41f8-93ae-9b37fcaa4b13
00:40:16.738 --> 00:40:19.318
And so we knew that they were kind

NOTE Confidence: 0.86273354

efbab20f-fce2-49ef-8291-ccda31b6863e
00:40:19.318 --> 00:40:21.456
of with us, but there was a.

NOTE Confidence: 0.86273354

0c38d6eb-f27b-437e-a639-5f92ce607189
00:40:21.456 --> 00:40:23.026
Obviously there's a you know,

NOTE Confidence: 0.86273354

7ab380a5-aed8-4322-ab3e-0b414305d9fa
00:40:23.030 --> 00:40:24.041
local facilitators there.

NOTE Confidence: 0.86273354

60ad6771-99db-48d1-9761-681eb035c5e3
00:40:24.041 --> 00:40:26.989
So we we from the outside of the project

NOTE Confidence: 0.86273354

0608ea26-7e3f-4cfc-b5ae-481d577446c1
00:40:26.989 --> 00:40:29.650
as a part of the design of the project,

NOTE Confidence: 0.86273354

377b2077-df36-456b-aa84-36a4bc90e820
00:40:29.650 --> 00:40:31.554
we made sure that we had counterparts

NOTE Confidence: 0.86273354

4aeb0448-f271-4686-ba6b-c2db4327e83c
00:40:31.554 --> 00:40:33.110
who were local facilitators.

NOTE Confidence: 0.86273354

88b10a13-ff4f-480a-8474-5c6a51e0c11b
00:40:33.110 --> 00:40:35.000
So either those were teachers or

NOTE Confidence: 0.86273354

fc0f1868-4144-4233-b876-b69799e49fe5
00:40:35.000 --> 00:40:36.692
youth leaders, people who would.

NOTE Confidence: 0.86273354

d1234e15-77d5-4916-aa7f-1e891cc45321
00:40:36.692 --> 00:40:39.170
Take on the same role as we

NOTE Confidence: 0.86273354

7482b961-7054-4bf6-b40f-008911a5d43d
00:40:39.256 --> 00:40:41.620
were playing once we had left.

NOTE Confidence: 0.86273354

a626e65f-ae41-427c-a524-b7c04f76f499
00:40:41.620 --> 00:40:44.776
So they they they did that.

NOTE Confidence: 0.86273354

f224b947-8143-4f05-af3e-cf73fe858eaa
00:40:44.780 --> 00:40:45.177

00:40:45.177 --> 00:40:48.353
So then actually in a in that way

00:40:48.353 --> 00:40:50.516

00:40:50.516 --> 00:40:53.042
a better project in a setting.

00:40:53.746 --> 00:40:54.094

at the kids to be more like 2 for

00:40:57.291 --> 00:40:59.337
some kids to find more empowerment

00:41:03.410 --> 00:41:05.790
It created a sort of especially in

00:41:05.790 --> 00:41:08.400
the we had two projects we did.

00:41:08.400 --> 00:41:11.396
It was a two phase project on

cce60ea0-4aa7-446c-a1b9-7b3d9cadd02c
00:41:11.396 --> 00:41:13.712
the second project there was

eabed679-dbe7-4af3-a6eb-4b2a560bc6fc
00:41:13.712 --> 00:41:16.067
remember there was one guy.

e3703389-c443-42b5-bdcd-252ddafa4ac0
00:41:17.190 --> 00:41:19.459
Something like that I see is one of

c250d484-1260-4ef4-8666-c87243c0f9fb
00:41:19.459 --> 00:41:21.300
the older kids and we were seeing

00:41:21.300 --> 00:41:23.166
there and then there was a little

4bd8192b-b706-45b4-aeac-6866d38c7a92
00:41:23.166 --> 00:41:24.742

00:49:03.290 --> 00:49:05.565
have any resource is to speak of.

6d7bad04-bfec-415b-ae82-1efc06c3e9c4
00:49:05.570 --> 00:49:08.765
So one kind of plus from their point of

c13c26a2-cb87-4bb9-bd73-6453f190480c
00:49:08.765 --> 00:49:11.877
view is that you know we were barrows.

a062577f-2b5a-4e21-81ea-db0f5c76bdc2
00:49:11.880 --> 00:49:13.167
Very well organized.

NOTE Confidence: 0.9289253

ebb5e815-e45a-4b16-985d-aff0fba55436
00:49:13.167 --> 00:49:15.741
Kamal was always very careful to

19b85c7a-029e-4eaa-ad40-8f4c15c94bcc
00:49:15.741 --> 00:49:18.099
make sure that there was food.

00:49:18.100 --> 00:49:21.180
Around you know there were buses that

NOTE Confidence: 0.9289253

0903297d-1152-42f0-992f-3b50a28f35ee
00:49:21.180 --> 00:49:23.840
were organized for their transport,

aeac915e-912f-495c-850d-024bcfc34156
00:49:23.840 --> 00:49:28.556
so they tried to create certain.

00:49:28.560 --> 00:49:30.688
Make it easy for them because the

00:49:30.688 --> 00:49:32.727
schools and the children just simply

ce2d80f1-8b4f-49e2-9324-069e1bbfc2fe
00:49:32.727 --> 00:49:35.205
don't have the you know the resource

NOTE Confidence: 0.9289253

db5b54a0-8a3b-43dd-87f1-69f3dcc574d6
00:49:35.268 --> 00:49:37.690
is to do something different like this.

NOTE Confidence: 0.9289253

275c9056-7d9c-4455-9867-e3dd71b7570b
00:49:37.690 --> 00:49:40.210
Unless unless the project provides.

43cab756-9d50-4be1-bb0c-5316ea6637bf
00:49:40.210 --> 00:49:44.214
So the project really had to facilitate

9ef43963-6a07-45e9-b3e2-efb6109b8aec
00:49:44.214 --> 00:49:48.026
also that the other needs besides

the the actual method and location.

00:49:51.990 --> 00:49:55.090
Yeah, absolutely.

NOTE Confidence: 0.9289253

71b7c271-1c7a-404b-93b3-d3a226fb2fec
00:49:55.090 --> 00:49:57.898
And did the kids did they assign upward?

383f8fd0-5432-4027-a52f-4ce66afe718e
00:49:57.900 --> 00:50:01.239
Wasn't like most voluntary or it was

1c92f65c-f4ba-49e4-9f72-dc6c60a3ab4c
00:50:01.239 --> 00:50:04.387
just their class assigned to go or.

Well,

NOTE Confidence: 0.9289253

ecdc7d8e-9d3e-4bd1-a36e-e2feda726119
00:50:04.747 --> 00:50:07.603
I I don't think that these schools ask

5adef74e-aa24-4f4d-a1a0-7e14caba2599
00:50:07.603 --> 00:50:10.327
children whether they want to do something,

00:50:10.330 --> 00:50:13.290
so if it's if it's decided by this,

NOTE Confidence: 0.9289253

0f44eef8-ce04-4886-8ec7-475b80347f05
00:50:13.290 --> 00:50:15.150
the school and the teacher,

fce6edb5-aa7f-46bb-a64a-6c06583901cc
00:50:15.150 --> 00:50:16.634
then that's what's happening.

NOTE Confidence: 0.9289253

a9073425-2c90-4b3b-87ce-53def3e01957
00:50:16.634 --> 00:50:17.376
So yeah.

NOTE Confidence: 0.9289253

847460f0-173e-4f61-b806-6fa37201cea5
00:50:17.380 --> 00:50:20.710
And then and then I wonder about the first,

NOTE Confidence: 0.9289253

cd534aa3-abb6-40aa-925c-6e636bf2e984
00:50:20.710 --> 00:50:23.326
like yeah, if at least if you can

NOTE Confidence: 0.9289253

cbfcfeaa-84f9-41e9-ac07-defeab10917f
00:50:23.326 --> 00:50:25.539
recall the the initial meeting.

00:50:25.540 --> 00:50:27.400
So between like the different

8a8daa7e-9707-42b2-853d-76b371880d42
00:50:27.400 --> 00:50:29.989
schools in the in the big hole.

00:50:31.019 --> 00:50:33.077
What do you remember like in

381fe938-073f-4f4d-9411-321dc78d683b
00:50:33.077 --> 00:50:35.179
the feeling that was there?

30e5b537-7dab-48a1-9982-b5ac5a28c21b
00:50:35.180 --> 00:50:36.704
Or like the how?

NOTE Confidence: 0.9289253

577cd98b-1524-4b7d-837f-5b9227695cdb
00:50:36.704 --> 00:50:38.228
Like I'm really wondering,

NOTE Confidence: 0.9289253

7af1c1d9-7b77-421b-b036-878059df2eb8
00:50:38.230 --> 00:50:39.205
like yeah yeah,

NOTE Confidence: 0.9289253

16288880-b35d-4300-987a-38c8ed61748c
00:50:39.205 --> 00:50:41.841
it's very very noisy and we wondered how

NOTE Confidence: 0.9289253

7297f841-46d9-4754-bf17-4417b9cb5dde
00:50:41.841 --> 00:50:44.177
the hell we were going to do anything.

NOTE Confidence: 0.8782792

e14b7681-fca0-476c-a8f1-2de336a8397e
00:50:46.450 --> 00:50:48.784
It's also very, very daunting because

NOTE Confidence: 0.8782792

b908a963-adb5-4dc9-b796-a7b94faccb2d
00:50:48.784 --> 00:50:51.945
it was very cold in there and we

00:50:51.945 --> 00:50:54.237
quickly learned that very sadly there

695f4f2e-a81f-4864-8260-8bf9cdc3eebb
00:50:54.312 --> 00:50:56.616
was a graveyard across the road.

NOTE Confidence: 0.8782792

00:50:56.620 --> 00:50:59.026
From this, you know a Muslim

NOTE Confidence: 0.8782792

30b5423a-3506-4836-a0f4-4937c9ef4e84
00:50:59.026 --> 00:51:01.674
graveyard and we very quickly learned

NOTE Confidence: 0.8782792

a64ec830-1702-461d-b9e8-bfe982b5e2ba
00:51:01.674 --> 00:51:05.041
that when the there had been a

00:51:05.041 --> 00:51:07.130
concentration camp down the road.

666006be-beda-41b6-80ac-ab7d5507a328
00:51:07.130 --> 00:51:10.890
Well. And when the genocide happened,

NOTE Confidence: 0.8782792

5b5f114c-cd7d-491c-bb7b-66fb2b69da6f
00:51:10.890 --> 00:51:12.900
they stored bodies in that building

00:51:12.900 --> 00:51:15.176
in that room where we were working

e903fe45-c934-4beb-8973-817654aa2058
00:51:15.176 --> 00:51:17.213
because it was cold and when we

00:51:17.281 --> 00:51:19.075
started to do our work there,

3fc0c5e8-0280-41d5-b8f0-620b2ee67ce8
00:51:19.080 --> 00:51:20.001
we knew this.

a7099e93-5b99-4eaf-9234-c94e42403fa8
00:51:20.001 --> 00:51:22.742
We we knew this in our minds and it

a7ff3576-d638-48de-9486-2a362a773c12
00:51:22.742 --> 00:51:25.599
was it was so hard for me to get over

7fa27c68-6a70-4073-824d-3f0aa43addca
00:51:25.599 --> 00:51:27.795
this that we were standing there

NOTE Confidence: 0.8782792

cd759079-1ea2-45d1-86e1-0ddee4550d9b
00:51:27.795 --> 00:51:30.050
with all these children in this room

00:51:30.050 --> 00:51:31.990
where there had been all these.

27bfd141-1bf5-4d33-b1cf-415b484d4de3
00:51:31.990 --> 00:51:34.797
These I mean seriously piled up bodies.

92de764a-a1e6-4d37-9489-c6c6bfa268ff
00:51:34.800 --> 00:51:38.244
From people who had been murdered at

00:51:38.244 --> 00:51:41.748
the same time. So, so that was kind of.

00:51:41.750 --> 00:51:44.130
I don't think the kids knew that.

00:51:44.130 --> 00:51:46.503
I have no idea whether they did

f617b023-f965-4cec-9c63-321499f5f529
00:51:46.503 --> 00:51:47.520
or they didn't,

NOTE Confidence: 0.8782792

e739d31e-9eb1-4690-9826-c67352057ba4
00:51:47.520 --> 00:51:50.128
and even in the grounds around the building

NOTE Confidence: 0.8782792

1331633e-afd0-4352-8206-035accea233a
00:51:50.128 --> 00:51:52.938
it was like a football field and stuff.

NOTE Confidence: 0.8782792

dd70a5be-c376-450f-9fc4-57d307908586
00:51:52.940 --> 00:51:54.890
That's where Muslim men had first

NOTE Confidence: 0.8782792

8cdaa840-5af7-4d99-949b-b7d3e1991ea8
00:51:54.890 --> 00:51:56.954
been rounded up before they were

5ce43dc8-81cc-40fa-b685-713b6b72c4fd
00:51:56.954 --> 00:51:58.699
taken to the concentration camp.

NOTE Confidence: 0.8782792

00:51:58.700 --> 00:52:01.652
So the the memories of the war were

NOTE Confidence: 0.8782792

1b7688fa-4630-400f-91de-6cc1e2ec932b
00:52:01.652 --> 00:52:03.790
everywhere around us and in the room.

f5ca5eed-e38d-431d-a3a5-dbdb350025e9
00:52:03.790 --> 00:52:05.866
And maybe that was very maybe

NOTE Confidence: 0.8782792

ce2a109b-9d94-4b82-9fd6-bfd302533a32
00:52:05.866 --> 00:52:08.062
that was fitting for our project

NOTE Confidence: 0.8782792

996412c7-5693-46a9-b27f-11a6630918de
00:52:08.062 --> 00:52:10.645
because it gave us a strong purpose.

NOTE Confidence: 0.8782792

00:52:10.650 --> 00:52:12.504
Because one of the main activities

NOTE Confidence: 0.8782792

2d0378cd-d84f-4524-899a-a57e6ad309b0
00:52:12.504 --> 00:52:14.791
that we had to conduct with the

NOTE Confidence: 0.8782792

dce4dde6-df87-44fb-8b8d-274d2b2b9592
00:52:14.791 --> 00:52:17.087
teachers and this is in our method.

NOTE Confidence: 0.8782792

2d61c6a1-f0bb-4af0-99d0-33b4da02196b
00:52:17.090 --> 00:52:19.274
So we want the teachers to decide

NOTE Confidence: 0.8782792

cf9dbc49-a73a-4dc8-afbb-8cee511d02a6
00:52:19.274 --> 00:52:21.598
what is the topic of the story.

f945d2eb-bc38-4f85-986a-ec04e4574583
00:52:21.600 --> 00:52:23.833
So what is the issue that we're

NOTE Confidence: 0.8782792

7c9ac9ae-9a5f-4145-9108-dcc9153b345d
00:52:23.833 --> 00:52:26.427
going to work with and what is what?

NOTE Confidence: 0.8782792

697ee208-52b9-44c3-9c4e-45ea9436da23
00:52:26.430 --> 00:52:27.666
How is that formulated?

NOTE Confidence: 0.8782792

6f48429d-819f-4728-9c9c-f4c2f9bc9c1d
00:52:27.666 --> 00:52:30.609
And we don't want to impose anything on them.

NOTE Confidence: 0.8782792

d90717d7-8e72-4543-b48c-c048ea30be58
00:52:30.610 --> 00:52:33.540
We don't want to go in there and say you

NOTE Confidence: 0.8782792

65d62ed3-7d38-4d58-bc7f-36eedb00f7d6
00:52:33.620 --> 00:52:36.404
guys have to make a story about peace.

NOTE Confidence: 0.8782792

373be7f3-eb8a-4cf6-9ba3-ef9195933b45
00:52:36.410 --> 00:52:38.336
No one will pay any attention.

d3df484e-1966-466d-bda0-6c3756ca99cd
00:52:38.340 --> 00:52:40.720
So what we did was we did.

81fddad2-095c-4e02-adb3-6713f7ba5bd0
00:52:40.720 --> 00:52:42.874
We did preparatory exercises with the

00:52:42.874 --> 00:52:45.179
teachers to get them to formulate.

01:09:24.020 --> 01:09:26.324

01:09:42.950 --> 01:09:45.010
so they understand that there's

0d023ae4-e402-45fc-a27d-1cf36a471bfa
01:09:45.010 --> 01:09:47.919
some issue that has to be some

crisis that occurs and some issue

01:09:50.211 --> 01:09:52.199
that has to be resolved,

01:09:52.200 --> 01:09:54.210
and that's usually bringing out

01:09:54.210 --> 01:09:56.220
some very very interesting things.

01:09:56.220 --> 01:10:00.347
And of course a lot of they end up having to

01:10:00.347 --> 01:10:03.859
work out among what it wanted one another.

01:10:03.860 --> 01:10:07.145
What do we as a group do to resolve

NOTE Confidence: 0.8347988

2db7bcf3-9ad0-48e7-b3d0-59e4608f35cb
01:10:07.145 --> 01:10:11.280
this crisis with our visitor? Yeah.

1cc9dfcd-ab50-401e-b4c2-b25efc7a5dd0
01:10:11.280 --> 01:10:13.768
And the then for how long do they

8ef7faf0-2452-4eba-a53a-0ce92761f65a
01:10:13.768 --> 01:10:16.210
work on like this project then?

NOTE Confidence: 0.8347988

fd3e241d-8939-4920-ac51-027c7e7bdbca
01:10:16.210 --> 01:10:18.794
I guess it wasn't that a week or

01:10:21.140 --> 01:10:22.544
and it could be.

NOTE Confidence: 0.8347988

01:10:22.544 --> 01:10:25.158
I mean, I would say we have done

NOTE Confidence: 0.8347988

1dfea4dd-51a3-4221-9518-4901167b2eaf
01:10:25.158 --> 01:10:27.120
compressed processes in an afternoon,

01:10:27.120 --> 01:10:28.880
but that's very, very stressful.

988ca6eb-eb26-4838-a109-74b9fc86db10
01:10:28.880 --> 01:10:31.696
And usually that's in a teacher training and.

01:10:31.700 --> 01:10:33.812
And it's it's very reduced down

01:10:33.812 --> 01:10:35.220

I mean in Bosnia,

01:10:36.640 --> 01:10:38.770
I think these stories were we

The facilitators continued to work

5d3bad56-db84-4e37-9062-4c23cbe10947
01:10:44.456 --> 01:10:46.930
with them to sort of refine the

01:10:49.570 --> 01:10:50.995
and you know,

01:10:50.995 --> 01:10:54.320
but you could carry on with this.

08b171e6-df00-40f1-ad0f-4e1823e3ec15
01:10:54.320 --> 01:10:56.632
The beauty of it is you can stretch

01:10:56.632 --> 01:10:58.929
it out for as long as you like,

01:10:58.930 --> 01:11:00.946
because you know if you wanted to

01:11:00.946 --> 01:11:03.004
do an entire term and at school

01:11:03.004 --> 01:11:05.259
where once a week you work on this,

36c88a7c-76d3-4fa2-8757-ea9040faaae2
01:11:05.260 --> 01:11:08.098
you could do that no problem.

f5aa46d8-46b0-4e4f-a85a-9cabf1fd06f6
01:11:08.100 --> 01:11:09.102

94bb77f5-2ccb-42c8-8997-75140ebf84cb
01:11:09.102 --> 01:11:11.440
the time doesn't really matter at late,

f6935e9d-7b5a-4f90-9551-3edabcfd2efd
01:11:11.440 --> 01:11:12.895
but more maybe like stretching

24a27855-9652-4f1a-a59e-c5a79c7b7ea1
01:11:12.895 --> 01:11:15.172
it out is may be preferred over

a683ca23-f47f-4bfe-a642-cf9ff89c28ce
01:11:15.172 --> 01:11:17.446
congesting it in this sense again.

NOTE Confidence: 0.8347988

eef9fda3-38d9-42ce-86bc-f9df5da391ea
01:11:17.450 --> 01:11:17.810
Well,

NOTE Confidence: 0.8347988

06d3da4c-25a7-4257-bdbe-57231df0dff8
01:11:17.810 --> 01:11:19.970
when it's a question of how

933dc20a-a01e-4339-a4da-336becf44965
01:11:19.970 --> 01:11:22.020
congested because you you can get

c1f97e55-c9be-4edc-969f-2eb291e72c39
01:11:22.020 --> 01:11:24.127
very tired in your head with this.

b9b2a8b0-0ff6-47c9-8bb5-63113127c125
01:11:25.462 --> 01:11:28.470
if you if you stretch it out too far,

83b2750b-0330-4e77-9f4d-47623d645088
01:11:28.470 --> 01:11:30.252
people forget what they were doing

01:11:30.252 --> 01:11:32.480
and it feels a bit meaningless,

01:11:32.480 --> 01:11:34.490
so it's kind of a balance.

01:11:34.490 --> 01:11:38.638
You know how. How you doing?

fc39de5c-e1e9-4f91-925d-358c0012dd1b
01:11:38.640 --> 01:11:42.679
OK OK I I like I'm almost

NOTE Confidence: 0.8347988

8c4534df-96d5-4799-99cf-ddaa02d4bec2
01:11:42.679 --> 01:11:45.960

01:11:54.760 --> 01:11:56.500
would you give actually?

01:11:58.240 --> 01:12:00.415
like this like Art Space,

01:12:00.420 --> 01:12:02.475
project developers like what are

ef98bb0b-1c07-4bac-905f-9a6b58ded18e
01:12:02.475 --> 01:12:05.071
key things to think about when

01:12:05.071 --> 01:12:07.376
developing these kind of projects.

There's so many things I could say,

1e876bb8-27a9-4a6f-9abc-fcff6c022562
01:12:12.810 --> 01:12:15.170
but I think don't do them, no.

money and you will you will.

You will spend a lot of time doing it.

01:12:26.140 --> 01:12:31.810
I would say that. I would say that.

01:13:00.674 --> 01:13:03.078
reasons why we can't, why we,

b24de677-ff36-4c93-ad25-ce27b0af7f4b
01:13:03.078 --> 01:13:05.870
we, we end up having to deal with

01:13:05.961 --> 01:13:09.129

all kinds of fancy things, but you know.

way of presenting the story,

73add037-c30f-4bfd-bd05-2f36f0d03fe6
01:17:34.580 --> 01:17:36.904
but we had no method and after

01:17:36.904 --> 01:17:38.550
the most mirror project,

01:17:38.550 --> 01:17:41.799

01:18:01.860 --> 01:18:05.188

22

00:09:19.380 --> 00:09:20.160

Salim Stokey: To you guys.

23

00:09:23.430 --> 00:09:31.920

Salim Stokey: And she models that are not as familiar in Mostar, and then the second person I spoke to us.

24

00:09:33.600 --> 00:09:36.630

Salim Stokey: Was from Sweden, and she worked with most.

25

00:09:38.640 --> 00:09:39.750

Another organization.

26

00:09:42.630 --> 00:10:00.510

Salim Stokey: I am here with you guys i'm very short nice like a very short obama's have to give them more context, like I enjoy also engaging in the arts and music I play guitar I organize jam sessions with friends and stuff and.

27

00:10:01.620 --> 00:10:04.980

Salim Stokey: yeah and, besides, that I like going longboarding and whatever.

28

00:10:06.450 --> 00:10:16.800

Salim Stokey: And yeah I started thinking about this projects through a project that I did in Tunisia volunteering for three months they're working with kids and.

29

00:10:17.640 --> 00:10:27.000

Salim Stokey: This was also for social transformation, but there was not really a very clear strategic plan or 22 it was it was still very helpful, I think.

30

00:10:29.370 --> 00:10:33.420

Salim Stokey: Before I go into the real question, do you guys have any questions for me.

31

00:10:35.280 --> 00:10:37.650

Malcolm Lowe: yeah can I can I record the meeting.

32

00:10:38.100 --> 00:10:40.710

Malcolm Lowe: Yes, yes, the boys okay that's good.

33

00:10:41.880 --> 00:10:42.420

Salim Stokey: All right.

34

00:10:43.560 --> 00:10:46.710

Malcolm Lowe: I think you have to give like permission to my profile.

35

00:10:47.370 --> 00:10:48.060

Malcolm Lowe: Oh record.

36

00:10:48.690 --> 00:10:49.620

Salim Stokey: You can be.

37

00:10:53.280 --> 00:10:55.950

Salim Stokey: allowed to court okay.

38

00:10:56.310 --> 00:10:57.030

Malcolm Lowe: i'm gonna stop.

39

00:10:57.810 --> 00:11:06.660

Salim Stokey: Okay um So could you guys, one by one, we released shortly describe your role in five fabulous.

40

00:11:07.500 --> 00:11:07.950

Dina Vosanovic: So.

41

00:11:08.760 --> 00:11:09.780

Salim Stokey: let's start with enough.

42

00:11:10.020 --> 00:11:28.170

Dina Vosanovic: Okay yeah so hi my name is Nina was China which i'm breaking big speakers and since 2007 my role is youth worker mentor and cordiner the youth projects at the Center and I usually work with international and local volunteers children again people.

43

00:11:30.810 --> 00:11:32.670

Salim Stokey: Thank you now come.

44

00:11:33.060 --> 00:11:41.640

Malcolm Lowe: Up I am yeah i'm a volunteer from the UK and i've been working with sweet that's like 80% of my time.

45

00:11:42.750 --> 00:11:44.250

Malcolm Lowe: Since November.

46

00:11:45.600 --> 00:11:49.410

Malcolm Lowe: And I do some projects where young people, young young children.

47

00:11:51.450 --> 00:12:03.180

Malcolm Lowe: Do creative workshop with like lots of different creative tasks with teenagers and some young adults and, like to take part in everything else.

48

00:12:04.770 --> 00:12:05.280

Salim Stokey: Thank you.

49

00:12:08.820 --> 00:12:09.210

Salim Stokey: guys.

50

00:12:41.190 --> 00:12:41.520

Salim Stokey: yeah.

51

00:12:43.140 --> 00:12:43.470

Salim Stokey: yeah.

52

00:12:44.460 --> 00:12:47.280

Angela Stoddard: hi my name is amanda i'm feeling.

53

00:12:49.920 --> 00:12:50.400

Angela Stoddard: i'm.

54

00:12:51.150 --> 00:12:52.500

Angela Stoddard: feeling hard the.

55

00:12:52.530 --> 00:13:06.060

Angela Stoddard: European solid article program going to be here until Sep tember have been here since November and my main projects are environmental with students and I run a year the workshop, as well as working with young children.

56

00:13:06.690 --> 00:13:07.230

Salim Stokey: Okay okay.

57

00:13:07.500 --> 00:13:08.070

Thank you.

58

00:13:09.810 --> 00:13:11.310

Salim Stokey: So I think.

59

00:13:12.150 --> 00:13:21.660

Salim Stokey: Probably Dino or a deaconess mean, especially when you first came here started with the product you didn't have to do 2007 and I didn't use it in 2008 what.

60

00:13:22.710 --> 00:13:26.040

Salim Stokey: What what was the environment, like what how how was.

61

00:13:27.150 --> 00:13:31.260

Salim Stokey: The worst affecting the Community, in that sense, in short.

62

00:13:34.800 --> 00:13:37.650

Salim Stokey: Are you still on mute do not think so.

63

00:13:41.610 --> 00:13:43.410

Dina Vosanovic: Okay, so.

64

00:13:46.710 --> 00:13:47.820

Dina Vosanovic: it's this.

65

00:13:49.110 --> 00:14:01.800

Dina Vosanovic: Constant zones zone, the thing, like you, the air So when I first started to work here, it was like people were divided by nationalities and you probably did your research it's like Bosnian Serbs and crowds.

66

00:14:02.280 --> 00:14:16.230

Dina Vosanovic: So the thing is like there was a war, three, four years and, like there is a lot of anger and hate and like people were divided and it's like 14 years mouse's like you've got a bit better but.

67

00:14:17.190 --> 00:14:29.010

Dina Vosanovic: People are still very, very divided, because of the nationalities, because of their religion, and I can just like quickly say something about the Gaza Israel conflict it's far away.

68

00:14:29.640 --> 00:14:37.230

Dina Vosanovic: from us, but like people got incredibly fast involved into this conflict being divided and like taking sides.

69

00:14:37.620 --> 00:14:47.550

Dina Vosanovic: So it does not affect our work here, but the work of our donators in England, like firefly they had a Gaza like station.

70

00:14:47.970 --> 00:14:57.360

Dina Vosanovic: For the kids and young people affected by the war and they go like really, really hit by by this conflict, so the things in Bosnia they're like.

71

00:14:57.870 --> 00:15:01.440

Dina Vosanovic: Like going on a bit, but it's still like a lot of.

72

00:15:02.310 --> 00:15:16.590

Dina Vosanovic: hate and anger and people do hang out people do visit each other, they go to schools together they work together, but there's still like these gaps between them and you wouldn't recognize it on the first.

73

00:15:17.040 --> 00:15:24.810

Dina Vosanovic: If you would come to Boston yeah like you, you could see everyone like just being together, but like if you stay a bit longer here, then it's a bit trickier yeah.

74

00:15:25.530 --> 00:15:30.180

Salim Stokey: Okay Okay, thank you do, you have anything to add to that or.

75

00:15:34.950 --> 00:15:36.570

Angela Stoddard: Can you just need to microphone muted.

76

00:15:37.170 --> 00:15:38.040

Angela Stoddard: So it's really.

77

00:15:40.230 --> 00:15:46.950

Angela Stoddard: Well, I agree with you as a person and i'm a musician as well, I do jam sessions i'm a bass player.

78

00:15:49.950 --> 00:16:02.850

Angela Stoddard: In one part where I played people are there, but if you go in the weirdest part of this city, you can notice that, like only one, and this Mika division actually which you need to.

79

00:16:03.480 --> 00:16:16.170

Angela Stoddard: really to be here to experience and we recommend the children as well and small ones, and we were trying to implement that that's not the gap from like really small it's like.

80

00:16:16.860 --> 00:16:28.620

Angela Stoddard: I work, mostly with 46 year olds and they're all together and they don't care about this year and it's not their primary stuff and we want to keep it like this, this feeling of togetherness.

81

00:16:29.790 --> 00:16:30.990

Salim Stokey: Would you say that.

82

00:16:32.040 --> 00:16:34.440

Salim Stokey: This divide sort of like.

83

00:16:35.880 --> 00:16:41.970

Salim Stokey: comes when they get older than normally or so that, when their children, like it's not really that much when.

84

00:16:43.410 --> 00:16:53.460

Angela Stoddard: It comes from it comes from the environments that's the problem, because the environment and the older people has have still this division and that's the thing like that influence the young mind.

85

00:16:55.350 --> 00:17:06.360

Angela Stoddard: let's say one basic things there's graffiti nationalistic graffiti or vertical and then they can see this like against these guys against these guys and in.

86

00:17:07.620 --> 00:17:08.340

Angela Stoddard: And then.

87

00:17:10.230 --> 00:17:18.990

Angela Stoddard: Maybe older people are a bit nationalistic like they can tell them don't go with him he's like a master is a service call it whatever.

88

00:17:19.680 --> 00:17:24.030

Angela Stoddard: And that's kind of thing that he considers want to like the glades not to have.

89

00:17:24.990 --> 00:17:41.280

Angela Stoddard: You want to hell like neutral space, so we are providing this neutral space where a listing it's not the it's not the big tick like i'm here as Adam and participant i'm a musician i'm coordinator, whatever just a human being doing something with other human beings at this point.

90

00:17:43.260 --> 00:17:43.650

Salim Stokey: and

91

00:17:44.910 --> 00:17:48.660

Salim Stokey: Like either dina or can answer this.

92

00:17:49.770 --> 00:17:50.400

Salim Stokey: Do.

93

00:17:51.510 --> 00:18:01.410

Salim Stokey: Like do publicly say like okay we're doing this to like bridge the divide or something or is it like or like, how do you promote your projects.

94

00:18:01.410 --> 00:18:07.020

Salim Stokey: Is it like more like we do we organize activities for people, but then it has like a small.

95

00:18:08.040 --> 00:18:14.640

Salim Stokey: Other value to it, or is it like very clear that this is also like actually to bridge the Community.

96

00:18:14.850 --> 00:18:15.390

Adin & Angela: yeah.

97

00:18:23.070 --> 00:18:28.050

Dina Vosanovic: Okay So yes, we do this, like really, really, really through the.

98

00:18:29.130 --> 00:18:34.590

Dina Vosanovic: Promotion of the activities and through our status of your organization so.

99

00:18:35.580 --> 00:18:44.760

Dina Vosanovic: We really do it creates like a neutral space for everyone so like it doesn't matter who you are really like doesn't matter who you are and where you belong.

100

00:18:45.240 --> 00:18:55.680

Dina Vosanovic: If you want to learn something if you want to share skills, if you want to support you or whatever like you can come here and share your thing, so we.

101

00:18:56.310 --> 00:19:02.310

Dina Vosanovic: Try to stay neutral as well, so in Bosnia, as in many other countries in Europe, I think.

102

00:19:03.060 --> 00:19:18.990

Dina Vosanovic: it's very important to him to belong to which political party and like stuff like that so since we are NGOs don't belong to the government, I think we are the only one NGO in political that we are no other members of the political parties, which means we have.

103

00:19:20.040 --> 00:19:29.700

Dina Vosanovic: No one to protect us in this meaning if if something happens like we're just on our own, you know so people are involved into politics and everything so.

104

00:19:30.900 --> 00:19:43.350

Dina Vosanovic: My point is that they're very natural and very clear being open to everything in in concept of learning and sharing skills and we just like try to.

105

00:19:44.070 --> 00:19:57.240

Dina Vosanovic: Keep safe our neutral profile and like peace building is the most important thing that we do through the activities through music or dancing or like photography arts and crafts languages, many, many.

106

00:19:57.750 --> 00:20:13.110

Dina Vosanovic: Other things and since years we are hosting international on three tiers from all over the world, so they were like Asians, and like people from United States and from Africa and from Australia and our participants are used.

107

00:20:19.350 --> 00:20:23.760

Dina Vosanovic: A variety of different nationalities, the languages and everything.

108

00:20:26.070 --> 00:20:35.520

Salim Stokey: Okay, and would you say that the international volunteers, is that, like a important part of the project, or is it just something.

109

00:20:36.750 --> 00:20:39.930

Salim Stokey: Yes, Okay, and in what way does.

110

00:20:40.350 --> 00:20:41.400

Salim Stokey: That help.

111

00:20:43.290 --> 00:20:43.530

Salim Stokey: yeah.

112

00:20:44.520 --> 00:20:45.960

Salim Stokey: I just like quickly added.

113

00:20:47.940 --> 00:20:57.630

Dina Vosanovic: it's a huge huge part of the of our like goals here because maybe 10 years ago young people from Boston yeah we're not.

114

00:20:58.080 --> 00:21:06.690

Dina Vosanovic: able to travel anywhere, because of the Boston passport into like politics and the international volunteers like having the window to the world like there.

115

00:21:07.170 --> 00:21:25.680

Dina Vosanovic: There would be like this young people coming from other parts of the world and, just like sharing their knowledge and experiences and any way they like bring this colorful diversity to our projects and like just get us with them together to other parts of the world, you know so.

116

00:21:27.450 --> 00:21:29.100

Dina Vosanovic: it's a big big thing for.

117

00:21:34.290 --> 00:21:35.130

Salim Stokey: us.

118

00:21:35.550 --> 00:21:36.630

Angela Stoddard: Yes, just mute.

119

00:21:37.680 --> 00:21:45.570

Angela Stoddard: yeah Okay, I wanted to say, like, for me, the International just brings actually the biggest diversity in our Community, because.

120

00:21:46.590 --> 00:22:01.170

Angela Stoddard: See, this is the only one actually having like foreign volunteers international ones, and then they bring this diversity but it's not presentable in our country like we have like diversity on three ethics, but now we have more diversity.

121

00:22:02.190 --> 00:22:12.360

Angela Stoddard: Which brings like these guys, they are British we had like Turkish and Germans and all over to Europe, we have people and as dina said, young people are not.

122

00:22:13.020 --> 00:22:23.760

Angela Stoddard: actually able to see different kind of like diversity is unless they see somebody else and many young people don't have chance to go somewhere abroad because it's expensive like.

123

00:22:24.930 --> 00:22:27.450

Angela Stoddard: Unfortunately, like there's not much work here.

124

00:22:28.470 --> 00:22:41.100

Angela Stoddard: So it's really important, but a part of sweetness to do send people to other cultures, like they don't know about Britain Turkey or whatever, whichever country the middle, so I wasn't the Middle East to sleep it's working then heart.

125

00:22:41.760 --> 00:22:43.650

Angela Stoddard: Nice like and I went to.

126

00:22:43.650 --> 00:22:49.590

Angela Stoddard: Germany and milk somewhere and whenever, wherever we're at the park.

127

00:22:50.700 --> 00:22:55.560

Angela Stoddard: This big big scheme of diversity, they are really important to me.

128

00:22:57.060 --> 00:23:03.180

Salim Stokey: And how, how does like the Community like maybe Malcolm and.

129

00:23:04.650 --> 00:23:08.280

Salim Stokey: And Actually, I can tell me like, how does the Community like respond to you guys.

130

00:23:08.370 --> 00:23:19.350

Salim Stokey: How do you how much interaction, you have like how how welcoming is it, or do you face any challenges in that sense, and maybe under that first thing is to yeah.

131

00:23:22.380 --> 00:23:31.140

Angela Stoddard: So living here for six months, I found definitely a really welcoming open community, and I think we're really different and we pray that element.

132

00:23:31.650 --> 00:23:42.150

Angela Stoddard: So when we do workshops we've been told that if there was the name of a local person on the poster they might see the name see the ethnic group and be like whoa I don't know whether I should go.

133

00:23:42.690 --> 00:23:49.560

Angela Stoddard: Whereas if with our workshops it's clearly a neutral ground where bit interesting we're from a different country.

134

00:23:49.920 --> 00:24:04.050

Angela Stoddard: And it just creates that neutral ground, and then we clearly have an ethos, from the beginning was besides, where we don't know particularly his name's you are very small knit community, so we don't know who you're from where you are we're just pie, thank you.

135

00:24:06.840 --> 00:24:22.740

Angela Stoddard: Lisa painting this neutral ground, and I think we can share our perspectives of home as well because you're not someone is being away you think what this is normal, you know we've normal religion.

136

00:24:30.210 --> 00:24:45.060

Angela Stoddard: has its own issues as well, oh hello, this is someone and where are they from we just see that as could be an English name, and you can have any different color skin, so we just asked, I think, bring a different perspective and by replay this energy into the group as well, so nothing.

137

00:24:46.140 --> 00:24:54.270

Angela Stoddard: about these workshops we've created from scratch and we receive that you didn't see you know just kind of very like you didn't see it coming.

138

00:24:54.510 --> 00:25:06.660

Angela Stoddard: But we've managed to create some adult workshops and teenagers and we've had them coming every week for six months so it's really great to see that, particularly in briscoe the youth Center is really working for youth, which is really fantastic to see.

139

00:25:07.560 --> 00:25:11.370

Salim Stokey: very nice Malcolm you have anything you would like to add to that.

140

00:25:11.700 --> 00:25:20.040

Malcolm Lowe: yeah I agree with that yeah I know would add that, like kind of there's two sides to you'd said about the the welcome you received from young people.

141

00:25:20.550 --> 00:25:28.650

Malcolm Lowe: or from people in general, maybe, but let's say young people, they are some of the most welcoming people and most friendly people i've ever met in my life.

142

00:25:30.210 --> 00:25:44.850

Malcolm Lowe: Which is maybe it's just Bosnians being sociable, but I think they're really, really, really, really, really so excited and willing to talk to someone from abroad and just share something with you, even if you talk to them for two minutes and you never see them again.

143

00:25:46.110 --> 00:25:49.440

Malcolm Lowe: But and also just socializing is yet really.

144

00:25:51.480 --> 00:26:05.370

Malcolm Lowe: Everyone is very sociable, but I would say, with the people coming to workshops, we, we have a group of people who come and are like with we're doing amazing stuff but it's really challenging to get.

145

00:26:06.030 --> 00:26:13.560

Malcolm Lowe: Some people who maybe aren't already creative or motivated it's really challenging to get them to actually come.

146

00:26:15.480 --> 00:26:21.150

Malcolm Lowe: And I kind of we were prepared for that, from the start, but it's an interesting one, because.

147

00:26:21.450 --> 00:26:31.320

Malcolm Lowe: When you actually talk to people in person, when you see them out and about it's not a problem they'll chat to you they'll tell you loads of stuff but that doesn't mean that they're going to commit to I don't know.

148

00:26:32.790 --> 00:26:34.830

Malcolm Lowe: doing a new creative task every week.

149

00:26:36.360 --> 00:26:43.200

Malcolm Lowe: Doing arts and crafts going and cleaning up their Community like there's a bit of reticence and reluctance for that.

150

00:26:43.740 --> 00:26:46.290

Malcolm Lowe: yeah I would say so that i'm not yeah that's just my.

151

00:26:46.470 --> 00:26:46.950

Salim Stokey: And and.

152

00:26:46.980 --> 00:26:47.610

two sides.

153

00:26:49.020 --> 00:26:58.050

Salim Stokey: When when people buy like having struggled with like starting the creative process in that sense, like, how do you try to overcome that in essence.

154

00:26:58.920 --> 00:27:04.560

Malcolm Lowe: Well, my my project is kind of still in its I would say it's still in the stage of getting people comfortable.

155

00:27:05.730 --> 00:27:18.660

Malcolm Lowe: And the aim is just to do for me to firstly be doing, be a kind of fun and positive presence and do the thing as well, like whatever the thing we're doing if it's.

156

00:27:19.860 --> 00:27:25.170

Malcolm Lowe: rap or poetry or to writing a story like or painting.

157

00:27:26.220 --> 00:27:32.700

Malcolm Lowe: We take part in it to from the start and just try to get people realizing that it's not.

158

00:27:33.900 --> 00:27:44.370

Malcolm Lowe: embarrassing or cringe worthy and just hoping that they can build a bit of comfort and have fun and I think the next step is like building to like leveling up to something a bit more.

159

00:27:45.270 --> 00:27:54.660

Malcolm Lowe: I don't know I don't want to say serious because it's always fun and in for non formal, but yet like from the we're getting comfortable together to let's do something really cool.

160

00:27:55.890 --> 00:28:07.860

Salim Stokey: Like you sort of get you provide an example by like presenting yourself a like open were like not like shameless way so then like they also might feel more comfortable in that sense.

161

00:28:08.040 --> 00:28:12.540

Malcolm Lowe: And also like saying you know I don't really know how to do this blank and give it go.

162

00:28:12.750 --> 00:28:14.940

Malcolm Lowe: Like it may be something I don't know how to do either.

163

00:28:15.240 --> 00:28:17.640

Malcolm Lowe: And just being trying to be on a level with them.

164

00:28:18.570 --> 00:28:20.820

Salim Stokey: Okay um and.

165

00:28:21.450 --> 00:28:29.760

Salim Stokey: Is there any one of you guys can answer this one, I guess it's an egg any specific strategy you guys use for the projects, or is it.

166

00:28:30.570 --> 00:28:41.550

Salim Stokey: more fluid or like what How long have you ever discussed like really okay like how are we try to overcome like these French these things in a sense.

167

00:28:44.790 --> 00:28:45.510

Salim Stokey: yeah yeah.

168

00:28:54.810 --> 00:28:54.990

Salim Stokey: yeah.

169

00:28:55.020 --> 00:29:02.070

Dina Vosanovic: yeah so that's that's a really, really tricky thing, like all the ideas that we have, or like people that we work.

170

00:29:02.340 --> 00:29:18.030

Dina Vosanovic: With like how to approach people how to approach like three different generations like young teenagers teenagers idols parents people from school I can very, very tricky the thing individual is like it has.

171

00:29:19.140 --> 00:29:24.990

Dina Vosanovic: special status in Bosnia Herzegovina says like vertical district, which means we have three.

172

00:29:25.560 --> 00:29:39.540

Dina Vosanovic: official languages we have like 15 departments for like different things so, for example, to promote an activity in public high schools, we have to apply to the department for school.

173

00:29:40.230 --> 00:29:46.530

Dina Vosanovic: And they have to give us permission to actually be able to get into the schools and like promote enberg there.

174

00:29:46.950 --> 00:29:55.590

Dina Vosanovic: And we did like three years ago, but then the government has changed the political parties have changed, and now we don't have this permission.

175

00:29:55.950 --> 00:30:07.410

Dina Vosanovic: So the things that we do is like we use social platforms like to promote we talk to people a lot we invite people like oral like by talking to them.

176

00:30:09.270 --> 00:30:19.050

Dina Vosanovic: And we just create also like this posters and pamphlets and things like and try to spread the word in Brcko.

177

00:30:20.100 --> 00:30:23.820

Dina Vosanovic: But as Malcolm said it's really, really hard to motivate.

178

00:30:24.720 --> 00:30:39.660

Dina Vosanovic: Anyone actually these days, especially because of the economic situation, depression that is kind of like all over the place, the common thing that we have as well and, just like being bored of everything and.

179

00:30:40.560 --> 00:30:49.740

Dina Vosanovic: As I said, like it days before there is this huge crunch for young people to attend any kind of activities like that could be like a call.

180

00:30:50.010 --> 00:31:00.570

Dina Vosanovic: REP workshop or like painting, or like spray whatever but it's still like you're you're like a nerd in this moment going actually at all to the youth Center which is.

181

00:31:01.260 --> 00:31:09.720

Dina Vosanovic: Like something like school, so if you're going to your Center like a nerdish you want to learn blah blah so it's not cool thing so.

182

00:31:10.500 --> 00:31:25.830

Dina Vosanovic: We try to think again and again how to get to people, because they do need like they do need us, as well as we need them it's just like this bridge making it's like always a bit difficult.

183

00:31:26.370 --> 00:31:33.240

Salim Stokey: You have a big struggle to your project with actually getting the people dead, and in that sense, like.

184

00:31:33.510 --> 00:31:35.310

Dina Vosanovic: actively participating I know.

185

00:31:36.510 --> 00:31:54.390

Dina Vosanovic: Yes, but it's, not just in in In particular, I think the whole, the main column isn't whole country as well, because our goal or tack tactical are the young people, so the economic situation in Boston is really bad like you can't get a job, like.

186

00:31:56.610 --> 00:32:06.060

Dina Vosanovic: going to school or studying might be very, very expensive and you live with your parents until you maybe 3035 or six, which is depressing as well.

187

00:32:06.540 --> 00:32:18.300

Dina Vosanovic: And these young people are like in this bubble of anxiety and like being very bored and, although, like many our colleagues offer some really, really cool actions and workshops and.

188

00:32:21.450 --> 00:32:32.370

Dina Vosanovic: We all since three or four years now, we all struggle getting people actually into the project because, like we discussed so many times.

189

00:32:33.360 --> 00:32:42.390

Dina Vosanovic: about this issue, but it's still like no one doesn't know exactly what's going on, is it just like being an unhappy living here in Bosnia.

190

00:32:42.750 --> 00:32:50.070

Dina Vosanovic: Is it the constant fear of the war that that we have all over the time like if you see the local news and like three.

191

00:32:50.850 --> 00:33:00.090

Dina Vosanovic: Local papers on like on the stage level it's really always to hate speech is present, like the war word is always there.

192

00:33:00.630 --> 00:33:16.110

Dina Vosanovic: And then I kind of get the young people thinking Okay, why should I do anything, because the places anyway kind of sucks, if I may say this, you know so now adding maybe can consume more because he is this young.

193

00:33:16.290 --> 00:33:17.160

generation.

194

00:33:18.570 --> 00:33:20.520

Salim Stokey: It would be good to have your perspective as well.

195

00:33:21.150 --> 00:33:22.920

Angela Stoddard: yeah I can agree.

196

00:33:25.140 --> 00:33:31.650

Angela Stoddard: yeah there is like a state level of monotony in this country's honestly like.

197

00:33:33.360 --> 00:33:35.160

Angela Stoddard: The yes, we say we.

198

00:33:38.370 --> 00:33:42.870

Angela Stoddard: awesome places like eight years, not able to get a proper job or.

199

00:33:47.910 --> 00:33:48.660

Salim Stokey: I didn't catch the.

200

00:33:49.470 --> 00:33:49.830

Last.

201

00:33:53.040 --> 00:34:00.810

Angela Stoddard: So, like, since it is i'm just like put it for half a time like I wasn't able to find a proper job in this country as well.

202

00:34:02.310 --> 00:34:03.930

Angela Stoddard: Our system doesn't function.

203

00:34:05.010 --> 00:34:15.000

Angela Stoddard: And so many young people are trying to find some reason, some other countries literally like the goo to burn because.

204

00:34:15.780 --> 00:34:35.310

Angela Stoddard: As I said, like we live up and still like 35 or something because it's hard for me and then like amusement things are not much like in Moscow, I can tell you this there's only coffee bars here let's we can do and do workshops that Malcolm and Angela are like offering.

205

00:34:35.670 --> 00:34:37.770

Angela Stoddard: There are some other things as well, but.

206

00:34:38.040 --> 00:34:39.180

Angela Stoddard: that's all like in.

207

00:34:40.290 --> 00:34:51.540

Angela Stoddard: And, as a young person i'm really bored actually in the city, because I just play games at home continued sandpaper and that's it like little cinema know cultural events that would.

208

00:34:53.580 --> 00:34:58.050

Angela Stoddard: devote myself more this problem, like it's not to me.

209

00:34:58.950 --> 00:34:59.280

Then.

210

00:35:00.300 --> 00:35:18.720

Salim Stokey: firefly really adds to that gun like in the sense that you guys provide extra entertainment cultural things to do, in that sense, so they could three I guess in in in the Community has more has a function, besides just bridging the ethnicities, it also the function of.

211

00:35:20.910 --> 00:35:23.820

Salim Stokey: Giving some things to do, in that sense, oh.

212

00:35:24.630 --> 00:35:27.450

Angela Stoddard: Yes, it's really having a big impact.

213

00:35:29.850 --> 00:35:30.660

Salim Stokey: and

214

00:35:32.250 --> 00:35:42.030

Salim Stokey: Let me see yeah so Angela can you describe me what what for you what was for you, like the biggest challenge so far with the projects.

215

00:35:42.120 --> 00:35:45.450

Salim Stokey: I experienced that with the children or.

216

00:35:46.560 --> 00:35:48.120

Salim Stokey: With setting up the project.

217

00:35:50.970 --> 00:36:00.840

Angela Stoddard: Yes, so with the young children between five and seven years old, obviously, the first big challenge for me is they only know me and and I know English.

218

00:36:01.170 --> 00:36:13.680

Angela Stoddard: and Bosnian is a lovely language but it's very difficult to learn, so it is a way of you know, working together with the whole team, so we have added in and other coordinators who speak Bosnian.

219

00:36:14.250 --> 00:36:23.880

Angela Stoddard: And then, when I creating like a craft workshop like i'm doing today I create the workshop I explained through I didn't I didn't explain to the children.

220

00:36:24.180 --> 00:36:36.720

Angela Stoddard: But that's a good way of working together, and sometimes actually having the children speaking, was in at age five is how I speak was me and so when they're talking about like table I can just say table and we sort of work together in that way.

221

00:36:37.740 --> 00:36:55.110

Angela Stoddard: With the older university students, we are very lucky that some fantastic level of English, and we did offer English conversation and found they just need it because they just want to have that conversation so that barrier has not been really big.

222

00:36:57.330 --> 00:37:05.220

Angela Stoddard: But there is definitely a very sort of works for them and i've been trying with my university students about 2025.

223

00:37:05.520 --> 00:37:13.320

Angela Stoddard: To get them to hopefully take over and i'd love them to leave and every week on what would you like to do, would you like to show us but.

224

00:37:13.710 --> 00:37:24.720

Angela Stoddard: Yes, but there is that sort of holding back and maybe I did, that we are going to be the ones that are leading maybe there's an issue of time is, though, young people say they've not got a lot to do.

225

00:37:25.020 --> 00:37:28.320

Angela Stoddard: There is a huge amounts of family to look after maybe.

226

00:37:28.410 --> 00:37:37.140

Angela Stoddard: grandparents etc as university courses we've got one lovely girl in our group that has to university courses at the same time.

227

00:37:37.650 --> 00:37:47.670

Angela Stoddard: And then they have other you know friends obligations, so there was so much for them to do and asking them to pass and thing it's a bit of an extra time barrier for them as well.

228

00:37:48.450 --> 00:37:56.910

Angela Stoddard: And I think it's just also keeping the group together i'm very aware that lots of them are looking for cleaning jobs in Croatia.

229

00:37:57.180 --> 00:38:03.480

Angela Stoddard: they're looking at jobs in Germany any opportunity to leave us here so for the group's continuation.

230

00:38:03.690 --> 00:38:11.220

Angela Stoddard: I would have loved to have got to the stage where someone's taking over they love it someone would like to do after I go in November September.

231

00:38:11.550 --> 00:38:20.520

Angela Stoddard: But, am I going to find that person, where a lot of people are leaving for the summer and that's hard, because you get all that momentum you get that group going you'd love to pass it on.

232

00:38:20.880 --> 00:38:32.940

Angela Stoddard: But, are you finding that people to keep going and move it on and are you going to have the same inspiration and interest after we've passed on so sustainability for the group I think might be an issue in the future.

233

00:38:33.360 --> 00:38:41.010

Angela Stoddard: But I think, at least for now we've had a really good group and a really big motivation for the group and we have assisted members in.

234

00:38:41.370 --> 00:38:53.490

Angela Stoddard: My university group one has gone on to volunteer Slovenia, which is fantastic another is volunteering in Greece and another one is taking on a role as the tax, maybe in the future.

235

00:38:54.570 --> 00:39:04.530

Angela Stoddard: And we've got and the coordinator Layla as well, so we've got lots of people who are using the opportunities that we give to move on and to find the opportunities.

236

00:39:04.920 --> 00:39:12.420

Angela Stoddard: But is it going to be a launch pad out or is it going to be something we can keep going in British guy for the future generations of young people.

237

00:39:12.690 --> 00:39:14.250

Salim Stokey: mm hmm okay okay.

238

00:39:16.020 --> 00:39:16.680

Salim Stokey: and

239

00:39:19.050 --> 00:39:22.590

Salim Stokey: If he was snake of this is for all of you guys actually like.

240

00:39:23.700 --> 00:39:26.760

Salim Stokey: If you would say, would you say that this projects.

241

00:39:26.820 --> 00:39:30.120

Salim Stokey: would be easily web like you could do that also in.

242

00:39:30.150 --> 00:39:31.680

Salim Stokey: different communities in Bosnia.

243

00:39:31.710 --> 00:39:37.890

Salim Stokey: And like what's what recommend invitations would you have done for them like with organizing this kind of.

244

00:39:39.000 --> 00:39:39.720

Salim Stokey: activities.

245

00:39:40.650 --> 00:39:43.410

Salim Stokey: I don't know who would like to answer that many.

246

00:39:47.760 --> 00:39:48.720

Salim Stokey: yeah yeah.

247

00:39:53.670 --> 00:40:02.700

Dina Vosanovic: yeah maybe I can say something about it but i'm sure that, like other three people have can can say something about this as well, yes I think these.

248

00:40:03.240 --> 00:40:15.300

Dina Vosanovic: activities and all the projects that really needed in the world country like it's not just this that that feature here, like all other calls from other NGOs from Saturday open Islam.

249

00:40:15.810 --> 00:40:40.200

Dina Vosanovic: And I think we definitely need more of these things going on, like, for example, we have an annual project it's like a day against fascism anti semitism November and the 21st of March Day Against Racism as well, so retry to.

250

00:40:41.220 --> 00:40:51.600

Dina Vosanovic: point out how important it is to think fascism and racism, as well, also in in in.

251

00:40:53.040 --> 00:40:54.030

Dina Vosanovic: Boston yeah because.

252

00:40:55.260 --> 00:41:00.180

Dina Vosanovic: Fascism is, and unfortunately it's present everywhere at the moment, like in all segments of.

253

00:41:01.650 --> 00:41:18.240

Dina Vosanovic: Society and like racism as well, although we do have my minority and it's like Roma people, but there is a huge hatred against them as well and, again, this is not just going on in particular it's in the whole country and and the region, I can say as well, so.

254

00:41:20.460 --> 00:41:36.750

Dina Vosanovic: Yes, like it's very, very needed like this peace building work and, like reconciliation very, very important, just to be continued through yeah different activities and projects, maybe it can add more or like Malcolm Angela yeah.

255

00:41:39.150 --> 00:41:46.890

Angela Stoddard: I think it's much in the early part of Boston and it's like a reconciliation is building project like bitcoin want to block your cities, because.

256

00:41:48.000 --> 00:41:49.140

Angela Stoddard: Actually, we are mixed.

257

00:41:50.190 --> 00:42:00.630

Angela Stoddard: More or less we are mixing scores were mixed everywhere, but if you go to like some other person person or not so lacking so developed, you will find only one nation.

258

00:42:01.380 --> 00:42:18.420

Angela Stoddard: And that there are like have this kind of a fear of other like I personally know one girl that doesn't know how much similar because in briscoe we have Latina and Cyrillic letters and I know people that are not able to write serialization there from Bosnia and.

259

00:42:18.780 --> 00:42:23.220

Angela Stoddard: Things was a groups which is kinda like you know sucks.

260

00:42:25.020 --> 00:42:25.350

Salim Stokey: and

261

00:42:25.620 --> 00:42:27.360

Angela Stoddard: yeah that was literally like.

262

00:42:28.410 --> 00:42:42.240

Angela Stoddard: Everybody needs this in Boston because it is divided, we want to say it's connected, but I cannot say I think it's still still has dislike division supplemental division everywhere.

263

00:42:43.560 --> 00:42:52.260

Salim Stokey: And with with you guys is projects, do you notice that there's like people from one ethnicity coming more than like others or.

264

00:42:53.220 --> 00:42:53.520

Angela Stoddard: Is it.

265

00:42:53.550 --> 00:42:55.200

Salim Stokey: Quite evenly divided like.

266

00:42:55.980 --> 00:42:56.310

Angela Stoddard: and

267

00:42:56.400 --> 00:43:00.000

Salim Stokey: If not, then, how are you guys trying to like learn more.

268

00:43:00.420 --> 00:43:01.080

Diversity.

269

00:43:04.800 --> 00:43:19.680

Angela Stoddard: I think in sweetest people are pretty much mixed because people who have you're pretty much open minded and create two people, and we have, like many backgrounds me Hello girls good job we have.

270

00:43:21.090 --> 00:43:22.470

Angela Stoddard: Our people like.

271

00:43:22.650 --> 00:43:24.630

Angela Stoddard: it's kind of a mix here.

272

00:43:25.800 --> 00:43:30.180

Angela Stoddard: Because it's really neutral so maybe talk more about this.

273

00:43:34.320 --> 00:43:36.360

Salim Stokey: Only only have you have anything.

274

00:43:37.980 --> 00:43:41.280

Dina Vosanovic: Oh, like it's pretty much just adding said sorry.

275

00:43:42.390 --> 00:43:59.640

Dina Vosanovic: We had questions from international people for is like, how do I recognize, who is a surprise and Muslim Boston like can I see her face no and, of course, if my son funny but in psychological for people that are not from here to ask.

276

00:44:00.660 --> 00:44:02.520

Dina Vosanovic: How can I serve.

277

00:44:04.470 --> 00:44:10.650

Dina Vosanovic: So it's actually by the name and it's actually by this little paper when when people die.

278

00:44:11.280 --> 00:44:21.630

Dina Vosanovic: They put this like papers on the walls everywhere in town so by color you can recommend boys who, and this, like all sound like a nonsense honestly because.

279

00:44:22.110 --> 00:44:35.580

Dina Vosanovic: All three nationalities and ethnicities have the same issues like unemployment like lack of money, lack of jobs, blah blah, so I cannot say that we have.

280

00:44:36.150 --> 00:44:48.990

Dina Vosanovic: That there is like more people from one nation coming into the activities, I would rather say it's totally mixed like it's really, really mixed and i'm very happy about it, and we also had cases.

281

00:44:50.100 --> 00:45:03.510

Dina Vosanovic: Where parents forbid yeah they were like young adults like 1718 years old and one girl was not allowed to come to our workshops, because she was a CERT like her family's serve.

282

00:45:04.170 --> 00:45:15.060

Dina Vosanovic: And works with other people here as well, so her mom because of Traumas from the war, she said no, like you, can't go there, because these people are different and then she was hiding.

283

00:45:15.390 --> 00:45:25.110

Dina Vosanovic: It from her parents that did she was coming here so eventually I invited her mom to come to the youth Center to me to ask to see us to talk to us.

284

00:45:25.620 --> 00:45:36.870

Dina Vosanovic: And to see that we are not like like an underground something you know some like dark organization doing drugs or whatever, or like being really fascists.

285

00:45:38.160 --> 00:45:49.650

Dina Vosanovic: towards other nations is just that she sees this, this is a like a public building for everyone who wants to come in and do something, and she did come, and I was really, really happy.

286

00:45:50.010 --> 00:45:58.470

Dina Vosanovic: And we did talk and, at the end, she hugged me and she said okay now i'm kind of relieved and i'm so happy that.

287

00:45:59.100 --> 00:46:04.230

Dina Vosanovic: you're here so like that that wasn't like a little little step in dislike peace building thing but it's.

288

00:46:04.680 --> 00:46:11.460

Dina Vosanovic: really important to get people to invite them and to try to talk to them like openly and to tell them okay.

289

00:46:11.970 --> 00:46:22.440

Dina Vosanovic: they're all in the same shit sorry for the verb we all have same problems we all have the same issues and we have to come together, like we have to come together in order.

290

00:46:22.770 --> 00:46:40.230

Dina Vosanovic: to survive the life in this region because it's very, very hard it's really hard So yes, like my point is, we had everyone coming in and there's no like bigger number of this or that it can be city yeah.

291

00:46:40.590 --> 00:46:42.180

Salim Stokey: And you mentioned that like.

292

00:46:43.260 --> 00:46:49.350

Salim Stokey: This, for example, that despaired but our in general, our patterns responding to.

293

00:46:50.790 --> 00:46:54.990

Salim Stokey: kids like engaging in these positive or negative words it's.

294

00:46:56.850 --> 00:46:59.580

Dina Vosanovic: it's like most of the parents.

295

00:47:06.420 --> 00:47:06.900

Dina Vosanovic: Okay.

296

00:47:07.950 --> 00:47:16.200

Dina Vosanovic: But their grandparents they remember this war, and some of the grandparents remember the Second World War.

297

00:47:16.770 --> 00:47:22.170

Dina Vosanovic: So it's always this like you shouldn't mix with this person, because she belongs to other.

298

00:47:22.740 --> 00:47:37.890

Dina Vosanovic: ethnicity, you should stay with your people, and this was like since 1900 14 maybe like since since the First World War, so it's still going on, people have this memories a then they.

299

00:47:38.400 --> 00:47:49.440

Dina Vosanovic: Remember what happened in the history and they're afraid that is going to happen again me to like i'm really afraid that we will have a war in the next five years, like my.

300

00:47:50.100 --> 00:48:00.390

Dina Vosanovic: grandfather was in a war, my father was in a war, I was in a horse so i'm expecting that if I have kids still will be in a war as well, because this.

301

00:48:02.250 --> 00:48:10.050

Dina Vosanovic: region is kind of like that you know so, but there is a lot of.

302

00:48:11.400 --> 00:48:13.680

Dina Vosanovic: How should I express this in English like there's a lot of.

303

00:48:15.810 --> 00:48:24.270

Dina Vosanovic: Awareness maybe it's a good word of like this, like peace building thing and like this took tolerance thing where luckily.

304

00:48:24.540 --> 00:48:35.760

Dina Vosanovic: We have this kind of like a new generations coming into they don't care about things that happened like 25 years ago and they are aware, the things need to be.

305

00:48:36.210 --> 00:48:44.310

Dina Vosanovic: going on, and then we have to live together, so I think it's like in the whole world it's like people are divided so.

306

00:48:44.670 --> 00:48:49.650

Dina Vosanovic: Some people think it's cool to go somewhere and like be with different people and some of them say.

307

00:48:50.220 --> 00:48:59.040

Dina Vosanovic: it's not Okay, you should stay just with with your people, and there is this like this really good example with covered like there is this.

308

00:48:59.460 --> 00:49:09.000

Dina Vosanovic: thing gets started in China blah blah blah, however, and we do have a student on guitar she is Chinese and her family lives here, you know.

309

00:49:09.660 --> 00:49:19.860

Dina Vosanovic: So, after the restrictions when the youth Center was open again she's 12 years old, and she has no clue what is going on.

310

00:49:20.250 --> 00:49:29.970

Dina Vosanovic: And when she was entering the youth Center they were like two men in front saying like oh my God she's Chinese and she got us the fires like she did it literally.

311

00:49:30.330 --> 00:49:46.830

Dina Vosanovic: And this is the thing like these kind of things happen everywhere so like it's not just about serves us next and crowds like it's actually about everything that is different, that we're kind of used on it, you know so yeah it's a complicated.

312

00:49:47.640 --> 00:49:50.760

Dina Vosanovic: yeah it's really complicated yeah yeah.

313

00:49:51.030 --> 00:49:53.010

Salim Stokey: um let me see.

314

00:49:54.630 --> 00:50:12.030

Salim Stokey: So, since like the time is almost like over like is I would already like want to ask intersect anything you guys really want to add to this to this interview that I haven't specifically asked like some experience that might need a refund or some.

315

00:50:13.050 --> 00:50:19.260

Salim Stokey: Some way of thinking that is really important for this project that we haven't discussed yet.

316

00:50:23.340 --> 00:50:23.790

Salim Stokey: So.

317

00:50:25.320 --> 00:50:27.990

Salim Stokey: If not i'm, although I just asked something else, though.

318

00:50:29.040 --> 00:50:42.690

Salim Stokey: yeah okay um so i'm like then some a little bit more logistical like how how many products are there sort of happening right now like, how many kids like what's the reach of the projects.

319

00:50:43.560 --> 00:50:54.180

Salim Stokey: Like I don't know like in general but i'm also curious like into like, for example, like one workshop or something and how, on average, how many kids are you talking to.

320

00:50:55.260 --> 00:50:56.670

Salim Stokey: In that sense, maybe.

321

00:50:58.890 --> 00:51:01.620

Salim Stokey: A demon and good, I can answer this one, or something.

322

00:51:05.730 --> 00:51:18.360

Angela Stoddard: I can see on the workshop that I run the workshops with smoke it's I have an outage it depends it's like open like let's say, welcome to 25 sometimes 30.

323

00:51:19.350 --> 00:51:30.930

Angela Stoddard: days and the main impact as well the parents and the grandparents of those skills mingle outside and there as well, from the backgrounds so that's that's the other part, is really.

324

00:51:32.580 --> 00:51:34.740

Angela Stoddard: Good and then there are people who bring them.

325

00:51:35.070 --> 00:51:37.050

Angela Stoddard: hmm so let me repeat.

326

00:51:37.350 --> 00:51:38.070

Salim Stokey: after it.

327

00:51:39.270 --> 00:51:39.840

Angela Stoddard: it's not yes.

328

00:51:40.020 --> 00:51:40.650

Angela Stoddard: So it.

329

00:51:41.040 --> 00:51:42.660

Salim Stokey: Does okay okay.

330

00:51:43.080 --> 00:51:44.850

Angela Stoddard: that's very interesting actually yeah.

331

00:51:46.890 --> 00:51:49.110

Salim Stokey: How many projects are running.

332

00:51:51.270 --> 00:52:02.790

Angela Stoddard: Daily bookshelves guitar workshops workshops somebody musics really cool workshop we have endorsed malcolm's workshop six we have more.

333

00:52:06.720 --> 00:52:07.740

Angela Stoddard: six or seven.

334

00:52:08.130 --> 00:52:10.860

Angela Stoddard: Okay, seven seven workshops.

335

00:52:13.980 --> 00:52:14.520

Salim Stokey: Okay okay.

336

00:52:16.470 --> 00:52:16.950

Salim Stokey: and

337

00:52:17.580 --> 00:52:19.350

Angela Stoddard: yeah 60 to 80 people.

338

00:52:20.400 --> 00:52:23.130

Angela Stoddard: I think more than six to eight people per month.

339

00:52:25.230 --> 00:52:27.030

Salim Stokey: So that's quite a lot actually and then like.

340

00:52:27.510 --> 00:52:28.290

If that's correct.

341

00:52:29.610 --> 00:52:30.030

Salim Stokey: And then.

342

00:52:31.650 --> 00:52:37.860

Salim Stokey: The 60 to 80 people are they like, therefore, like in long preparing or otter new people coming.

343

00:52:37.860 --> 00:52:38.370

Salim Stokey: In and.

344

00:52:39.270 --> 00:52:41.370

Angela Stoddard: Often, how do.

345

00:52:42.600 --> 00:52:48.690

Angela Stoddard: We have we have a main group of people coming in the to them, we get up like.

346

00:52:49.710 --> 00:52:58.650

Angela Stoddard: let's say for say i'm part of the summer musical for years now and then I like bring a friend, that I know that is a musician or like.

347

00:52:59.190 --> 00:53:16.020

Angela Stoddard: Just being around the procedure, he come and that's how the to the most of the promotion, I think the best kind of Moses to people like or some new people come to the Brits workshops or the children come to my room are mostly to other children.

348

00:53:17.310 --> 00:53:19.920

Angela Stoddard: or workshops like so our websites.

349

00:53:26.610 --> 00:53:28.890

Salim Stokey: So I can't hear you well.

350

00:53:30.270 --> 00:53:42.900

Angela Stoddard: i'll try again listen, but we are getting a bit in the older other movie that workshops are getting talked about is things happening in these Center so a friend is day saying I heard about poetry workshop.

351

00:53:45.180 --> 00:53:46.410

Angela Stoddard: A yoga workshop.

352

00:53:47.670 --> 00:53:59.820

Angela Stoddard: My friends, with the yoga said before this there was no free yoga available, and when you don't have an income and your parents might not have a lot of money, all our workshops are free, which is also a big draw in this Community as well.

353

00:54:02.640 --> 00:54:03.750

Salim Stokey: Yes, yeah.

354

00:54:07.350 --> 00:54:14.850

Dina Vosanovic: Yes, if I just remember like one really, really important thing as we get people from.

355

00:54:15.510 --> 00:54:34.230

Dina Vosanovic: Other countries to volunteer we also send young local people from here to Slovenia, Germany, Italy, I don't, like many other countries, so the good thing about it is that people from the whole Boston I can apply, and of course there are like different nationalities applying together.

356

00:54:35.730 --> 00:54:44.610

Dina Vosanovic: Usually in a normal daily life, they may be wouldn't talk to each other, like maybe what mingle with each other, because of their interest, like religion, ethnicity blah blah.

357

00:54:45.090 --> 00:54:52.680

Dina Vosanovic: But when they traveled together and when they are forced to live together, for example in Germany they really get.

358

00:54:53.310 --> 00:55:00.750

Dina Vosanovic: To understand that they like each other and they they should live together any real like it doesn't matter if in Germany or Bosnia.

359

00:55:01.290 --> 00:55:09.600

Dina Vosanovic: and actually they become good friends so like this is other way of like this peace building things like sending young people from here.

360

00:55:10.080 --> 00:55:18.270

Dina Vosanovic: Outside and just like making them actually understand that they are the same, you know, and this is like a really cool thing and i'm so sorry I didn't.

361

00:55:18.660 --> 00:55:26.250

Dina Vosanovic: set in the beginning, I wanted that I forgot that this is, you know, like to me that's like personally of really, really cool thing to do, yeah.

362

00:55:27.330 --> 00:55:27.630

Dina Vosanovic: yeah.

363

00:55:27.750 --> 00:55:30.810

Salim Stokey: So, like them, working together done that makes them.

364

00:55:31.830 --> 00:55:32.550

Dina Vosanovic: That yes.

365

00:55:32.790 --> 00:55:39.120

Dina Vosanovic: Because they leave their hometown they leave their country their parents friends and they're on their own.

366

00:55:39.330 --> 00:55:47.100

Dina Vosanovic: So they're like they actually need each other in order to get easier through the new tasks and challenges and everything.

367

00:55:48.240 --> 00:56:03.390

Dina Vosanovic: And they would usually never talk to each other, because he's a serve, and he is a bustling but being together in a natural place in Germany they do get together actually you know, like that's really, really cool thing yeah.

368

00:56:07.020 --> 00:56:10.590

Salim Stokey: yeah it does.

369

00:56:10.710 --> 00:56:13.050

Salim Stokey: I think this is the end of the interview.

370

00:56:13.890 --> 00:56:20.070

Salim Stokey: Since I feel like i've covered, like, I think it is a good picture of what you guys are doing and.

371

00:56:21.180 --> 00:56:22.500

Salim Stokey: sort of what the effects are.

372

00:56:24.210 --> 00:56:32.490

Salim Stokey: If I isn't Okay, if I email you guys still like later if I have like any questions like that I would like some more answers yeah okay that's great.

373

00:56:33.090 --> 00:56:40.140

Salim Stokey: And I also already saw that Malcolm and Angela send me their consent forms like dina and.

374

00:56:40.650 --> 00:56:49.740

Salim Stokey: I didn't like whenever you guys have time to just send like I don't need an hour today necessary, but I will send a reminder later I don't see it looks.

375

00:56:50.700 --> 00:57:01.800

Salim Stokey: done then that's Okay, I really want to thank you guys for participating and helping me out with this project, actually, and I wish you a very good day.

376

00:57:02.820 --> 00:57:03.180

Thank you.

377

00:57:05.550 --> 00:57:07.230

Salim Stokey: All right, bye bye.

Safet Saric (PCRC) – Zoom – May 20

1

00:00:01.620 --> 00:00:03.210

Salim Stokey: Yes, yes.

2

00:00:04.500 --> 00:00:22.920

Salim Stokey: Okay, great so yeah I guess that you said that you read all the documents, and so, when I go into insurance like I am 21 years old and i'm based here in The Hague in the Netherlands, but i'm like I study at Latin university.

3

00:00:23.970 --> 00:00:28.260

Salim Stokey: i'm doing this research as part of my thesis for international relations.

4

00:00:29.760 --> 00:00:39.000

Salim Stokey: impetuous Nice and Nice and yeah my my research interests in general, our of our half become actually peacebuilding and security.

5

00:00:40.800 --> 00:00:54.600

Salim Stokey: Agenda like now i'm really trying to explore how social transformation can mechanisms can lead to peace, instead of more liberal peace building institutions voting and democracy.

6

00:00:56.130 --> 00:01:09.930

Salim Stokey: And yeah and then like, for my project specifically i'm looking at our space projects in Bosnia, and for that i've already spoken to a few different people, for example, someone from a project in Missouri.

7

00:01:11.160 --> 00:01:20.280

Salim Stokey: From what's called the most moldy and another project firefly don't know if you're familiar with it it's in block or in the north.

8

00:01:21.390 --> 00:01:28.530

Salim Stokey: In it's a super sweet sweet talk, but yes, you targeting it's a name in Boston or something.

9

00:01:29.190 --> 00:01:32.670

Salim Stokey: Yes, yeah and and as well, a.

10

00:01:33.120 --> 00:01:43.410

Salim Stokey: Another organization Swedish organization actually that worked with a local organization called most media, which is from the gradual creepy.

11

00:01:43.710 --> 00:01:45.150

Safet ?ari?: yeah yeah.

12

00:01:47.100 --> 00:02:02.250

Salim Stokey: So that's what i've done so far, actually, and of course i've read a lot about the conflict and about the different ways arts can help and listening and yeah and now I am really happy to talk to you at least I.

13

00:02:03.870 --> 00:02:17.940

Salim Stokey: I saw that you, you have several jobs actually within the post conflict research Center like a it sets a general manager, but as well, what does it say like.

14

00:02:18.690 --> 00:02:28.620

Salim Stokey: You do you're like manager polishing and technical operations on the bulk of discourse and program developers well what's what's the projects.

15

00:02:29.970 --> 00:02:36.630

Salim Stokey: What what programs do I can imagine with that with the program the upper part of your job.

16

00:02:37.980 --> 00:02:46.470

Safet ?ari?: The thing is, we as a PC was established as a really, really instill is a really small organization, we are grassroots and.

17

00:02:47.160 --> 00:02:55.140

Safet ?ari?: Our team literally nowadays has six members, but the core team what is like four members of staff.

18

00:02:55.980 --> 00:03:04.770

Safet ?ari?: with so little people on board and with so many projects and things that we have done so far and that we are currently doing we don't have.

19

00:03:05.310 --> 00:03:14.460

Safet ?ari?: Strict assignments and strict rules within the organization, so my official title says general manager, but I tend to do a little bit of everything so.

20

00:03:14.790 --> 00:03:31.230

Safet ?ari?: I help with financing, I do translation I help with organizing the projects, I do logistics and so on and so on, so the more suitable title for this mix of of of activities we found in in the title general manager.

21

00:03:31.470 --> 00:03:38.520

Safet ?ari?: yeah i've been with with to the organization, since the funding, since the foundation of it in 2011.

22

00:03:40.530 --> 00:04:01.920

Safet ?ari?: Earlier before before PCR See also worked in couple of smaller NGOs here in Sarajevo, mostly as a researcher and journalist, the organizations were mostly focused on the Euro Atlantic integrations of busting her sylvania and in 2011 the things.

23

00:04:03.030 --> 00:04:21.360

Safet ?ari?: got together in a way that that I was there for the first conference that we organized as a team for PC RC and ever since then i've been working on pretty much every single project that we did the the topic of your research is something that is really, really interesting for.

24

00:04:22.440 --> 00:04:38.730

Safet ?ari?: us as an organization, but I will also say for Bosnia society in general, if you did if you did your research on on the conflict in in Boston so any I will see that media not media art did a.

25

00:04:39.900 --> 00:04:43.350

Safet ?ari?: Had a massive role in during the conflict.

26

00:04:43.530 --> 00:04:45.210

Safet ?ari?: Especially for for.

27

00:04:46.080 --> 00:04:58.410

Safet ?ari?: During the siege of sorry EVO you if you if you Google a little bit about it you'll see that the seizure server was the longest modern day in siege in modern history.

28

00:05:00.300 --> 00:05:09.840

Safet ?ari?: And during this process, the city was completely shut off there was nothing coming in going out but still within the city itself as part of this.

29

00:05:11.550 --> 00:05:13.620

Safet ?ari?: resistance movement and and and.

30

00:05:14.730 --> 00:05:20.010

Safet ?ari?: spirit of people who were living here, there were still art and and.

31

00:05:21.450 --> 00:05:26.010

Safet ?ari?: cultural activities going on, we still had people were gathering for concerts.

32

00:05:26.400 --> 00:05:28.050

Safet ?ari?: For gigs you know for.

33

00:05:28.080 --> 00:05:28.470

For.

34

00:05:29.850 --> 00:05:44.370

Safet ?ari?: yeah plays and so on and so on, so when we were formed when we decided to form the CRC in 2011 we came to realize that the media in Bosnia and Herzegovina, and this whole.

35

00:05:46.290 --> 00:05:52.890

Safet ?ari?: narrative regarding the war is very negatively focused on you know the the.

36

00:05:54.270 --> 00:06:01.740

Safet ?ari?: I wouldn't say the victims, but like on strictly focused on crimes that the media and and everything was constantly saturated with.

37

00:06:02.400 --> 00:06:22.080

Safet ?ari?: Images from from the war, you know bombardments destroyed cities and so on and so on, and while we understand that this is important in the peace building process or of you know, talking about the past and presenting the crimes as they were we also came to realize that.

38

00:06:23.370 --> 00:06:34.470

Safet ?ari?: Different approach may be needed, especially for the younger generations in Bosnia Herzegovina for the generations who were born during the war or post war, they don't really know what happened.

39

00:06:35.280 --> 00:06:39.120

Safet ?ari?: A lot of them are constantly being bombarded by negative.

40

00:06:40.530 --> 00:07:00.840

Safet ?ari?: narratives which made them form prejudice against members of other ethnic groups which led into more and more divisions so as an organization, we tried to focus on positive stories from the war, we tried to focus on on people who, instead of.

41

00:07:01.950 --> 00:07:08.490

Safet ?ari?: committing crimes killing members of the other of the others, so, so to speak.

42

00:07:08.790 --> 00:07:10.980

Safet ?ari?: we're actually helping and saving.

43

00:07:12.060 --> 00:07:21.870

Safet ?ari?: People from other ethnic and religious groups, so our first project and the one that is probably the most interesting for for your research is the ordinary heroes project.

44

00:07:22.320 --> 00:07:27.090

Safet ?ari?: which basically formed our organization and I like to call it the Crown jewel of.

45

00:07:27.480 --> 00:07:28.200

The CRC.

46

00:07:29.640 --> 00:07:33.060

Safet ?ari?: The project itself started as a.

47

00:07:34.320 --> 00:07:47.400

Safet ?ari?: photo exhibition which showcased positive stories of rescuers behavior and of moral courage of people in Bosnia and Herzegovina in Cambodia, Rwanda and from the Holocaust.

48

00:07:48.450 --> 00:07:53.940

Safet ?ari?: It was done in collaboration with an organization from the US called proof medium.

49

00:07:55.140 --> 00:07:59.100

Safet ?ari?: By which was led by Miss I think it still is by Miss Laura can.

50

00:08:00.360 --> 00:08:20.490

Safet ?ari?: And we, as an organization did the well still not as an organization at that moment but later on, we were formed, but our founder and director velma was the the leading researcher and the person who did the portion Bosnian portion of that project we took the exhibition.

51

00:08:21.720 --> 00:08:38.790

Safet ?ari?: exhibition was set here in sorry able for 15 days and the main square that when I say exhibition we're talking about 20 really big two by three panels with photos and the stories of these survivors and people they saved written on on on.

52

00:08:40.230 --> 00:08:48.480

Safet ?ari?: In this exhibition, so we would set it we said it here in the city square in in Syria, where people would actually get the chance to walk and see what's going on.

53

00:08:49.710 --> 00:08:55.200

Safet ?ari?: The project was supposed to be a one time deal, so it was supposed to be set up and that's it.

54

00:08:56.070 --> 00:09:02.640

Safet ?ari?: But we came to realize that we had a really, really nice feedback from a population from people who saw it.

55

00:09:03.210 --> 00:09:18.510

Safet ?ari?: Especially from the younger generations, we had kids who were saying like this is the first time i'm seeing something like this, so we came to realize that there was a huge potential in in not only the project itself, but in this way of displaying and.

56

00:09:19.560 --> 00:09:24.000

Safet ?ari?: The depicting moral courage rescuer behavior and true it.

57

00:09:25.590 --> 00:09:37.920

Safet ?ari?: You know showcasing these showcasing the story building peace and positive narratives with with in younger generations so we started developing the project project more and more and more and more and.

58

00:09:38.970 --> 00:09:44.940

Safet ?ari?: In its final form, so to speak, the project consistent out of four portions.

59

00:09:45.540 --> 00:09:54.480

Safet ?ari?: The first one was workshop for the for the kids we call them kids, but we are talking about high school students basically.

60

00:09:55.500 --> 00:09:55.920

Salim Stokey: Training.

61

00:09:56.460 --> 00:10:09.030

Safet ?ari?: Yes, exactly so basically the the workshop itself was designed as a two day workshop where we would go to the local municipalities, we would get kids from from high school.

62

00:10:10.410 --> 00:10:27.990

Safet ?ari?: We would mix them together in a in a classroom and we would work with them the we developed a whole methodology for for the workshops in Kabul collaboration with Professor admin style we focused or a far worship materials on his books on peace building.

63

00:10:29.550 --> 00:10:29.910

Safet ?ari?: and

64

00:10:31.350 --> 00:10:45.360

Safet ?ari?: We would get these kids to learn about moral courage and rescuers behavior generally so everyday situations within modern their their lives basically from from school from everyday living outside.

65

00:10:45.750 --> 00:10:58.950

Safet ?ari?: And then we would easily transfer them into the war situations and explain to them how and when people helped others what's rescuers behaviors what's bystanders ship what's moral courage and so on and so.

66

00:11:00.150 --> 00:11:18.270

Safet ?ari?: We are the first I think so far I haven't seen anybody else do it, we are the first NGO in Bosnia Herzegovina which actually did evaluation of its work on the ground, so we hired an external audit Professor Sabina to hide clancy, who is a world renowned.

67

00:11:19.380 --> 00:11:28.770

Safet ?ari?: expert in in this field to organize evaluations for for our projects and after these workshops and after spending time.

68

00:11:29.310 --> 00:11:40.050

Safet ?ari?: with members from opposite groups and after learning about moral courage rescues behavior and everything that came with the project of ordinary heroes, we saw a shift.

69

00:11:40.440 --> 00:11:52.680

Safet ?ari?: In opinion in these kids who approached our workshops in about 74.3% in their opinions on whether or not they would socialize with members of opposite ethnic group.

70

00:11:53.010 --> 00:12:05.070

Safet ?ari?: Whether or not, they would become close friends with them, whether or not they would, in the future, consider marrying somebody from the opposite ethnic groups, work with them collaborate on projects and so on and so on.

71

00:12:06.750 --> 00:12:22.170

Safet ?ari?: The second part of the of the of the ordinary heroes project was and remains the ordinary heroes for the graphic exhibition which we took to I think 30 local municipalities in Bosnia and Herzegovina.

72

00:12:23.400 --> 00:12:29.280

Safet ?ari?: can't exactly remember on the numbers, because this was in 2015, but I can you can check it out on on our website.

73

00:12:30.570 --> 00:12:38.970

Safet ?ari?: The what we came to realize not only well to that project but later on, it became a role model in our in our in the work of our organization.

74

00:12:39.390 --> 00:12:51.690

Safet ?ari?: Is that majority of NGOs in Bosnia and Herzegovina focus their work on three centers of power which are study of a master and by the three biggest cities within the so called ethical communities.

75

00:12:52.440 --> 00:12:57.810

Safet ?ari?: We came to realize that local communities small cities in Bosnia Herzegovina don't have.

76

00:12:58.650 --> 00:13:10.260

Safet ?ari?: anything happening there, regarding the peace building projects very, very few numbers number of NGOs would go to local communities and they were basically restricted.

77

00:13:11.400 --> 00:13:24.630

Safet ?ari?: To if they had luck, the luck, of having a local NGO working on something is building related If not, they were basically left on the margins, so we focused on taking our exhibition.

78

00:13:25.380 --> 00:13:32.280

Safet ?ari?: The ordinary heroes exhibition into local communities traveling setting the exhibition there.

79

00:13:32.850 --> 00:13:38.490

Safet ?ari?: We also realize that this model of setting the exhibition on the main square is the most impactful because.

80

00:13:38.910 --> 00:13:44.250

Safet ?ari?: If you as an organization come and hire a gallery or a hotel or something where you're going to exhibit.

81

00:13:44.580 --> 00:13:55.650

Safet ?ari?: Your exhibition, not a lot of people are willing to go, and you know waste time, so to speak, because the economic situation in Boston is, as you probably get the chance, had the chance to see is pretty hard so people are.

82

00:13:56.850 --> 00:14:06.240

Safet ?ari?: A peace building process is something that's unfortunately on the margins, due to the fact that the economical situation is so bad people don't really have the time to.

83

00:14:06.870 --> 00:14:13.710

Safet ?ari?: Think or or study or learn about what happened in the past, if you don't have food on your table if you know what I mean.

84

00:14:14.190 --> 00:14:27.660

Safet ?ari?: So we came to realize that this is going to make the most impact on the local communities, if they can see the exhibition while going to buy groceries in the local store, you know or just passing by or going out for a walk in the evening.

85

00:14:28.800 --> 00:14:35.730

Safet ?ari?: So, and we also tried to empower local organizations.

86

00:14:36.240 --> 00:14:45.750

Safet ?ari?: Wherever we got the chance so wherever we went as an organization with our ordinary heroes project we always contacted, even though we are a small organization ourselves, but we contacted local.

87

00:14:46.290 --> 00:14:57.150

Safet ?ari?: peacebuilding organization, if there are none, then we went to local youth Community centers to young activists whomever we could find who was working on on on these building processes.

88

00:14:57.720 --> 00:15:15.510

Safet ?ari?: We would try to include them in helping us, you know set up everything we would give them visibility, we would promote them to our organization include them in our network and so on and so on the third portion of the ordinary heroes project came.

89

00:15:16.830 --> 00:15:29.040

Safet ?ari?: sort of as an as an idea from outside, but we embraced it and we saw that this is something that was also really important, and those are documentaries about.

90

00:15:30.840 --> 00:15:41.040

Safet ?ari?: rescuers from from Bosnia and Herzegovina, we made for so far, we had two more in the making, but unfortunately we didn't have quite the funding.

91

00:15:41.700 --> 00:15:55.560

Safet ?ari?: nor the time you to our other projects to finish them as well, but the four stories that we did make in collaboration with our partner from Italy, Mr Mayor copying shelley from the pinch media.

92

00:15:57.510 --> 00:15:58.470

Safet ?ari?: became.

93

00:15:59.520 --> 00:16:04.710

Safet ?ari?: An amazing tool to include into our workshops, because then we had.

94

00:16:05.790 --> 00:16:17.400

Safet ?ari?: A great way of involving younger generations and approaching them in a way that they didn't really get the chance to be approached earlier what we came to realize through our work is that.

95

00:16:17.850 --> 00:16:26.220

Safet ?ari?: majority of the big NGOs when they organize these building events what they would do is they were organize a conference.

96

00:16:26.700 --> 00:16:35.250

Safet ?ari?: get young people to sit for two or three hours have lectures come give them lectures eat the steak and go home.

97

00:16:36.090 --> 00:16:54.990

Safet ?ari?: And there was very, very little what these people would for a kid who's 1819 years old, he doesn't really want to be deeply involved into you know, unless you are studying like you yourself are you don't really want to listen to a lecture that's you know five hours long about peacebuilding.

98

00:16:55.110 --> 00:17:11.640

Safet ?ari?: yeah so we came to realize that we can grab their attention much, much better if we present this these stories to them via video by a photo exhibition where photo essay or an oral story which is done in audio format and so on and so on.

99

00:17:12.960 --> 00:17:22.470

Safet ?ari?: whenever and wherever we showcase these documentaries young people but also older generations who got the chance to see it were.

100

00:17:23.010 --> 00:17:36.750

Safet ?ari?: Either coming out crying or were you know so inspired and so happy to be members of you know you feel pride, when you see that somebody from from your group wasn't committing crimes, but actually saved others.

101

00:17:38.340 --> 00:17:48.360

Safet ?ari?: Throughout this whole process, we are talking about two or three years, while we were constantly working moving the exhibition setting the workshops doing documentaries.

102

00:17:49.170 --> 00:18:05.100

Safet ?ari?: We also came to realize that we have to maintain presence within these local communities and we did see other people who we you know worked with so we came on the end on the idea of organizing a huge competition.

103

00:18:06.210 --> 00:18:17.370

Safet ?ari?: which we symbolically name so john Alex each I don't know if you heard about the story of a gen X, he was he was a young Bosnian Serbs kid from from traveling who.

104

00:18:17.970 --> 00:18:30.510

Safet ?ari?: helped who saved his friend from high school, who was a Muslim, who was being beaten by Bosnian Serbs soldiers and by saving him they started beating him and they beat him to death.

105

00:18:31.770 --> 00:18:36.750

Safet ?ari?: And in his honor we decided to name the competition such an Alex.

106

00:18:37.830 --> 00:18:39.690

Safet ?ari?: And we.

107

00:18:41.010 --> 00:18:45.480

Safet ?ari?: challenged these young people's wherever we went in these local communities to.

108

00:18:46.110 --> 00:18:56.490

Safet ?ari?: search locally for positive stories of moral courage of rescuers behavior of people who helped others in any possible way during the conflict.

109

00:18:57.030 --> 00:19:07.050

Safet ?ari?: And we gave them the possibility to do it in whatever format, they want, so a written essay a photo essay now do a short video I did, whatever they wanted.

110

00:19:07.680 --> 00:19:19.020

Safet ?ari?: We showcase Their stories to our website, we picked winners and we help them financially we dedicated a portion of the project as a price reward for for.

111

00:19:20.040 --> 00:19:20.760

Safet ?ari?: These people.

112

00:19:21.870 --> 00:19:33.420

Safet ?ari?: So the project was a and we still consider it as a still developing constantly moving project, we had a huge.

113

00:19:34.500 --> 00:19:44.760

Safet ?ari?: amount of people who had the chance to see it while it was set in local buzzing in communities, and then we also had a lot of people, seeing it because the.

114

00:19:45.210 --> 00:20:05.190

Safet ?ari?: United Nations Web TV actually showcased one of the documentaries in shorter edit but they they broadcast it through their UN Web TV and according to their statistics, I think that over 1.3 million people had the chance to see the documentary so.

115

00:20:06.420 --> 00:20:10.590

Safet ?ari?: It made it really made an impact and as a.

116

00:20:11.700 --> 00:20:19.410

Safet ?ari?: As a validation of of the the the impact the project did in 2015 we were awarded the.

117

00:20:19.860 --> 00:20:28.440

Safet ?ari?: Intercultural innovation award by the United Nations alliance of civilization and the BMW group as the most innovative peace building project.

118

00:20:28.800 --> 00:20:41.880

Safet ?ari?: In the whole world so we're talking about I think 680 different peace building projects from all around the world and the ordinary heroes project was deemed as the most the most impactful and and the best.

119

00:20:42.900 --> 00:20:53.100

Safet ?ari?: innovative approach to to peace building, also the methodology which we developed for the project was included in the US.

120

00:20:54.150 --> 00:21:07.410

Safet ?ari?: is building toolkit so the Council of Europe actually made it the official toolkit for the peace building approaches in I think 60 or 58 or 68 countries i'm not exactly sure on the number.

121

00:21:09.600 --> 00:21:15.630

Safet ?ari?: So yeah the the project we are still thinking on how we can.

122

00:21:16.860 --> 00:21:19.560

Safet ?ari?: incorporate the project we had ideas of.

123

00:21:20.610 --> 00:21:29.850

Safet ?ari?: REACH going into into schools in in Bosnia Herzegovina and trying to reach as much of the younger generation as we could, unfortunately.

124

00:21:30.660 --> 00:21:41.190

Safet ?ari?: The whole structuring of the Bosnian Government with all these layers of government makes it really, really hard for the NGOs to get into schooling system.

125

00:21:43.770 --> 00:21:53.280

Safet ?ari?: it's not only the problem of asking for permissions, the problem is that the Federation of person or to covina as an entity is divided into 10 cantons, which have their own ministries.

126

00:21:53.910 --> 00:22:00.630

Safet ?ari?: and not even the ministries, have the precise jurisdiction over the high school, so it basically depends.

127

00:22:00.930 --> 00:22:09.840

Safet ?ari?: On the high school principal or the director if whether or not he wants to allow you as an organization to go in and help hold the lecture so you cannot get.

128

00:22:10.260 --> 00:22:16.980

Safet ?ari?: A approval from let's say Ministry of Education of federation and just go wherever you want so it's a.

129

00:22:17.400 --> 00:22:31.620

Safet ?ari?: it's a hard process for us as a really small organization to go through so and we it would require an extensive amount of time and resources resources, just to get the access to to these kids.

130

00:22:33.360 --> 00:22:42.750

Safet ?ari?: Through the ordinary heroes project and everything that we did we sort of developed a methodology for the organization itself and for.

131

00:22:43.500 --> 00:22:55.530

Safet ?ari?: All the other projects which came afterwards and to our surgeon Alec situation competition we came to realize that we can get we can give these young.

132

00:22:56.280 --> 00:23:04.890

Safet ?ari?: People in smaller local communities in Boston or it's going and opportunity to speak about things and issues that they want to talk about because.

133

00:23:05.400 --> 00:23:15.090

Safet ?ari?: To our workshops when we would get to talk with these kids you know they would talk about the the all of the negative impacts of the media.

134

00:23:15.450 --> 00:23:31.860

Safet ?ari?: In in smaller communities, so, for instance, if you are living in a small secure secluded I wouldn't say religion but small secluded sitting in bosnia-herzegovina that the big national broadcasters are the one serving information you have couple of also big.

135

00:23:33.150 --> 00:23:37.800

Safet ?ari?: web portals which were the one dictating the the you know the the.

136

00:23:38.550 --> 00:23:39.240

Salim Stokey: The narrative.

137

00:23:39.300 --> 00:23:54.990

Safet ?ari?: narrative exactly of regardless of what the topic was and these young people were often say like we would like to read or to write about stories, which are important for us, which are you know local So what we came to realize that we can organize.

138

00:23:56.160 --> 00:24:04.530

Safet ?ari?: We can organize a web platform where we would give these kids a chance to write about stories which they find important that's how the idea for ball can discuss was born.

139

00:24:06.000 --> 00:24:08.010

Safet ?ari?: For the first year we organized.

140

00:24:09.150 --> 00:24:17.670

Safet ?ari?: We came to realize that they will need a little bit of guidance, a little bit of mentorship they are younger, most of them never wrote before didn't have.

141

00:24:17.760 --> 00:24:18.660

Safet ?ari?: journalistic ethics.

142

00:24:18.750 --> 00:24:26.130

Safet ?ari?: or researcher experience, so we organized a bulk and discourse media training, where we got.

143

00:24:26.880 --> 00:24:38.910

Safet ?ari?: A professional journalist and a professional photographer to talk to these kids about how to write an article how to do research, how to do fact checking how to take photos.

144

00:24:39.570 --> 00:24:47.640

Safet ?ari?: How to do for the graphic journalism and so on and so on, so we basically provided them with basic skills needed to write.

145

00:24:48.810 --> 00:24:56.760

Safet ?ari?: An article we send them back to their local communities and we gave them the possibility to write about any topic, they want.

146

00:24:57.300 --> 00:25:02.520

Safet ?ari?: It doesn't have to be strictly post conflict related it can be you know, we had book kids writing about.

147

00:25:02.850 --> 00:25:13.920

Safet ?ari?: The ecology, we have kids writing about sports in local communities and so on and so on general problems everyday everyday living for a young person I don't know in but astronauts are in fortune or wherever.

148

00:25:14.850 --> 00:25:27.870

Safet ?ari?: And we also decided to dedicate a portion of our funding as a reward for for their work, so for every article, they would write, we would give them for us it's it's.

149

00:25:28.440 --> 00:25:41.280

Safet ?ari?: We consider it a symbolic reward I don't know 3035 50 euros, but for them, if you get we I don't know how well acquainted, you are with the economic situation in the Boston area but.

150

00:25:41.970 --> 00:25:58.530

Safet ?ari?: like an average salary of a worker in smaller city in Bosnia Herzegovina is around 250 euros, so if a kid who was in high school gets 3040 euros for an article he wrote it makes an impact on his life and at least he's going to have spending money and so on and so on, so.

151

00:25:59.760 --> 00:26:01.440

Safet ?ari?: The idea of bulk on this course, was.

152

00:26:02.760 --> 00:26:18.300

Safet ?ari?: sort of a spark like that, and then we also wanted to give we wanted to to keep an honest street media, which would write about topics which we found important, so we also.

153

00:26:19.860 --> 00:26:40.230

Safet ?ari?: We also decided to expand our our network as much as we can and we started organizing this balcony this course media training, every year, so this was the seventh training in a year that we have just recently in with days I think 20 days ago.

154

00:26:42.090 --> 00:26:52.890

Safet ?ari?: We I am really, really proud to say that this year we had 16 amazing young people activists who are really, really willing to work on and who were just.

155

00:26:53.340 --> 00:27:04.740

Safet ?ari?: amazed that they finally had the chance basically we organize it officially as a conference draining slash conference, but when they actually saw the the.

156

00:27:05.730 --> 00:27:21.120

Safet ?ari?: Information they were given the opportunities they are going to get because, in this period of seven years drew balconies course we are proud to say that some of our youth correspondence and photographers managed to.

157

00:27:22.890 --> 00:27:31.230

Safet ?ari?: You know break through to gain access to bigger media gain access to you know they started careers professional careers.

158

00:27:32.400 --> 00:27:40.560

Safet ?ari?: Starting we consider them like alemany and and pioneers from like our school of journalists in a way, so.

159

00:27:42.120 --> 00:27:54.240

Safet ?ari?: he's building a bulk of this course, was sort of a side project for us, we never planned for it to become this big as it did, but we got so much positive feedback and.

160

00:27:55.980 --> 00:28:04.530

Safet ?ari?: In 2017 don't quote me on the year i'm we have so much years in we were awarded by the.

161

00:28:05.490 --> 00:28:10.830

Safet ?ari?: Australian Embassy and in the Australian Government if you go to balk at this course you'll get the chance to read about it.

162

00:28:11.790 --> 00:28:32.280

Safet ?ari?: 40 international innovation award in journalistic approach you know to to two topics of of these building up so i'm glad to say that, even though it started as a small side project in a way it's developed pretty pretty massively and.

163

00:28:33.390 --> 00:28:43.140

Safet ?ari?: We have we constantly are constantly getting new articles nowadays, because we are such a small organization, we are having problems in keeping up with.

164

00:28:43.530 --> 00:28:46.380

Safet ?ari?: All the all the articles and publishing them on time because.

165

00:28:46.710 --> 00:28:57.210

Safet ?ari?: All of the work that we did the end that we are doing he's always bilingual so everything that these kids do gets translated into English we have professional editors going through their articles.

166

00:28:57.810 --> 00:29:07.740

Safet ?ari?: Trying to improve their skills have helping them with feedbacks you know you can do this better or by getting these photo betters and so on and so on, so.

167

00:29:08.910 --> 00:29:30.330

Safet ?ari?: yeah I think as an organization, we truly realize that there's a huge potential in young people, young generations, but also in approaching peace building, in a way that majority of the old school NGO NGO seen in the peace building sector don't actually do it.

168

00:29:32.070 --> 00:29:36.120

Safet ?ari?: So that's basically the the genesis in a way of.

169

00:29:36.450 --> 00:29:41.700

Salim Stokey: And, and why, why do you publish everything into languages.

170

00:29:42.300 --> 00:29:42.780

well.

171

00:29:44.160 --> 00:29:55.260

Safet ?ari?: Well, we as an organization, we have mobile mostly our donor pool is is international also we came to realize that there are a lot of researchers like yourself who.

172

00:29:55.800 --> 00:30:05.370

Safet ?ari?: would love to read about topics of peace building in in Bosnia Herzegovina, and even though these these stories are done by kids in a way.

173

00:30:06.030 --> 00:30:15.990

Safet ?ari?: We still consider them, important as hot topics in local communities, so we wanted to give give them broader audience to to address so.

174

00:30:16.620 --> 00:30:32.160

Safet ?ari?: Everything that they did is accessible for for internationals, for you know for foreigners coming in and reading about it, so we try to maintain all of our we have we are currently working on another so basically we'll have five websites that which we maintain which are.

175

00:30:33.210 --> 00:30:42.210

Safet ?ari?: yeah which are basically tied to the organization itself and all of them are bilingual so you know we try to keep everything.

176

00:30:42.360 --> 00:30:43.440

Safet ?ari?: Everything translated.

177

00:30:44.610 --> 00:30:53.760

Salim Stokey: And, and you said before, with the, at least with the heroes training you guys did that in over 30 bodies around like around.

178

00:30:54.270 --> 00:31:11.910

Salim Stokey: That, and I think I wreck it was about like a REACH of over 1000 students, where they did they like, how did you guys get these people to participate, I wasn't wasn't a food like a data science software was.

179

00:31:13.110 --> 00:31:20.040

Safet ?ari?: Basically, basically, what we did, like, I told you, the access to the educational system is a horrible mess.

180

00:31:20.340 --> 00:31:21.900

Safet ?ari?: So wherever we decided.

181

00:31:21.930 --> 00:31:34.380

Safet ?ari?: To we had a charted root of the cities where we wanted to go, so we reached out to the organizations which we could in in local communities, if there was, like, for instance in in Brcko there's a huge.

182

00:31:35.220 --> 00:31:48.330

Safet ?ari?: Huge Center called peroni which gathers a lot of young people so Brcko was super easy We contacted them we explained to them about the project, and I said yeah no problem we'll organize so they made a calling for, for you know they.

183

00:31:49.050 --> 00:31:55.680

Safet ?ari?: Put posters in high schools on this, and this day, they will be an organ organization coming for a workshop, and so on and so on.

184

00:31:56.160 --> 00:32:05.040

Safet ?ari?: Then in smaller communities where we didn't get have access to two organizations like this, so you'd centers we would try to find young young activists.

185

00:32:05.640 --> 00:32:16.260

Safet ?ari?: Young people who were working, we would reach out to them and be like hey, can you please organize 20 or 30 kids from this to this age spread the word through messenger to Facebook to fiber.

186

00:32:16.770 --> 00:32:36.240

Safet ?ari?: to your social media just try to get kids you know some communities, we were hoping to get 30 we would get I don't know 18 kids some communities, we were counting on 20 and then we got 35 you know, so the the response yeah response wasn't always equal everywhere.

187

00:32:36.990 --> 00:32:47.310

Safet ?ari?: But also we had a lot of kids coming to us as an organization afterwards, so they didn't attend our workshops, but they had the chance to see our.

188

00:32:47.580 --> 00:32:58.710

Safet ?ari?: exhibition, and they would contact us through emails or to these young activists and organizations local organization and be like hey this is amazing, I would like to participate in any way, we also had kids.

189

00:32:59.040 --> 00:33:10.320

Safet ?ari?: Who would come from one local community to the other, because they missed the one when when it was happening there and they wanted to participate, you know, next time, for me the the.

190

00:33:12.300 --> 00:33:24.840

Safet ?ari?: moment of Zen, so to speak, when I really realized that the project itself was really, really impactful was, I think, in the second or third time we were setting it, and this was in Moscow.

191

00:33:26.070 --> 00:33:34.350

Safet ?ari?: And we were setting the exhibition because I would have to go a day earlier before the exhibition take all the construction all the photos put it all together because.

192

00:33:34.650 --> 00:33:42.690

Safet ?ari?: I don't know if you had the chance to see the exhibition setup on on a city square it's yeah it's basically we have to assemble everything it's a process.

193

00:33:43.320 --> 00:33:51.090

Safet ?ari?: And we were setting this exhibition on the city square in July in Moscow and it's scorching hot it's like 40 degrees there's nobody outside.

194

00:33:51.780 --> 00:34:04.920

Safet ?ari?: And these two guys, I mean I don't know age, maybe 1920 years old, are walking with their backpacks and they stop and they start walking around exhibition checking reading everything and I didn't want to disturb it, they were I thought they were locals.

195

00:34:05.790 --> 00:34:08.430

Safet ?ari?: And the guy comes up to me and PS me in English like.

196

00:34:09.510 --> 00:34:17.520

Safet ?ari?: Is this yours, are you a part of your organization, we start talking, they are two kids I mean two young guys from the UK.

197

00:34:17.910 --> 00:34:28.350

Safet ?ari?: Who are traveling the region of Europe doing something like you do, but they were at the time, visiting you know doing research on on these building on the conflict generally in the region of vulcans.

198

00:34:29.160 --> 00:34:36.780

Safet ?ari?: And this was the last stop on their tour going back to do they were traveling the next day to Syria and then flying to the back to the UK.

199

00:34:37.680 --> 00:34:45.660

Safet ?ari?: And they were like this is the first positive thing that we managed to see in cities, set like this.

200

00:34:46.260 --> 00:34:51.570

Safet ?ari?: And also, they were like but not only here, even in the UK, we are.

201

00:34:51.990 --> 00:35:06.240

Safet ?ari?: Constantly bombarded with not just things conflict related but generally through media for younger generation, everything is so dull, so my numbering so stupid like reality shows all the time, nothing educational nothing.

202

00:35:06.630 --> 00:35:16.470

Safet ?ari?: You know that would make an impact on younger generation and they were like is there any way we can help do you need help with setting the exhibition can we can you know and.

203

00:35:17.430 --> 00:35:27.480

Safet ?ari?: Through them one of their friends actually later years, came to work for our organization as a volunteer from the UK, because we also have a huge volunteering internship program.

204

00:35:27.510 --> 00:35:27.960

Salim Stokey: In in.

205

00:35:27.990 --> 00:35:39.090

Safet ?ari?: The CRC we had over I think hundred and 50 interns so far going through the organization coming in here for for like three months to do an internship for us.

206

00:35:39.780 --> 00:35:54.150

Safet ?ari?: So, at that moment, I came to realize if somebody who's you know, like an outsider who doesn't really understand deeply the concept of the conflict and everything sees the value in it, then it's going to definitely make an impact for for locals as well.

207

00:35:56.010 --> 00:36:00.510

Salim Stokey: Well yeah that's that's amazing and you said that.

208

00:36:01.770 --> 00:36:13.650

Salim Stokey: You guys have done a look at requested a sort of professional research on the impact of the project right do you still have the report, maybe have that somewhere and I go.

209

00:36:14.520 --> 00:36:17.550

Safet ?ari?: Oh, maybe I would have to check with with.

210

00:36:17.730 --> 00:36:21.540

Safet ?ari?: Tatiana, but I think there, there might be a report from Sabina.

211

00:36:21.930 --> 00:36:41.070

Safet ?ari?: Somewhere i'm not sure if it's if it's online anywhere but i'll check that up for you and see if I can send you yeah, but if you Google Professor Sabina to hide clancy she's in a world renowned expert she's a regular teacher at the sorry I will.

212

00:36:42.780 --> 00:36:46.350

Safet ?ari?: Sorry, I was school of science and technology here in Sarajevo.

213

00:36:47.430 --> 00:36:55.260

Safet ?ari?: And she's also she later on, after the project became a member of our board because she was so deeply in love with.

214

00:36:55.590 --> 00:37:12.960

Safet ?ari?: Everything that we did, and all of our work she she was like I wanted to help you guys in any possible way that I can so yeah we came to realize that all of the organizations and all of the projects that that we're doing work on the ground, nobody had any hard data on the impact.

215

00:37:13.020 --> 00:37:13.890

Safet ?ari?: Of the project.

216

00:37:14.340 --> 00:37:24.390

Safet ?ari?: And we were like Okay, we understand that there's gonna be some impact of the project that we are doing, but we don't know how much like we don't know.

217

00:37:25.950 --> 00:37:26.310

Safet ?ari?: Sorry.

218

00:37:26.550 --> 00:37:28.470

Salim Stokey: it's hard to measure that as why I guess.

219

00:37:28.500 --> 00:37:37.080

Safet ?ari?: yep It is like Oh, we were thinking about like what what would be an adequate way of measuring if it may you know if.

220

00:37:37.710 --> 00:37:52.860

Safet ?ari?: It if it made somebody is mine change about anything so we came to realize that there are a lot of still divided deeply divided communities in buzzing it's coming I don't know if you heard about the that we still have the system of two schools under one roof.

221

00:37:53.190 --> 00:37:58.890

Safet ?ari?: Where kids are literally physically divided and they teach two separate different curriculums.

222

00:37:59.010 --> 00:38:05.280

Safet ?ari?: Do them also in smart some of the Communities very huge atrocities happen, for instance, instead, but anytime.

223

00:38:06.030 --> 00:38:13.530

Safet ?ari?: You will have kids of the same high school age going to the same high school, but they would never sit in the same coffee shop after.

224

00:38:13.950 --> 00:38:24.270

Safet ?ari?: You know, after class or they wouldn't you'll never have well almost never have kids you know Muslim sensitive sitting in the same bench training eventually being seen outside.

225

00:38:24.570 --> 00:38:35.010

Safet ?ari?: You know, on breaks socializing so, even though these schools were officially united, you know it's one school, there were still divisions among these kids so.

226

00:38:36.360 --> 00:38:48.630

Safet ?ari?: We decided to be the evolution on this so whether or not you would you know socialize with somebody from the other group, whether or not you would be wary of them, whether or not you would you know that's.

227

00:38:49.500 --> 00:38:59.370

Safet ?ari?: that's a common narrative from older generations to the kids in in Bosnia Herzegovina like yes, you can say socialized with service but we very they killed your grandfather or.

228

00:38:59.910 --> 00:39:07.380

Safet ?ari?: You can do whatever you want, you can socialize with them, but do not never marry because of the difference in in religious and so on and so on and so.

229

00:39:08.370 --> 00:39:17.430

Safet ?ari?: We thought that would probably be the best approach in a way, and so, Professor Sabina did a huge evolution well not huge relationship, but I think.

230

00:39:18.000 --> 00:39:29.460

Safet ?ari?: 40 or 50 different questions so we had to question areas one was given to these kids when they just approached the workshop when when they got in unsettled they didn't know anybody else.

231

00:39:30.480 --> 00:39:35.610

Safet ?ari?: They weren't officially acquainted to us the organization, what we do anything they were just given these.

232

00:39:36.180 --> 00:39:40.620

Safet ?ari?: Evaluating sheets, which they would feel simple questions whether or not you would.

233

00:39:41.220 --> 00:39:47.910

Safet ?ari?: I don't know go out with somebody who is a Bosnian Serbs or was incorrect or Bosnian Muslims, yes, no never she.

234

00:39:48.270 --> 00:39:56.610

Safet ?ari?: You know, divided the questionnaire in such a forum 40 or 50 questions i'm not exactly sure I think we still have the questionnaire is somewhere in the office.

235

00:39:57.270 --> 00:40:08.850

Safet ?ari?: And then, after two days period when they finished the workshops when we teach them about bystanders ship about moral courage about positive stories about.

236

00:40:09.660 --> 00:40:21.450

Safet ?ari?: neighbors who helped each other about coexistence about living together and so on and so on, about prosperity and everything that this can bring, then we would give them the.

237

00:40:22.050 --> 00:40:37.200

Safet ?ari?: same question same question areas, but with the questions changed a little bit so they're not exactly the same, they would go through them and then after we did all of the all of the Communities, we sat down and Sabina took all of the question areas and.

238

00:40:38.280 --> 00:40:40.410

Safet ?ari?: You know, calculated the hard data out of it.

239

00:40:42.600 --> 00:40:56.010

Safet ?ari?: it's it's been a couple of years now, so i'm not exactly sure on the numbers, but I think 73 or 74% shift in in in opinions on in a positive way of these kids on the question.

240

00:40:57.330 --> 00:41:02.490

Salim Stokey: And then you your projects day they all mainly focus on youth.

241

00:41:03.570 --> 00:41:07.590

Salim Stokey: So what, why is that, like is there a specific reason why you think.

242

00:41:09.390 --> 00:41:27.600

Safet ?ari?: Well, as an organization, we also worked a lot with with older generation so with victims of war with prisoners of war with victims of sexual assault and sexual violence, we did a huge project in I don't know if you are.

243

00:41:29.010 --> 00:41:46.980

Safet ?ari?: acquainted with the initiative and and sexual violence and conflict which was started by Miss Angelina Jolie in in 2014 we did the launch of the protocol which came out of this initiative for for bus in our school reunion, we did a lot of.

244

00:41:48.060 --> 00:41:51.180

Safet ?ari?: A lot of our work was also deeply involved with.

245

00:41:52.560 --> 00:42:09.690

Safet ?ari?: mother's of February pizza which are the survivor or organization of the survivors of 70s, a genocide with members of the death march in Serbian it's a one of our actually project that we are currently working on is focused on that, but we came to realize that.

246

00:42:11.700 --> 00:42:25.470

Safet ?ari?: Members of the older generations that, as we call them the survivors are real, they are a group which is hard to reach and really hard to change their opinions.

247

00:42:26.400 --> 00:42:40.530

Safet ?ari?: Also, we are fully aware that the younger generations are the ones that's gonna you know make or break the future of this country, unfortunately we've.

248

00:42:40.980 --> 00:42:54.570

Safet ?ari?: have witnessed a huge trend of young people leaving the country in the last five years, I think, in the last two years over 120,000 young people left the country.

249

00:42:55.320 --> 00:43:07.020

Safet ?ari?: For a for a country that has 3.8 billion people that's huge and we are mostly talking about young educated kids who finished either finished high school.

250

00:43:07.560 --> 00:43:24.870

Safet ?ari?: or in majority of cases finished university here and then left, so we are literally exporting young educated people into Slovenia into Austria into Germany, and they are more than willing to embrace you know why wouldn't you take.

251

00:43:26.070 --> 00:43:39.390

Safet ?ari?: A 2425 year old doctor who just finished Medical School you know you can shape him perfectly already have the general base for an amazing person in the future so.

252

00:43:40.410 --> 00:43:42.600

Salim Stokey: i'll leave were more economically.

253

00:43:42.660 --> 00:43:51.360

Safet ?ari?: Economically 100% like we're not talking about well, everything is post conflict related the economical situation and.

254

00:43:52.380 --> 00:43:54.330

Safet ?ari?: The Western society and Bosnian.

255

00:43:55.680 --> 00:44:14.520

Safet ?ari?: Government is so deeply fractured and so divided, that the bureaucratic system is eating away all of the funding from from the public sector and the atmosphere is so bad that you don't have foreign investment, you don't have people coming in bringing work bringing cash.

256

00:44:15.930 --> 00:44:25.200

Safet ?ari?: There are some communities and cities which are doing a little bit better than the others, some are really prosperous, because they have strong industries.

257

00:44:25.710 --> 00:44:40.500

Safet ?ari?: But in a majority of cases, we are literally bleeding young people there with the government system so corrupt and there's so much corruption and nepotism within public sector like.

258

00:44:40.950 --> 00:44:54.570

Safet ?ari?: getting a job as a young educated person now imagine studying your whole life coming out of university at the age of 22 or 23 so you are a bachelor or in many cases, you get an ma in.

259

00:44:55.500 --> 00:45:06.480

Safet ?ari?: I don't know law in economical studies in computer sciences and you apply to 20 or 30 different congress's for a job and you constantly are getting rejected.

260

00:45:07.590 --> 00:45:13.740

Safet ?ari?: there's like I would understand if you don't get one to five positions, but after 20 times you know.

261

00:45:14.610 --> 00:45:24.780

Safet ?ari?: there's obviously something wrong with the system yeah also young kids who do get an opportunity to work, we are talking about really, really, low wages, really.

262

00:45:25.380 --> 00:45:40.110

Safet ?ari?: Poor salaries, you know if you are an ma if you get an ma that means you dedicated a whole lot of time and a whole lot of money, investing into yourself and you need to start earning so you can give back, we have a.

263

00:45:41.940 --> 00:45:51.720

Safet ?ari?: As you know that the educational system in, especially in this part of Europe, education is free, even though the higher education is free to an extent, the bed, because the situation is so bad.

264

00:45:52.050 --> 00:45:59.580

Safet ?ari?: All of this humans are heavily reliable on help from their parents so we're not we don't have student loans, we don't have any system which would.

265

00:45:59.910 --> 00:46:10.350

Safet ?ari?: allow them to get themselves by themselves through high school through to higher education so in majority of cases, the families of these students are.

266

00:46:12.330 --> 00:46:23.760

Safet ?ari?: You know I wouldn't say suffering, but they are giving a lot of the financial funding they have in order to support their kids so they expect as soon as this kid finishes.

267

00:46:24.270 --> 00:46:32.070

Safet ?ari?: You know college to start working and start contributing to the family, you know, giving back to the family, so they could recover in a way, and.

268

00:46:33.240 --> 00:46:53.370

Safet ?ari?: yeah so a lot of younger people simply just gave up and they are going out, I have, I personally have friends i'm from a small city which is some 7080 kilometres away from from sorry I was born, they raised their finish high school there majority of my generation i'm 31 now.

269

00:46:54.570 --> 00:47:04.740

Safet ?ari?: There are, maybe two or three kids friends who stay there, with whom I can have a coffee when I go back I have friends who finished.

270

00:47:05.100 --> 00:47:15.300

Safet ?ari?: colleges, who are nowadays driving trucks in Slovenia, or in Germany, or you know Bulgaria anywhere in Europe in the European Union.

271

00:47:16.260 --> 00:47:31.710

Safet ?ari?: So yeah in a way, it is post conflict related due to this economical situation which is which deteriorated so bad because of such a bad political system that we have, which is a remnant from the war with the data, an agreement.

272

00:47:32.130 --> 00:47:36.630

Safet ?ari?: which was a peace agreement which was supposed to stop the conflict.

273

00:47:37.080 --> 00:47:51.570

Safet ?ari?: which was then transferred into a official constitution which divided the country, and now we are in a storm a position where we cannot advance anywhere, because the the bureaucratic system, the country is constituted so badly.

274

00:47:52.620 --> 00:48:04.350

Safet ?ari?: it's a fertile ground for corruption for nepotism and we are in this constant loophole, where we just we make one step forward two steps backwards and it's just tapping in place constantly.

275

00:48:05.640 --> 00:48:17.280

Salim Stokey: And so, as you said, like actually the this people studying in Bosnia deck it's sort of a family project in that sense that, like it's.

276

00:48:17.910 --> 00:48:33.030

Salim Stokey: Mostly, yes, but support and that sounds most of most of the times and and then do you know how parents react respond to like these kind of projects that you guys are organizing is that something do do sort of participants.

277

00:48:34.170 --> 00:48:37.770

Salim Stokey: Have like support from their parents or something or not, or is it like.

278

00:48:38.550 --> 00:48:49.470

Safet ?ari?: Well, that depends that depends on the Community where you are some of the communities are more open, more liberal, especially mix communities which remained.

279

00:48:49.980 --> 00:49:03.630

Safet ?ari?: Mixed in population after the war, so, for instance, when we were a tesla I consider Tuzla the best example of multiculturalism out and and three major.

280

00:49:04.740 --> 00:49:22.650

Safet ?ari?: ethnic groups and three major religions colliding in one place where people lived before the war, through the war and after the war in unity in basically in peace, but this is because Tuzla remained a free territory, even through the war in smaller communities, which were also mixed.

281

00:49:23.820 --> 00:49:38.100

Safet ?ari?: But we're ethnically cleansed through the war or we also have cases where you had one group was a consider consistent as a majority of population in.

282

00:49:38.790 --> 00:49:43.560

Safet ?ari?: That Community who's completely ethnically cleanse and the balance of of.

283

00:49:44.130 --> 00:49:59.790

Safet ?ari?: ethnicity changed completely, for instance in Russia, which was I don't know 70% Muslim population pre war is now 95 or 96% populated by Bosnian Serbs, so it was completely ethnically cleansed there was a whole shift in in in.

284

00:50:00.930 --> 00:50:12.420

Safet ?ari?: In the nationality of people living there it's harder to approach kids in these communities, because there's always this block from their parents.

285

00:50:12.810 --> 00:50:14.370

Safet ?ari?: who have their own narratives.

286

00:50:14.820 --> 00:50:26.430

Safet ?ari?: You know so it's harder to reach these kids but we focus a lot on these communities, because those were the kids that actually needed a different point of view.

287

00:50:28.470 --> 00:50:31.740

Safet ?ari?: A lot of them, you know went through to our.

288

00:50:32.940 --> 00:50:48.090

Safet ?ari?: To our workshops i'm pretty sure without their parents even knowing because you know you know they didn't want to go to their friends to be like a yeah i'm going i'm going to go to this workshop no talk about others about Bosnian Serbs are Bosnian Muslims and so on and so on.

289

00:50:49.200 --> 00:50:59.670

Safet ?ari?: But you could literally like to our workshops, you could literally see the change in these kids because they were constantly exposed to just one narrative.

290

00:51:00.390 --> 00:51:14.250

Safet ?ari?: One story one side of the story, and when they had the chance to see positive examples when they got the chance to sit down with members of their own group, if we are talking about a.

291

00:51:16.230 --> 00:51:26.520

Safet ?ari?: Community which is mostly mono ethnic, so we are talking about kids who come from the same ethnic group, but when they had the chance to sit down 1520 of them and start talking.

292

00:51:27.120 --> 00:51:30.330

Safet ?ari?: About members of the other groups, whether or not they were socialized.

293

00:51:30.840 --> 00:51:38.190

Safet ?ari?: Then you will have somebody going here, but I have a friend who's Muslim you know or I went to school, I have a friend in Tuzla which I go and visit regularly.

294

00:51:38.550 --> 00:51:57.210

Safet ?ari?: and positive stories like that would start popping up and you can see, the change in in in these kids you can literally see, they are happening, also a really, really good, positive example for me, was one of the girls, who was a youth activist from one of these mono ethnic.

295

00:51:58.290 --> 00:52:08.700

Safet ?ari?: communities who was heavily exposed to a one sided narrative she came from a Bosnian Bosnian Serbs community.

296

00:52:09.720 --> 00:52:19.680

Safet ?ari?: Well, actually, she was born and born in cerebral right at the start of the war, so they had to run out, they were exiled she lived as a refugee.

297

00:52:20.280 --> 00:52:33.600

Safet ?ari?: And she had even though she was a in a way you attractive is that a piece builder in a way she had this really narrow narrow view on on crimes and things that happened.

298

00:52:34.350 --> 00:52:39.540

Safet ?ari?: To our workshops to collaborating with us, through our work through the projects that we did.

299

00:52:40.470 --> 00:52:48.510

Safet ?ari?: She came to me personally, we were having a coffee and she said to me like this was a huge eye opener for me personally.

300

00:52:49.260 --> 00:52:56.760

Safet ?ari?: Because I came to realize that as a individual as a young Bosnian Serbs, I have to sit down.

301

00:52:57.540 --> 00:53:07.770

Safet ?ari?: And do my own research, I have to go through a lot of material listen to stories from people from Bosnian Muslims from Bosnian crowds.

302

00:53:08.370 --> 00:53:21.570

Safet ?ari?: I have to face crimes that Members from my own group committed, and only then can I start or actually continue talking about crimes that were committed against my ethnic group.

303

00:53:22.680 --> 00:53:32.730

Safet ?ari?: And that was really important for me, you know, because this was somebody who was already 2425 years old, who was already shaped as an individual as a person, you know.

304

00:53:33.750 --> 00:53:49.260

Safet ?ari?: And if, through our work she managed to see that there was something faulty in the narrative that she was constantly being exposed and to realize that hey there's more to this than I am being told, and did I need to do my own research that's I think.

305

00:53:49.830 --> 00:53:50.820

Salim Stokey: yeah that's beautiful yeah.

306

00:53:50.880 --> 00:53:51.690

Safet ?ari?: yeah exactly.

307

00:53:52.320 --> 00:53:57.840

Salim Stokey: um and Okay, like, I think I have so many so many things that.

308

00:53:58.140 --> 00:54:00.240

Safet ?ari?: That I covered most of the questions yeah.

309

00:54:01.980 --> 00:54:02.040

Salim Stokey: wise.

310

00:54:03.060 --> 00:54:19.230

Salim Stokey: I was wondering still which I asked everyone what's what recommendations would you give like other projects that people that also like you want to contribute to the Community and set up these kinds of projects, what is the main thing that they would have to think about.

311

00:54:19.800 --> 00:54:21.900

Safet ?ari?: Well, first thing would be.

312

00:54:23.490 --> 00:54:43.350

Safet ?ari?: For us as an organization, I told you how important the young generations are, I would say, mostly focus on the youth and think outside of the box put yourself, I mean when I started working in the NGO sector, I was at I was what 2021 and in the past 1012 years.

313

00:54:44.580 --> 00:54:51.300

Safet ?ari?: I mean I matured in an age where I don't consider myself a teenager or a boy anymore and.

314

00:54:52.710 --> 00:54:53.790

Safet ?ari?: I can see that.

315

00:54:54.930 --> 00:55:08.820

Safet ?ari?: The trends are constantly evolving the trends are moving the ways in you can approach kids has shifted a lot in the past five years, so when we started ordinary heroes project.

316

00:55:09.330 --> 00:55:18.660

Safet ?ari?: You know, documentaries and YouTube putting a video on YouTube was big and impactful nowadays we're talking about social media, which are.

317

00:55:19.380 --> 00:55:34.230

Safet ?ari?: You know, you need to make videos which are really short like 510 seconds try to you know gain access to the audience in a different way use social media use Facebook use ads, so I would say that we, as an organization.

318

00:55:35.190 --> 00:55:44.700

Safet ?ari?: Generally, or all of the peace building organizations in the regional Balkans and altogether have to think in innovative ways in which we are going to approach the audience.

319

00:55:45.690 --> 00:55:56.970

Safet ?ari?: have to be constantly evolving and checking friends on what's going on what's happening among the youth, and we are somewhat starting to balance this by.

320

00:55:57.420 --> 00:56:07.500

Safet ?ari?: Including more and more youth within our team itself, so we just had to newest addition to our team which are really young young people, you know age 2021 22.

321

00:56:09.240 --> 00:56:20.280

Safet ?ari?: And we're constantly going back and forth to them like you know we do something, a brochure or something and then be like, but would you read it, as you know, if some somebody else approached you with this would you.

322

00:56:20.730 --> 00:56:37.890

Safet ?ari?: be interested in device on it, you know, giving your attention to it so that's something that's that's definitely has to, we have to move i'm not saying that the the whole system of lectures conferences isn't important, you have to have a professional.

323

00:56:39.120 --> 00:56:45.420

Safet ?ari?: Explaining and describing the issue is, you know that's that's still relevant but for young people.

324

00:56:45.900 --> 00:56:56.760

Safet ?ari?: attending an eight hour long conference when they were they'll have a lecturer just telling them, you know conflict is this and you have to build bs by doing this bs building processes is.

325

00:56:57.660 --> 00:57:02.670

Safet ?ari?: Living Mather it's a thing that's constantly evolving, you cannot just take one strict.

326

00:57:03.210 --> 00:57:13.770

Safet ?ari?: route to it because it's not gonna work you are going to make an impact, but it's not going to be as impactful, as you will wishes to be and, aside from.

327

00:57:14.430 --> 00:57:23.070

Safet ?ari?: Working on peacebuilding I would say that all of the NGOs, especially in the post conflict communities have to focus on prevention.

328

00:57:23.850 --> 00:57:34.140

Safet ?ari?: that's a huge huge aspect of the peace building work that constantly has to be addressed this region of the world is famous for for conflicts.

329

00:57:34.650 --> 00:57:55.050

Safet ?ari?: This was just the last one, the one from 92 to 95 we had we had problems here during the World War to World War one even earlier i'm not saying that other places don't, but this is, we like to consider ourselves the most volatile part of Europe, you know the bomb of Europe ticking bomb.

330

00:57:56.340 --> 00:58:15.030

Safet ?ari?: So I would say that, working on prevention is equally important, as working on reconciliation and and and these two processes are really closely tied together in the last couple of years we worked a lot as an organization on preventing.

331

00:58:17.640 --> 00:58:34.470

Safet ?ari?: Extreme radical Islam extreme violence on preventive preventing hate speech in social media, because this is something that is really, really common in not only negative and one sided narratives in Boston what's going on, but we are talking about.

332

00:58:35.790 --> 00:58:45.210

Safet ?ari?: extremism, we are talking about hate speech, which is really something to worry about if you have kids who are 18 years old, you whom you can see.

333

00:58:45.930 --> 00:58:56.820

Safet ?ari?: so easily use phrases of hate speech in public space that's something that needs addressing you know it's something that's that's really important to to important to take care of.

334

00:58:58.050 --> 00:59:11.970

Safet ?ari?: We, in collaboration with the UN form the first genocide prevention alliance in this region of Balkans where we involve pretty much all of the organization, who were working on something.

335

00:59:14.010 --> 00:59:20.790

Safet ?ari?: Post conflict related or genocide prevention related because that's genocide, prevention is a huge segment of our work as well.

336

00:59:21.630 --> 00:59:31.560

Safet ?ari?: We work directly with the general undersecretary of the UN and the UN genocide prevention office in New York we've organized.

337

00:59:32.310 --> 00:59:49.380

Safet ?ari?: Local in in the region of vulcans we organize seminars, we organized the educational platform for other NGO workers trying to form this sort of speak a preventive network, which would.

338

00:59:51.720 --> 01:00:07.800

Safet ?ari?: trigger you know alerts if there are negative behavior or negative trends which could lead to further conflicts, so we wanted to set some sort of some sort of preventive mechanism for the future, so.

339

01:00:07.980 --> 01:00:08.970

Safet ?ari?: that's something.

340

01:00:09.360 --> 01:00:11.220

Salim Stokey: warning system that as well.

341

01:00:11.760 --> 01:00:14.430

Safet ?ari?: Yes, exactly that that's that's how we wanted to.

342

01:00:15.060 --> 01:00:28.800

Safet ?ari?: set it up so, for instance, if there are some negative activities or an uprising in extremism happening in order Macedonia, we as an organization wanted to know like, then we can alert others, we can alert you know.

343

01:00:29.250 --> 01:00:31.590

Safet ?ari?: whomever we get the chance to which who are media because.

344

01:00:31.980 --> 01:00:37.440

Safet ?ari?: we've gained a lot of visibility and there are organization India lions who are even bigger than us.

345

01:00:37.680 --> 01:00:52.710

Safet ?ari?: Who can you know reach the stakeholders in time and tell them, you know there's something happening there, pay attention you know address it in a way, so sort of a preventive you know system which would at least alert that there's something going on.

346

01:00:53.910 --> 01:01:11.880

Safet ?ari?: All of the peace building, all of the reconciliation work that we are doing is focused on prevention, so we think that by influencing these younger generations young people to think in a different way, we are hopefully preventing a further future conflict which.

347

01:01:13.470 --> 01:01:31.290

Safet ?ari?: Honestly, could arise it's it's not it's not like something that's they said that the genocide in modern Europe had never happened, and then you had 70 saying 9095 so it's a lesson for, for you know future generation to constantly keep talking about it.

348

01:01:32.790 --> 01:01:39.360

Safet ?ari?: You know, build awareness of it, so that we don't have something like this happening again in 50 or 100 years.

349

01:01:40.380 --> 01:01:47.220

Salim Stokey: Well, is there anything else you would like to add, for me that you're having discussion.

350

01:01:47.760 --> 01:02:01.380

Safet ?ari?: There will probably be things that I will well, we are a small organization, but in the past 10 years we did so much work we were involved in so many projects researchers documentaries.

351

01:02:02.790 --> 01:02:15.840

Safet ?ari?: Public analysis and so on and so on i'm sure that there are still things which would be beneficial and interesting for you what I would suggest you do is go to rp CRC websites just go to the projects because.

352

01:02:17.340 --> 01:02:21.360

Safet ?ari?: Most of the time we don't even get the time to update our website with everything that we do.

353

01:02:21.870 --> 01:02:27.150

Safet ?ari?: But every year or two we sat down and we write down all of the projects that we didn't just put it out there.

354

01:02:27.540 --> 01:02:33.060

Safet ?ari?: If there's anything else you find which could be interesting because there are so many projects that we worked on which.

355

01:02:33.510 --> 01:02:44.430

Safet ?ari?: are really interesting really impactful feel free to shoot me an email or, if needed, we can schedule another another meeting i'm like I said i'm always more than happy to help.

356

01:02:45.120 --> 01:02:55.410

Safet ?ari?: But I think, as far as ordinary heroes and the ball can discuss the most active projects and the most impactful one, I think we covered pretty much everything that has.

357

01:02:59.010 --> 01:03:05.730

Salim Stokey: never done very much fits with the audio interviews i've had so far so i'm really happy about that.

358

01:03:06.840 --> 01:03:12.810

Salim Stokey: And yeah I hope that you have a good week Besides this, and.

359

01:03:13.860 --> 01:03:15.990

Salim Stokey: Good luck with like continuing this great work.

360

01:03:16.500 --> 01:03:28.710

Safet ?ari?: Thank you, thank you, thank you, likewise Halloween good luck with your with your research and with your work like I said, if you have any additional questions feel free to shoot it directly on to my email i'm more than happy to help you with.

361

01:03:29.070 --> 01:03:30.420

Safet ?ari?: Thank you okay.

362

01:03:31.050 --> 01:03:32.130

Safet ?ari?: Have a good weekend ciao.
